AT YES BANK, OUR DIFFERENTIATION BEGINS WITH A SINGLE WORD – YES

YES BANK, India's fourth largest private sector bank is a high quality, customer centric, service driven, private Indian Bank catering to the Future Businesses of India.

Since inception in 2004, YES BANK has grown into a 'Full Service Commercial Bank' providing complete range of products, services and digital offerings, catering to corporate, MSME & retail customers. YES BANK operates its Investment banking, Merchant banking & brokerage businesses through YES SECURITIES, a wholly owned subsidiary of the Bank.

YES BANK has pan-India presence across all 29 states and 7 Union Territories in India with a footprint of:

1100

Branches

1724

ATMs

Vision

YES BANK is committed to its vision of 'Building the Finest Quality Large Bank of the World in India' having evolved its organizational ethos into the 'Professionals' Bank of India'

YES BANK is headquartered at the Lower Parel Innovation District (LPID) of Mumbai.

FUTURE NOW

We might not have flying cars, sophisticated sci-fi gizmos or time travel yet, but no one can deny the fact that the world has changed dramatically in the last decade. The shift due to unprecedented digitization has led to obsolescence, not just of technological architecture but also of business models, management frameworks, and most importantly, obsolescence of the skillsets of our human capital. This is especially true in the banking sector, globally and in India.

While the business of banking, intermeshed with macroeconomic scenarios, will continue to navigate both the intermittent headwinds and tailwinds, there has been another strong story building up on the back of technology driven disruptions.

Banking which has followed a pattern of natural evolution over centuries, is now metamorphosing at Godspeed.

While the core fundamentals of banking, or for that matter any business, haven't changed given the speed of transformation, we have to literally change the engines while flying, without letting our eyes off the radar.

When you start considering the inverted model of the future already in the present, the definition of change itself needs to be altered as well to match the evolution of customer behaviour. Now, more than ever, we need to ensure that the Customer is truly at the centre of our strategy, we need to understand the customers' needs – stated, unstated, and constantly evolving – and couple that with relevant products and solutions delivery. A bank or financial institution no longer holds sway over the customer as technology has made it feasible for the customer to choose the best solutions available in the market, fairly seamlessly. And this will only further accentuate in the years to come. At YES BANK, we saw weak signals of this change a few years ago.

Breaking stereotypes, challenging the status-quo and doing things differently has always been a part of our organizational DNA.

We have tried to look into the future, and embrace the tomorrow, today. At YES BANK we call this FUTURE NOW. A future where uncertainty is embraced and harnessed to bring about critical change in businesses.

For YES BANK, Future Now is going beyond the 'rhetoric' of customer centricity, and embedding it across the entire organization – in its customer journey and experience, supported by reimagined products and services, technology, operations and human touch points.

Future Now is about thriving in the digital age by challenging conventions and embracing change. The year 2017 was about being FutuReady. Through ART of Banking (Alliances & Relationships with underlying Technology) we conceptualized and tested ideas of the future.

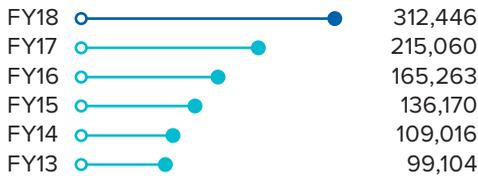

The year 2018 is about embracing Future Now, scaling these interventions, and fast forwarding YES BANK into the future.

MESSAGE FROM THE NON-EXECUTIVE CHAIRMAN

Ashok Chawla

Non-Executive Independent Part-time Chairman

YES BANK was the first Bank in India to successfully implement innovation in Supply Chain finance using Blockchain and API (Application Program Interface) Banking.

Dear Shareholders,

The Global economy's cyclical upswing continued to intensify in 2017. In line with this, the Indian economy continued to gain momentum, aided by decisive policy decisions taken by the Government of India in the last few years. India's economic prospects for FY19, therefore, appear promising.

To support the acceleration in the economy, revival of India's banking sector will need to keep pace with it. The process of resolution of the asset quality pressures and NPA issues, which has got streamlined through the Insolvency and Bankruptcy Code (IBC) framework, is likely to witness material progress in the days ahead.

Revival apart, banking itself is changing radically and changing fast. The banking sector has become increasingly tech-driven. YES BANK initiated this change three years ago and is at the forefront of digital transformation. It is a matter of satisfaction that

Digitization has been across the entire spectrum:

- **Backend Processes**
- **Launch of new products and services across payments**
- **Lending**
- **Transaction Banking**
- **Deploying AI (Artificial Intelligence) solutions**
- **Robots**
- **Using data for risk management**
- **Client servicing**

YES BANK was the first Bank in India to successfully implement innovation in Supply Chain finance using Blockchain and API (Application Programming Interface) Banking.

As the Bank continues its digital journey in pursuit of enhanced customer satisfaction and efficiency, the Bank continued to receive multiple accolades recognizing its stellar performance on parameters across:

- **Business and Financial Outcomes**
- **Responsible Banking**
- **Innovation**
- **Financial Inclusion**
- **Digital Banking and Fintech**
- **Transaction Banking**
- **Human Capital, among others**

In terms of governance, the Board of Directors continued to extensively engage with the top and senior management leaders of the Bank during various Board/Committee meetings. Such engagements allow the Board to provide guidance to the leadership team to ensure long term sustenance of the Bank's business strategy. The Board continues to have confidence in the long-term success of the Bank, backed by a robust record of regulatory compliance and a prudent approach to risk management.

Recently, Mr. Saurabh Srivastava retired from the Bank's Board owing to the completion of his term and Ms. Debjani Ghosh resigned from the Board due to her preoccupation on account of her joining the NASSCOM as Executive President. I would like to thank them for their valuable contribution to YES BANK's Board over the years. YES BANK also appointed Mr. Subhash Chander Kalia, Mr. Rentala Chandrashekar and Dr. Pratima Sheorey on the Board of the Bank. We look forward to their contribution towards the growth of the Bank. The current Board of the Bank comprises of 9 Directors, including 6 Independent Directors, strengthening the Bank's governance commitment.

All of these building blocks rest on a deeper foundation - the TRUST that your Bank has earned from its customers and other stakeholders. The coming year will be an important one for YES BANK.

We will work ceaselessly along with all stakeholders to ensure a successful journey in the mission of "Building the Finest Quality Large Bank of the World in India" sooner than later.

MANAGING DIRECTOR & CEO'S COMMUNIQUE

Rana Kapoor
Managing Director & CEO

FY18 can be classified as the year of economic flux with profound economic changes on both the global and domestic front.

Dear Shareholders,

Since my last communication through YES BANK's Annual Report 2016-17, the economic and business landscape has undergone substantial changes.

The financial year 2017-18 was marked by two critical economic elements.

It was a year of two halves, which saw sharp contrast in the manner and magnitude in which the economy grew in the first and the second half. Transient adjustment challenges emanating from lagged impact of 'Demonetization' and the implementation of the GST (Goods & Services Tax) weighed upon the business climate in the first half of the year.

However, with the second half of the year witnessing near complete 'Remonetization' of the economy along with prompt smoothening of the GST architecture, business activity revived with the country's GDP (Gross Domestic Product) projected to grow at 7.2% during Oct-Mar FY18 vis-a-vis 6.1% growth seen in Apr-Sep FY18. FY18 can be classified as the year of economic flux with profound economic changes on both the global and domestic front.

Globally, economic recovery gathered momentum with 2017 characterizing a synchronized improvement across all regions.

World GDP growth as estimated by the IMF (International Monetary Fund) touched 3.8% in 2017, the highest since 2011.

Domestically, economic flux was manifested in the conduct of RBI's (Reserve Bank of India) monetary policy, with a shift in policy stance to 'neutral' from 'accommodative' during the course of the year.

More importantly, the flux was premised upon key structural transformations like Demonetization, IBC (Insolvency & Bankruptcy Code), and GST, which has already started to alter both the 'ease' and 'way' of doing business in India.

The year witnessed two major global endorsements for these policy reforms – India’s sovereign credit rating got an upgrade from international rating agency Moody’s to Baa2 from Baa3 and India leapfrogged to secure a rank of 100 in World Bank’s Doing Business Assessment Report, from 132 earlier.

These structural policy reforms have started ushering in the desirable drive of ‘Formalization through Financialization’ of the economy while also helping revive investments by unlocking stuck capital in non-productive assets.

In this context, I see the following five trends worth highlighting:

- **Global Opportunities and Challenges**
- **Formalization through Financialization**
- **Buy Vs. Build**
- **Digital Infrastructure**
- **Staying Ahead**

GLOBAL OPPORTUNITIES AND CHALLENGES

The IMF estimates World GDP growth to improve to 3.9% in 2018 and 2019. This is encouraging for India’s exports, which recovered to 9.8% growth in FY18 from 5.2% in FY17.

While external demand is likely to provide a tailwind, volatility in global conditions could stem from further hardening of global interest rates and the destabilizing impact of trade protectionism. India should take this opportunity to:

- Suitably adjust domestic cost of funding growth, keeping in mind global dynamics and domestic requirements of monetary and financial stability.
- Carve out mutually beneficial terms of market access within the WTO (World Trade Organization) framework to promote Make in India program and seek to replace China as it moves higher up the production value chain.

The banking sector will synchronize its growth agenda depending on the calibrated and patient domestic policy response on domestic interest rates and government’s restraint in converting the global trade constraints into sectoral opportunities. YES BANK raised capital across a wide array of transactions partnering with leading national and international institutions, thus demonstrating its ability to raise capital across products and cycles and is well positioned to capitalize on the expected growth momentum in the Indian economy.

FORMALIZATION THROUGH FINANCIALIZATION

Jan Dhan, Aadhaar, PAN, and GST are helping formalize the Indian economy through greater financialization, which is expected to be manifested in a higher preference for financial savings along with improved tax buoyancy. More importantly, these reforms are expected to start resulting in productivity gains for the overall economy. These ongoing behavioural shifts have started beneficially impacting the banking and financial industry with important ramifications and business opportunities for working capital cycle, payments and settlements space, and the asset management industry.

BUY VS. BUILD

With capacity utilization in the manufacturing space currently remaining subdued at around 73%, the IBC framework encourages a time-bound sale of stressed assets, thereby promising a fillip in M&A activities. This is likely to result in industry-wide consolidation as the wheat gets separated from the chaff, which will help unlock stuck capital and revive private investments. This is likely to generate financing opportunities for the financial sector.

DIGITAL INFRASTRUCTURE

The Jan Dhan, Aadhaar – Mobile trinity, and with India Stack coupled with innovations from private sector, fintechs and banks, has ushered in an irreversible transformation of banking and financial industry in terms of customer experience, operating margins and overall productivity.

These emerging trends will create both winners and losers. The banking and financial industry will need to be cognizant of the risk-reward structure in these emerging opportunities with focus on managing market, credit, operational, and last but not the least, human resource risk.

FY 2017-18 was a significant year in YES BANK's lifecycle wherein the Bank took several initiatives aimed at preparing to scale up and fast forward YES BANK into the future.

From launching chatbots for customer connect and using blockchain for transactions, to being one of the first banks to implement UPI for enabling digital payments and deploying Robots in the mid, back and front offices, YES BANK has already taken a lead in this sphere. Going forward, with growth of connected systems – Big Data and AI – ML, among others – should galvanize significant progress in the fintech space.

By embracing the Future Now philosophy, YES BANK is bringing in the future of banking to the present, having seeded and scaled multiple such initiatives as part of our digital transformation, both within and outside the YES FINTECH initiative.

We are now in the 4th year of our LARGE BANK phase and have already achieved a CASA ratio of 36.5%, making substantial progress towards achieving size and scale as a LARGE Bank, with a firmly embedded digital banking ethos, and a focus on quality.

We at YES BANK believe in being nimble-footed while positioning for gains in mindshare and market share. It is a matter of immense institutional pride for me that YES BANK is playing an important role in helping transform India.

STAYING AHEAD

I would like to acknowledge and thank Mr. Saurabh Srivastava and Ms. Debjani Ghosh for their contribution and valuable guidance as part of YES BANK's Board over the years.

As we accelerate into the next financial year, YES BANK is fully equipped to actualize our strategy of building a strong Corporate, Retail and Digital Banking franchise through process, product and service innovations and ahead of the curve digital interventions.

With support from valued shareholders such as yourself and all our stakeholders including clients and partners, YES BANK is committed to ensuring a culture of Professional Entrepreneurship as we move towards our vision of 'Building the Finest Quality Large Bank of the World in India'.

Thank you.
Sincerely,

Rana Kapoor
Managing Director & CEO

ROBUST RISK MANAGEMENT

YES BANK has maintained a consistent approach to risks and endeavors to protect customers' funds, lend responsibly, and support development of the economy.

We have been nimble in adapting transformative technologies to augment our risk management framework by designing robust systems and processes, utilizing state-of-the-art digital innovations.

The Risk Management culture is deeply embedded in the core values of the Bank and is continually reinforced through clear and consistent communication and appropriate training of employees.

The Bank is committed to the highest standards of compliance vis-à-vis regulatory guidelines and internal prescriptions. All employees are responsible for the management of risk, with the ultimate accountability residing with the Board of Directors. YES BANK's Board-approved Risk Appetite statement summarizes the risks that the Bank accepts as part of doing business – Credit Risk, Market Risk and Liquidity Risk – along with risks that the Bank assumes as part of conducting business, such as Operational Risk, as well as risks for which the Bank has zero tolerance, such as Compliance Risk.

The approved Risk Appetite and Risk Limits are continuously monitored by the Risk Management team and is overseen by various Management Committees and Board sub-committees.

Stress Testing is an integral part of our Risk Management framework

It helps the management and the Board understand the nature and extent of vulnerabilities to which the Bank is exposed.

Our risk culture also involves proactive risk identification, appraisal and appropriate time-bound initiatives to mitigate risks with the objective of balancing risks with returns.

The Bank has set robust risk filters and systems that enable it to detect early warning signals and embrace appropriate proactive actions.

The Bank's Risk Management framework is forward-looking and includes coverage of Environmental and Climate Risks. The Bank's Environment and Social Policy recapitulates the commitments of the Bank to mainstream environmental and social issues strategically as an integral dimension of business. It enables the Bank to develop processes to recognize, evaluate, and to the highest degree possible, monitor the environmental and social facets of its banking operations and stakeholders, reinforcing the Bank's commitment to sound sustainability practices.

The Bank continually invests to fortify the resilience and reliability of IT and Information Security systems to enable seamless customer services and mitigate various aspects of cyber related threats and risks. This has facilitated the Bank in offering a vast array of digital products and services to customers and promote safe, secure and convenient banking.

DIGITAL BANKING

In a world that is rapidly embracing the digital way of life at an unprecedented rate, competitive advantage will shift from providing satisfactory customer service to enabling exceptional real-time customer service, backed by solutions that will constantly learn and adapt to out-think the needs of the market.

To take the 'Giant Leap', YES BANK has adopted the philosophy, 'FUTURE: NOW', by embracing tomorrow, today.

With the A.R.T (Alliances, Relationships and Technology) approach and by following lean methodology for all Digital Banking initiatives, YES BANK aims to draw on the intelligence that new technology brings to make ourselves Future Ready for the customer of tomorrow.

During FY 2017-18, YES BANK took significant steps that will lead to this giant leap to make the Bank a Future Ready Digital Bank.

1 UNIFIED DIGITAL EXPERIENCE

Realizing the speed and importance of global tectonic shifts in the digital space and specific to the banking industry, YES BANK has invested significantly in upgrading core systems like Core Banking System, Debit Card Switch, Mobility Platforms and Chatbots. The Bank shall continue to do so for the coming 24 months to create a next generation digital platform which can provide a 'Unified Digital Experience' across internet, mobile, voice and BOT channels.

These initiatives will ensure that there is heightened customer engagement and superior customer service. For example, over the previous year, YES BANK has pioneered implementation of 'BOTS' technology for Customer Acquisition, Personal Banking Assistant, Cross Sell and Customer Servicing for various businesses. In addition to helping customers explore YES BANK services and seek product information, YES BANK's 'YES ROBOT' also allows customers to transact over chat, which is one of the industry-first features integrated into the Bot.

YES BANK is also creating Centers of Excellence for Robotics and Analytics which will play a pivotal role in reducing service time and enhancing the quality of customer interactions, elements key to Customer Delight.

YES BANK's digital banking strategy is structured around:

- 1 **Investing in technology to create customer facing digital platforms that result in superior customer experience while ensuring optimal cost saving**
- 2 **Build digital businesses around emerging payment systems to address untapped segments and create a multiplier effect on the reach**
- 3 **Work with various Government and Municipal bodies, and contribute towards creating Digital India**

2 A.R.T. AND EMERGING PAYMENTS

While designing a unified digital experience for customers has been a key focus area, Digital Payments is another area where YES BANK has been focusing on gaining leadership position by adopting the A.R.T. (Alliances – Relationships-Technology) framework. This approach in conjunction with the Future: Now philosophy has helped the Bank accelerate its innovation and technology adoption and show tremendous speed in go-to-market of digital payment platforms targeted at specific use case for both corporate and retail customers.

It is noteworthy to mention that YES BANK's hugely successful YES FINTECH program has leveraged the A.R.T. philosophy and strengthened innovation culture of the Bank by developing a platform to co-create and interact with more than 1,500 startups and fintechs in the country during the last two cohorts, rapidly growing on the innovation curve.

The A.R.T. way of doing digital banking has also helped YES BANK emerge as a market leader in UPI transactions. YES BANK is scaling up IMPS, BBPS and Prepaid Payment Instruments through multiple third parties. Further, as Aadhaar proliferates, YES BANK's focus will be on scaling up Aadhaar-based Banking and Payment Services (AEPS, ABPS and Aadhaar Pay) and in this regard the Bank is partnering with industry pioneers to launch IRIS and EMV-ready payment solutions. The Bank is also exploring technologies like Blockchain for easing out settlement and reconciliation processes.

3 SMART CITIES AND DIGITAL INDIA

Contributing to the Prime Minister's Digital India and Smart City Missions, YES BANK is working with multiple State Governments and Municipal Corporations by offering them customized smart city solutions for digital payments.

- YES BANK launched Nashik City Prepaid Card Program for facilitation of 51 G2C services of Nashik Municipal Corporation through existing and newly created Customer Facilitation Centers.
- The Bank has been selected to partner with Maharashtra, Rajasthan, Rajkot Smart City and Chhattisgarh State Government to roll out digital payment solutions.
- YES BANK has also become the Digital Banking partner for Puducherry Tourism Development Corporation (PTDC) for issuance of Co-Branded Prepaid Cards for cashless transactions.
- Further, the Bank is working closely with the Food and Civil Supplies Ministry, Government of Maharashtra, to facilitate their Fair Price Shops with basic setups to enable banking transactions.

Efforts are on to create more such opportunities and touch innumerable Indians through various digital payment solutions.

HUMAN CAPITAL MANAGEMENT

At YES BANK, our Human Capital philosophy focuses on creating the right mindset to enable business performance by empowering and encouraging our executives to push their boundaries beyond their comfort zones, embrace challenges and drive growth.

Culture

We engage and develop our Human Capital by creating a 'YES BANK culture' focused on encouraging open and honest Communication, strengthening Connect among employees and the community, supporting Career development and showing that 'We Care' as an organization. All of these are underpinned by YES BANK's integrated Vision and Values framework. YES BANK has always emphasized on Knowledge as a key differentiator, wherein we continuously enhance the capability, capacity and confidence of our Human Capital by creating an environment of continuous learning which equips them with knowledge and skills aligned to YES BANK's strategic objectives, business goals and regulatory requirements.

USRM (University Relationships)

Our University & School Relationship Management (USRM) program is a structured, sustainable and scalable engagement process that creates and maintains the maximum mindshare for YES BANK among the students of Top B-Schools in India, positioning us as a preferred Employer of Choice.

Hiring of 75 management graduates from premier B-Schools in FY 2017-18 through the Y-PEP (YES Professional Entrepreneurship Program), the flagship program for campus recruitment, is testimony to the success of the USRM program.

Digitization

In line with the Bank's focus on creating competitive advantage through HCM Digitization, the Bank has put in place robust systems and processes encompassing cloud based HRIS system with enhanced interface for superior user experience and mobile based solution for ease and convenience of employees.

YES BANK has leveraged cutting edge Digital technologies and Robotics Process Automation (RPA) to automate processes in Compensation, Payroll administration and HCM initiatives. HCM Digitization has also enabled the Bank to make our Engagement and Wellness Strategy more robust, scalable and effective through mobile and interactive Bot based solution.

To further strengthen our focus on the Return on Time Invested (RoTI), Productivity and Cost optimization, YES BANK has launched a slew of initiatives covering all HCM functions including Performance Management, metrics for measuring and tracking productivity, and review of organizational structures and processes.

FINANCIAL INCLUSION

In line with its Responsible Banking vision of mainstreaming sustainability within its core business operations and cognizance of the needs of 'The Next Billion' customers, YES BANK has steadfastly focused on inclusive growth of emerging India.

Through a specialized Business Unit – Inclusive and Social Banking (ISB) – the Bank has adopted the guiding principle of Frugal Innovations for Financial Inclusion (FI4FI). The objective is to systematically leverage Information and Communication Technologies (ICT) and frugal business models to offer focused financial solutions, catering to India's under-banked and unbanked population.

The Bank is also foraying into a cashless and paperless ecosystem. The Bank's innovative and sophisticated financial tools and technologies are designed in partnership with credible technology partners, and are used to offer solutions that ensure better efficiency, security and viability

Towards creating a multiplier effect, YES BANK has collaborated with technology organizations. Such a strategy has helped unveil new avenues of extending even more expedient products to customers.

Yes Leap

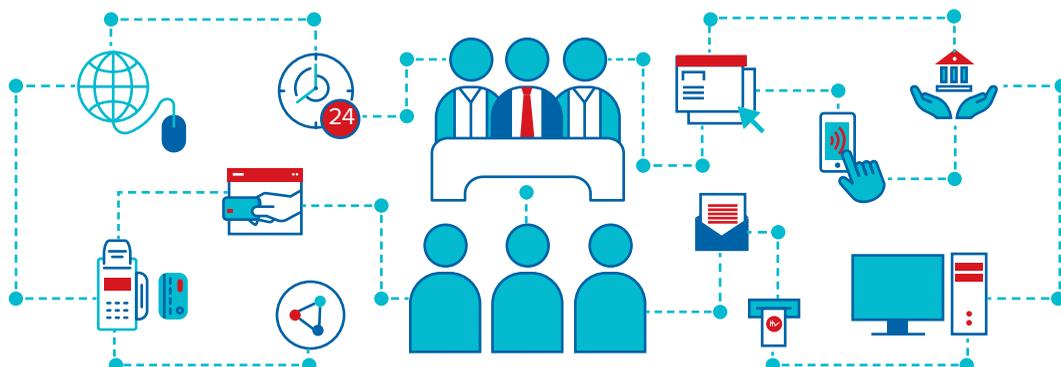

The Bank's flagship Group Lending Program in rural and semi-urban India is YES LEAP. It has financed over 3.5 lakh self-help groups (SHGs) spread in 260 districts and 19 states, touching and transforming the lives of over 21 lakh families.

YES GLOBAL INSTITUTE

YES Global Institute, the practicing think tank at YES BANK, has been instituted to create shared growth through innovative development models, stakeholder engagement and policy advocacy. YES Global Institute, through its well defined knowledge verticals, is driving highest quality research and policy recommendations in key areas of Innovation and Culture, Sustaining Livelihoods, Policy Development and Sustainability for India's development. As one of India's new age think tanks, the Institute creates platforms to bring together new technologies, global best practices, business models and innovative approaches to fast-track India on the path to double-digit GDP growth.

The Institute believes that India's inclusive economic growth will come by establishing a mutually-beneficial partnership between the public sector's governance and policy making, and the private sector's innovation and entrepreneurship.

Further, it is important that India's glorious past and rich culture that is anchored in arts, crafts, frugal innovation and diversity be leveraged to define the country's growth trajectory along a knowledge driven pathway. YES Global Institute is driving the discourse on concepts such as cultural industries, innovation districts, natural capital and channelizing private capital for development in India.

YES BANK's approach on taking these themes forward is through dialogue facilitation, knowledge creation, skill development and extensive stakeholder engagement.

Social Impact

The YES Global Institute's 'Social Impact' vertical has been undertaking extensive thought leadership through policy oriented research in the areas of Education, Healthcare, Skills and Youth.

It has engaged with the government, multilateral and bilateral stakeholders to build suitable networks and generate the required momentum for change in policy and mindset.

Design Innovation and Creativity Led Entrepreneurship (DICE)

The Design Innovation and Creativity led Entrepreneurship (DICE) team has leveraged the ethos of 'Future Now' to catalyze the innovation ecosystem in India by spearheading various transformational initiatives like pioneering innovative use of CSR funds by undertaking crowd funding campaign, organizing various strategic convening and competition like Ed-Tech India for Innovation series and partnership with Embassy of Israel for Start TLV and Start JLM competition to catalyze Indian entrepreneurs on global platform.

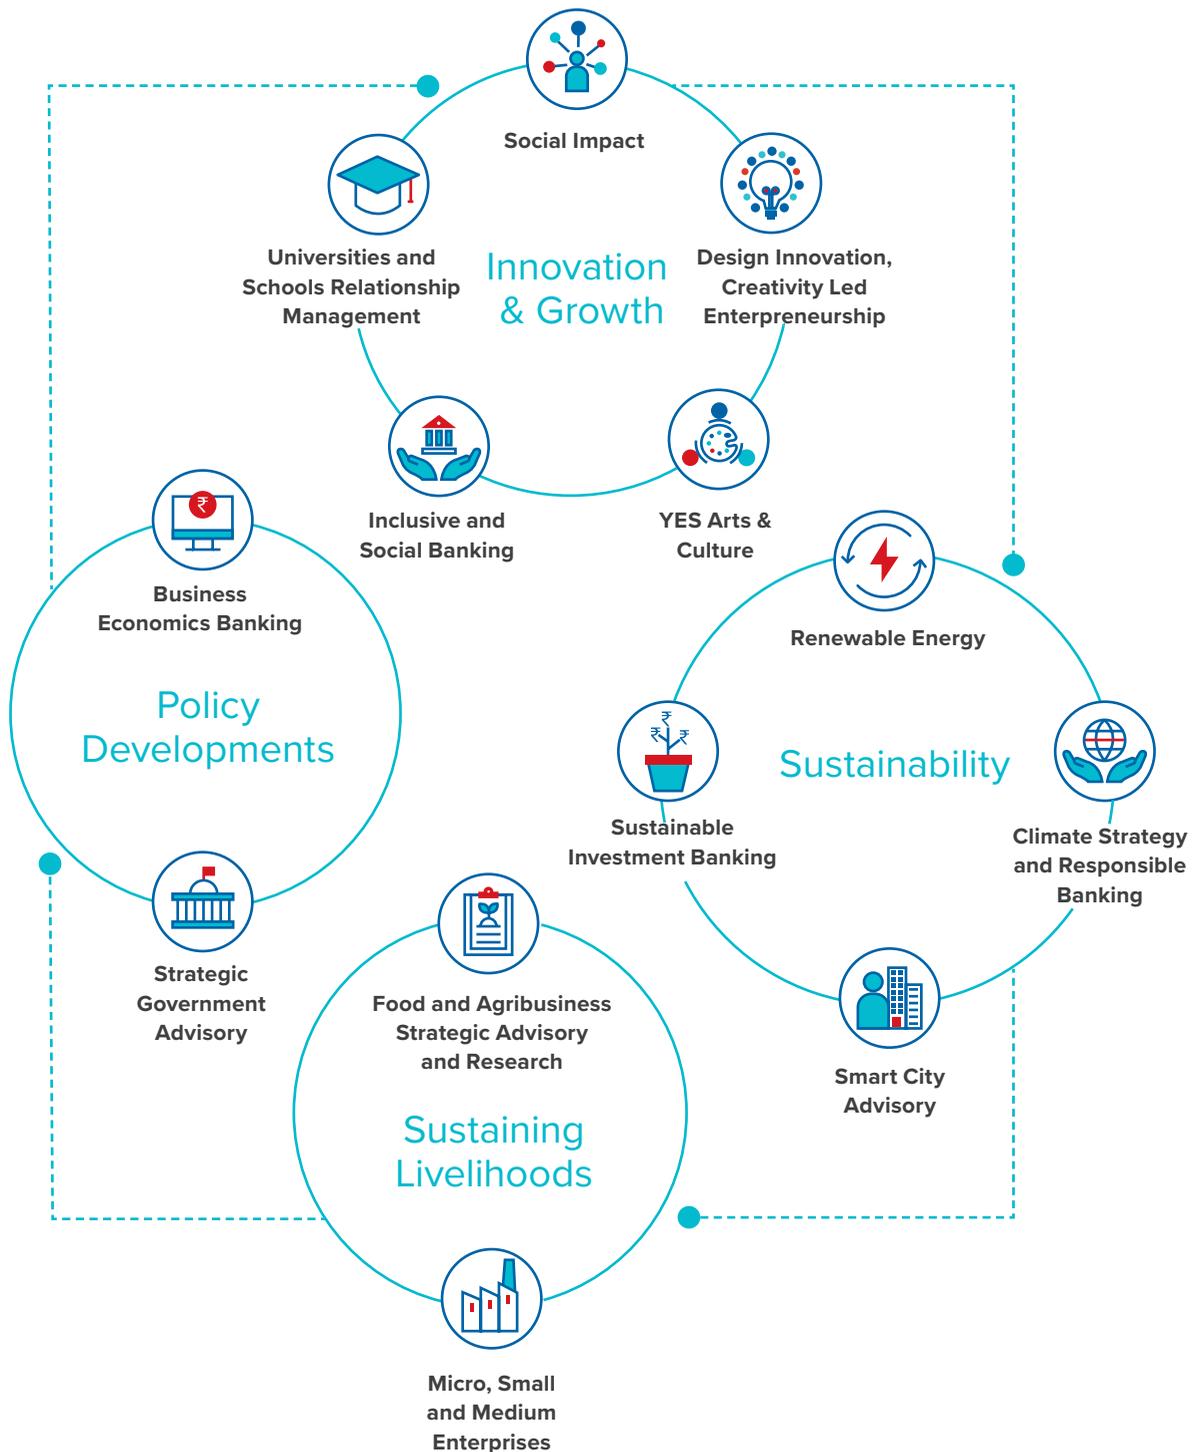

YES Arts & Culture

YES Arts & Culture is dedicated to the promotion, development and conservation of India's cultural heritage and works towards driving inclusive socio-economic development through the promotion of creativity. YES Arts & Culture collaborates with diverse players in the cultural field and in Government, industry and academia to foster a sense of exchange between different stakeholders.

It also focuses on public engagement through the inclusive format of heritage walks, cycle tours, and audio guides around heritage sites to promote the need for conservation. Within the domain of crafts, skill development and contemporary design intervention program in Handicrafts sector have been conceived in developed crafts clusters of India. Culinary Arts is also a strong focus area with YES Arts & Culture, and the intent is to promote traditional food wisdom and distinct national identity through culinary rituals and traditions. It also focuses on promoting research on cultural issues and policies through convening conferences around them.

RESPONSIBLE BANKING

Rapid globalization and digitization are increasingly shaping our world in an unprecedented manner. Technological advances that are unparalleled in their speed and impact are making it imperative for businesses to innovate and be Future Ready, Now.

Bringing the future to the present for the Bank, therefore, involves an intrinsic and sustainable transformation by future-proofing the business. Developing solutions to minimize negative effects while taking advantage of positive impact of future events holds the key. To reap full benefits of this evolution, innovations in technology, policy formation and finance are the way forward. Thus, at YES BANK, Future Now, a philosophy to bring the future to the present through innovation and various interventions, is not only a commitment to business, but also towards achieving the global development goals.

YES BANK institutionalized Responsible Banking as a key differentiator and one of its six strategic pillars since inception. It believes that there is an inherent need for financial institutions to play a central role in India's economy to create positive social and environmental impact.

With a greater understanding of its stakeholders' needs and an uncompromising focus on corporate governance and risk management, YES BANK has been able to establish sustainability impact through cutting-edge solutions in climate finance and community interventions. The Bank's visionary approach to prioritizing Environmental, Social and Governance (ESG) performance in the Indian banking sector with early efforts at bringing future to the present for all its stakeholders has borne fruit, endorsed by recognition at various platforms.

Future Ready Climate Action

YES BANK believes that financial institutions are catalysts to a sustainable economy. Building a sustainable future involves propagating the use of future-ready technologies like blockchain, electric vehicles and smart buildings. These sunrise sectors offer an investment opportunity of USD 3.1 trillion in India. The Bank, through its Responsible Banking ethos, is pioneering this low-carbon transformation with a focus on:

- Integrating Environmental and Social parameters into its lending decisions
- Innovating for the Bottom of the Pyramid by leveraging technology
- Proactively investing in positive impact sectors
- Greening its own operations
- Climate literacy

The Bank's 360-degree risk framework integrating ESG parameters is central to future-proofing the business. The Bank proactively looks at mitigating emerging risks and creates new opportunities in India's climate-resilient business sectors. YES BANK believes that climate change is a business opportunity for transition to a low-carbon economy and has pioneered the Green Bond market in India.

In December 2017, the Bank became the first Indian bank to solely arrange a Social Bond, the proceeds of which would go towards financing affordable housing projects.

This, along with a pilot blended-finance project for salt pan farmers in Little Rann of Kutch, showcases the Bank's futuristic approach to financial innovations for sustainable communities.

Policy Advocacy for Future

Through its proactive approach, YES BANK has helped cement strong community relations and leveraged its partnerships with national and international institutions, multi-lateral organizations, academia and corporate peers to bring positive transformation.

The Bank has lent its technical & practitioner's perspective to policy and regulatory action on pertinent issues, with an aim to drive investments towards the sunrise sectors of the economy, while innovating to bring India's unbanked and under-banked population into the formal economy. In its role as a thought leader, YES BANK has created platforms and developed knowledge reports on issues of national importance such as:

- Financing Sustainable Development Goals
- Natural Capital conservation
- Circular Economy
- Electric mobility

YES BANK is member of key national and global alliances including the India GHG Program, TERI Council for Business Sustainability, CII Climate Change Council and Natural Capital Finance Alliance.

The Bank continues to be a signatory and supporter of key protocols and global alliances focused on climate action and sustainable development, including the UNEP FI, Carbon Pricing Leadership Coalition, UN Global Compact, CDP, Climate Action in Financial Institutions Initiative and Financial Stability Board's Taskforce on Climate-related Financial Disclosure recommendations.

Positive Community Impact, Today

India as a developing, 1.3 billion strong nation requires massive investments of up to USD 2.5 trillion to fulfill its Sustainable Development Goals (SDGs) by 2030. Apart from financial commitments, YES BANK believes that a participatory approach enables the power of coalition and drives accelerated social impact, securing the most basic needs for a vast majority of the population. Guided by its four-pronged approach to 'Promote, Invest, Engage, and Collaborate & Monitor', YES BANK has helped develop innovative CSR models to bring a positive change to the lives of vulnerable and marginalized communities. In 2017-18, through its flagship branch-led community engagement program, YES Community touched:

3.21 mn **12,764**
Lives Activities

With an aim to make India's MSME sector sustainable and globally competitive, the Bank's unique CSR program has supported 18,544 MSMEs across 14 states and 17 sectors through focused interventions in energy efficiency, occupational health and safety and financial literacy.

YES FOUNDATION, the social development arm of YES BANK, continued to catalyze the social development ecosystem through an enhanced impact model of its flagship program, YES! i am the CHANGE, by setting up a grant for non-profit organizations and social enterprises. Additionally, the grantees will receive accelerator support for a period of three years. It's Media for Social Change Fellowship program was expanded to three cities, developing 213 socially conscious youth leaders supporting 101 non-profit organizations. YES BANK is spearheading the future of sustainable finance in India through the Responsible Banking vision, which is to be the benchmark financial institution for sustainability and inclusivity.

SAY YES TO GROWTH!

Journey of a homegrown brand

The YES BANK brand continues to evolve to reflect the changing business dynamics and organizational imperatives, and its underlying communications and initiatives reflect the organizational mind-set of bringing the future to the present.

YES FOR YOU

As a proud, homegrown Indian institution, YES BANK continues to drive the philosophy of 'INDIA bole YES!' that salutes the indomitable spirit of rising India and reflects the Bank's confidence and conviction in the inherent potential of India's economy.

THE A.R.T. OF BRANDING

YES BANK has imbibed the spirit of A.R.T. in developing its brand as highly visible and relevant.

YES BANK has also supplemented these high visibility associations with focused on-ground initiatives which have helped translate the mindshare to a growing market share.

Such partnerships have helped in positioning YES BANK as a young, vibrant and a contemporary future-ready brand. Through its sustained, business-driven marketing efforts, the YES BANK brand is leading the charge to make the Bank truly future ready.

The Bank's high impact brand partnerships like the Indian Premier League, ET Global Business Summit, Kidzania etc. have helped achieve massive reach and made YES BANK a household brand and has deepened our mindshare.

LEADERSHIP IN SOCIAL MEDIA

Social media has become a crucial channel for brand communication. From brand awareness to business development, social media channels have emerged as a useful platform to create and engage with communities across CXOs of India Inc., startups including Fintechs, MSMEs and retail customers.

YES BANK has strengthened its position on social media with the launch of India's first full-service Chatbot – YES ROBOT – to enable conversational payment transactions using YES BANK savings account.

As per The Financial Brand, YES BANK is the highest followed Banking Brand in the world on Twitter.

YES BANK continues to be the most followed banking brand in India on Instagram and the second-most 'liked' banking brand in the world on Facebook.

The Bank has conceptualized multiple award-winning campaigns during FY 2017-18, driving customer engagements and awareness to help build a stronger brand.

Report (ABRR) 68

YES BANK'S TRIPLE BOTTOM LINE REPORTING APPROACH

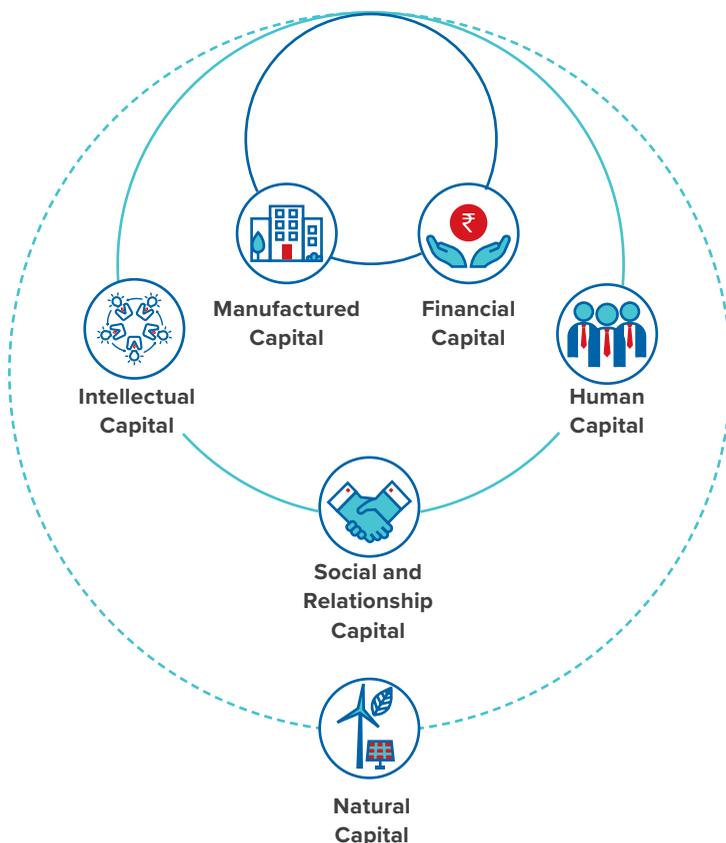

In its quest to achieve the vision of building the 'Finest Quality Large Bank of the World in India', YES BANK has been creating shared value through the ethos of Responsible Banking. Staying ahead of the curve, the Bank has led sustainability within the banking sector by expanding the focus from a discreet standalone Environmental and Social strategy to a holistic sustainable corporate strategy. With a perspective on economic, social and environmental aspects, which are material to the Bank's strategy, YES BANK has endeavored to address global development challenges by embracing new opportunities through innovative models.

As triple bottom line accounting becomes mainstream, the Bank through this report shares a consolidated view of its performance as well as its ability to create and sustain key stakeholder value. Since FY 2015-16, YES BANK has adopted an integrated reporting framework of the International Integrated Reporting Council (IIRC), which enables the Bank to highlight the connections between its financial and non-financial performance.

The resources and relationships used and affected by an organization collectively referred to as 'the capitals' in this framework, represent the crux of the integrated approach. These capitals comprise financial capital, manufactured capital, intellectual capital, human capital, social & relationship capital and natural capital.

This disclosure is structured using the capitals model of value creation, adopted by the International Integrated Reporting Council (IIRC) in the International <IR> Framework.

It explains the Bank's dependence and impact on the forms of capitals that are fundamental to its ability to create long-term value.

YES BANK'S SUSTAINABILITY APPROACH

YES BANK believes that as a financial institution, there is an inherent need to play the role of a catalyst in India's development agenda. The Bank has been able to establish strong alliances and amplify its sustainability impact both within and outside the organization, leading to the realization of first-of-many sustainability initiatives.

Responsible Banking is a key differentiator of YES BANK and remains one of the six strategic pillars of the bank along with Trust, Transparency, Knowledge, Technology and Human Capital. The vision of Responsible Banking is for YES BANK to be the benchmark financial institution for inclusivity and sustainability. The Bank's goal is to positively impact and contribute towards the overall sustainable development mandate, while simultaneously ensuring sustainable business growth. This integrated approach has resulted in increased alignment to strategic sustainability goals and value creation.

YES BANK creates stakeholder value in multiple ways. While some may manifest in financial value, others bring about more intangible benefits and value creation in terms of natural, human, social, or intellectual capital.

YES BANK was selected in the prestigious Dow Jones Sustainability Indices (DJSI) – Emerging Markets Index, for the third year in a row in 2017. The Index comprises 91 companies from 14 emerging economies, which were selected after a rigorous assessment on over 600 data points in the Economic, Social and Environmental dimensions. YES BANK is the only Indian bank, among 49 global banks, to be included in DJSI.

In 2017, YES BANK made it to the MSCI All Country World Index (ACWI) – ESG Leaders Index and MSCI ACWI SRI Index. YES BANK is among the top 12% of the global financial industry on Environmental, Social & Governance (ESG) performance and highest compared to the top 10 largest banks globally. The rating is an endorsement of the Bank's 360-degree risk framework that integrates ESG factors into its overall risk-assessment framework.

In the reporting period, YES BANK was selected as an index constituent of the FTSE4Good Emerging Index. The selection into FTSE4Good highlights YES BANK's sectoral leadership in environmental, social and governance (ESG) performance. YES BANK was rated above the threshold for companies in emerging as well as developed markets by FTSE Russell.

A detailed Business Segment overview is presented as part of the 'Management Discussion and Analysis' section on pages 79-111 of the Annual Report for 2017-18.

This section includes a performance analysis of the Bank's key business operations with social, economic and environmental impacts on stakeholders.

INCLUSIVE & SOCIAL BANKING

Since inception, YES BANK has focused on 'inclusive growth' for the emerging New India by introducing products and services for rural and urban India. It has fostered key partnerships to amplify its impact.

The Bank, through Inclusive and Social Banking (ISB), its specialized business unit, has adopted the guiding principle of Frugal Innovations for Financial Inclusion (FI4FI) to systematically leverage Information, Communication & Technology (ICT) and frugal business models. The objective is to offer focused financial solutions, catering to India's under-banked and unbanked population.

ISB reaches out to the financially marginalized by leveraging the Bank's extensive branch network, technology edge and relationship capital in the public, private and social sectors. Using sophisticated financial tools and advanced technologies, the unit offers solutions that include direct micro-credit, micro saving and micro insurance and remittance services across various geographical and socio-economic contexts in India.

Through YES LEAP, the Bank's flagship Self Help Groups (SHG) lending program and YES Joint Liability Group (JLG) program, it has financed over 3,56,000 groups, spanning 260 districts. This program has enabled the Bank to directly reach over 21 lakh families in rural and semi-urban India. YES SAHAJ, an award-winning technology solution platform based on the RBI's Business Correspondent (BC) model, offers safe and secure, doorstep banking services, using low-cost technology. Through these programs, YES BANK has cumulatively financed over ₹6,500 crore.

Towards creating a multiplier effect through larger collaborations, YES BANK appoints Business Correspondents, such as NBFCs (Non-Banking Financial Company), allowing the Bank to scale up its product and service offerings for people at the bottom of the pyramid (BOP).

YES LEAP

YES LEAP (Livelihood Enhancement Action Program) is the Bank's innovative version of the SHG Banking Linkage program. Under LEAP, YES BANK partners with credible non-governmental organizations (NGOs) /private institutions and appoints them as Business Correspondents (BC) providing its banking services through them, allowing the Bank to scale up its product and service offerings for BOP.

YES LEAP is currently partnering with 17 BC partners, including Self Help Promoting Institutions and NBFCs to provide comprehensive financial services to SHGs in India's 153 districts. The program is reaching out to over 32,000 predominantly rural households.

To enhance the impact and delivery mechanisms of YES LEAP, Ganaseva – a Semi Automated Loan Origination and Loan Management System was launched this year. It offers flexibility to build adequate regulations and required risk controls, along with end-to-end loan processing. KEYES, a business intelligence tool is also augmenting Ganaseva, to enable real-time tracking of all activities in the system. The tool will also provide high quality and informative reports with data analytics. In line with the Bank's digital focus, a tablet-based solution was launched to facilitate digital tracking of payments and receipts, record videos of SHG meetings and play health and hygiene messages.

As majority of SHGs linked to the YES LEAP program are women-centric, YES LEAP has been able to contribute significantly towards strengthening women entrepreneurship and, paved the way for empowerment in rural India.

YES JOINT LIABILITY GROUP

The YES Joint Liability Group (JLG) is an initiative to provide banking services to the BOP in rural, semi-urban and urban India. It is based on the Joint Liability Group methodology, wherein term loans are provided to individual members of a JLG, focusing on income generation. Through YES JLG, the Bank provides financing, through its partners, Non-Banking Financial Companies (NBFCs) and MFIs. Its wide network enables it to reach the disadvantaged sections of society, who are mostly financially excluded. The program, launched in March 2015, reached 5,68,136 Joint Liability Group members via a network of 17 business correspondents as on March 31, 2018.

YES SAMADHAN

The Bank developed YES Samadhan to meet the production and post-production credit requirements of farmers in a timely and hassle-free manner. It enables farmers to purchase agricultural inputs and machinery (seeds, fertilizers, pesticides, tractors and power tillers) to meet their cultivation and consumption needs.

Through this initiative, a farmer is offered a complimentary Rupay Kisan Card allowing the farmer to draw the facilities at his/her convenience from the ATM.

The product is currently offered in 8 major states of India across ~200 rural branches.

The Bank also offers customized savings account with unique features of average yearly balance, customized to the uneven cash flows of the farming community. Additionally, farmers are also offered crop insurance, under Pradhan Mantri Fasal Bima Yojana, to provide protection against uncertain natural risks at minimal premium.

YES SAHAJ

YES BANK had launched YES SAHAJ in 2011 to take basic banking to India's farthest corners. It is also developing innovative solutions to overcome the limitations of traditional, brick-and-mortar banking.

YES SAHAJ is an innovative, low-cost, micro-ATM, leveraging technological innovation within existing principles of mobile banking, and the RBI's BC Model, to offer basic banking to India's rural hinterland. It is a cost-efficient alternative to hand-held devices, which allows real-time, on-field reporting of repayment collection and savings amount of SHG and JLG members. It enables centralized monitoring, making it a key platform for remittance operations.

YES KHUSHI – AFFORDABLE HOUSING

Industry estimates state that there is an overall urban housing shortage of ~19 million units in India, of which over 90% of the demand comes from the Low Income Group (LIG) segment and Economically Weaker Section (EWS). One of the other primary reasons apart from unavailability of affordable houses, is the unavailability of proper access to financial resources for buying and constructing houses for the EWS / LIG segment.

In line with the Government's Pradhan Mantri Awas Yojana (PMAY) program, in 2016 YES BANK launched the YES KHUSHI Affordable Home Loans product suite. It is designed to address the gap in the market. The product, while fulfilling the housing dream of EWS / LIG segment, is closely knit with robust risk-management tools to mitigate the credit risk specific to the LIG segment. YES KHUSHI Home Loans has partnered with 500+ builders across India's 35 cities and towns. YES BANK is also empanelled with the National Housing Bank (NHB) for

dispensation of the housing loan subsidy under the PMAY scheme to help customers avail this subsidy scheme.

MICROFINANCE BANKING

YES BANK promotes microfinance as a new asset class, widening access to capital through a two-pronged strategy involving the Microfinance Banking (MFB), and mainstreaming BOP clients through ISB. The Bank extends these services through 36 major clients, which are essentially Microfinance Institutions (MFIs) spanning 22 states. A detailed overview of the unit is provided on page 93 of this report.

AGRI PRODUCT MANAGEMENT

YES BANK's Agri Product Management (APM) unit has experienced banking and industry professionals with in-depth knowledge of the priority sector to deliver efficient and customized banking solutions to the core agri sectors.

A detailed overview of the activities of APM unit is provided on pages 93 of this report.

GENDER AND MSME FINANCING

(L-R) Dev Jagadesan, Acting President and CEO, OPIC, Arun Agrawal, Group President, International Banking, YES BANK, and Thomas D. McCaffery, Executive Vice President, Wells Fargo Bank signing the agreement for the USD 400 million credit line

SMEs contribute about 45 percent of industrial output and employ 42 million people in India. An estimated 3 million women-owned businesses in India employ over 8 million people. However, only about a quarter can get the finance they need to grow and create jobs.

To address this financing gap, YES BANK partnered with the Overseas Private Investment Corporation (OPIC), the U.S. Government's Development Finance Institution, and Wells Fargo on an agreement to increase lending to micro, small and medium enterprises (MSMEs) in India. Under the agreement, OPIC provided USD 75 million in financing and up to USD 75 million in syndicated financing jointly arranged by Wells Fargo Bank and OPIC to YES BANK.

Specifically, USD 50 million of the financing is being used to expand support to women-owned businesses, while

another USD 50 million is being utilized for financing MSME businesses in low-income states. This was the third such transaction between OPIC and YES BANK after the first transaction of USD 265 million OPIC facility in 2016, towards India's MSME financing.

DIGITAL BANKING

YES BANK's digital focus has helped ensure transaction ease, acquiring and retaining customers by creating value for them. The Bank has been working on disruptive technologies and frugal innovations to ensure inclusion of feature phone users and change the way customers make payments.

The size and volume of digital banking transactions done through YES BANK's products and services continue to scale up rapidly in FY 2017-18. The number of mobile banking transactions rose from approximately 23.91 lakh in FY 2016-17 to over 68.37 lakh transactions in FY 2017-18, a significant jump of over 186%; with over 4.72 lakh active mobile banking users in the last 3 months. Similarly, transactions on the Bank's retail net banking channel rose to almost 1.80 crore from 1.25 crore in the previous year, over 44% growth. Also, the number of active net banking users in the reporting period almost doubled to 8.44 lakh.

YES BANK has created a unique, sustainable and scalable product – Aadhaar Enabled Payment System (AEPS) – a breakthrough, yet simple, innovation that was conceptualized and developed to provide simple, easy-to-use and convenient 24x7 banking services on the go. AEPS is aimed at encouraging greater use of electronic payments by bringing down paper-based transactions, increasing the usage of digital channels, and bolstering mobile banking use. The unique program offers 24x7 access to finance to all individuals with their Aadhaar number (India's Unique Identification number) and biometrics. Since its launch in November 2017, over 51 lakh transactions have been recorded through AEPS.

Given that brick-and-mortar branches continue to attract customers seeking personalized services or advisory, transforming such traditional channels into digital and self-service branches was also the Bank's key focus area. To this effect, the Bank also launched YES Robot, an artificially intelligent chat-bot to help customers with their queries 24x7 this year.

In a pioneering initiative, YES BANK partnered with municipal corporations of various Smart Cities to enable a move towards a less-cash economy. By leveraging Unified Payment and Identification (UPI) mechanism combined with contact and contactless card technology, the Bank developed simple and seamless solutions for residents and visitors of these Smart Cities. The Bank rolled out a 'RuPay' co-branded prepaid card, along with municipal corporations, to make payments for groceries, utility bills, local transport, healthcare, education, e-commerce and entertainment.

The Bank digitized the payments for government services (G2C) conducted at various smart city Citizen Facilitation Centers (CFC) through this product. These digitized payments reduce cash-related issues and help avoid long queues at municipal offices and the need to carry multiple identification cards.

During the year, YES BANK also worked on a comprehensive ecosystem for merchant payments, with the launch of a mobile app. The objective was to reduce the need of an expensive Point of Sale (POS) device at merchant's outlet. The app enables merchants to accept cashless payments from residents through QR/Bharat QR, UPI and mobile payments.

YES MONEY

Since its launch in 2011, YES MONEY, the Bank's award-winning, innovative domestic remittance platform has cumulatively remitted close to ₹29,070 crore in domestic remittances.

YES MONEY operates on the custom-built, multi-platform Remittance Knowledge Bridge, which synergizes India's vast spread of hyper-local family owned stores into being full-fledged, secure BC partners of the Bank. This strategy helps meet the remittance needs of millions of unbanked and under-banked population in India. YES MONEY takes advantage of India's deep penetration of mobile telephony to provide a hassle-free, digital, low-cost and customer-friendly service. YES MONEY has had a significant impact by offering ease of remittance, saving millions of working hours of migrant population and resulting in fewer number of trips to a bank branch – thus making money transfers hassle-free.

POSITIVE IMPACT INITIATIVE – YES COMMUNITY

YES COMMUNITY, YES BANK's unique community engagement program, serves as a knowledge exchange and awareness platform for communities around its branches on social and environmental issues of local and national importance.

YES BANK's branches endeavor to be community transformation centers extending interactions beyond the transactional value. Through this program, the Bank fosters meaningful partnerships with its stakeholders, including community groups, non-profit organizations, governments, corporate peers, and civil society.

In FY 2017-18, YES COMMUNITY continued its focus on delivering sustained on-ground impact in line with the United Nation's Sustainable Development Goals. During the year, the program impacted 32,15,644 lives through 12,764 pan-India initiatives. Going forward in FY18-19, the Bank targets to reach 5 million lives. Key programs initiated under YES COMMUNITY comprise:

ENVIRONMENT SUSTAINABILITY

To sensitize communities about environmental protection, YES BANK launched the 'Reduce, Reuse & Recycle' campaign. It comprises Sustainable Development Goals (SDGs) Literacy and environmental conservation workshops, E-waste collection drives, sensitization of waste management within housing societies and 'Trash to Cash' competitions for students.

To raise awareness about the impact of plastic on beaches, on the eve of the World Environment Day, 500+ YES BANK employees came together in partnership with the United Nations Environment Program (UNE) to support Advocate Afroz Shah; and participate in the world's biggest beach clean-up operation at Versova beach, Mumbai. Over 2,000 volunteers joined the Bank to remove 160 tons of garbage from the beach. The Bank also planted 50 coconut trees at the beach to mark the day.

EDUCATION AND EMPLOYABILITY

Financial literacy of the communities in which it operates remains the Bank's key focus area. As a part of this initiative, on World Youth Skills Day, in partnership with Salaam Bombay Foundation, a Financial Literacy field visit for over 200 children across seven schools was conducted.

The children had the opportunity to visit a YES BANK branch near their school and learn the basics of banking. This included functioning of a bank, different types of accounts, education and home loans, withdrawal and deposits, drawing up cheques and demand drafts to give them the insight of banking as a career.

With technology gaining prominence, digital financial literacy is critical for YES BANK in its role as a responsible

financial institution. Through the impactful platform provided by YES COMMUNITY, the Bank conducted workshops for students, youth and senior citizens, focusing on raising digital financial literacy and awareness during the year.

The Bank felicitated over 4,000 meritorious students as 'YOUNG ACHIEVERS' for their exceptional performance in 10th and 12th standard Board examinations in 500+ schools and colleges. The objective was to build a strong and sustainable knowledge economy.

To improve knowledge access for disadvantaged students, YES BANK in association with the Rotaract, organized a book donation campaign 'Donate a Book and Educate a Child'. In its second year, the campaign collected and distributed over 400 books.

The Bank also conducted Sustainable Development Goals (SDGs) literacy workshops across five schools in Delhi, impacting 1,309 students. The workshops were conducted by Synergie as part of the program 'Future is NOW', jointly run by Synergie and UN Global Compact Network India.

The interactive and activity-based workshops were focused on creating awareness on SDGs and how students can bring about a positive change through simple actions in daily life. The program, aligned to 'Green Good Deeds' campaign, was launched by Ministry of Environment, Forests and Climate Change (MoEFCC).

Students geared up to embrace the future and actualize Sustainable Development Goals (SDG) after an activity at North Delhi Municipal Corporation Utkrisht Vidyalaya, Delhi

HEALTHCARE AND SOCIAL WELFARE

The importance of health and wellness was propagated by the Bank on International Yoga Day with a pan-India campaign to conduct Yoga sessions in parks and school grounds. The program focused on benefitting senior citizens and youth. It also sensitized the participants on the importance of yoga for a happier and healthier lifestyle. Under the theme of 'Health, Lifestyle and Wellness' programs like expert talk on women's health, walk for wellness, stress management and cyclothons were conducted across India.

SCALING UP YES COMMUNITY IMPACT

LIVELIHOOD & WATER SECURITY

In concurrence with SDG 6, Clean water and sanitation, YES BANK believes that access to safe and clean drinking water is critical. It aims at providing affordable solutions for access to safe and clean drinking water in urban, semi-urban and rural communities. YES BANK formulated a community focused intervention under its focus area of Water & Livelihood Security initiative in 2014.

In the first stage of the project, YES BANK partnered with 'Livinguard', a social start-up with an innovative, cloth membrane-based water purification technology. It requires zero electricity and no chemical dosing for the purification process and results in zero-water wastage. In FY 2014-15, the initiative led to the deployment of 9,000 household water filters and five community water purifiers. The Bank also installed water purification systems at 150 community centers at select locations in Maharashtra, and achieved an additional deployment of 1,558 household water purification systems.

As a part of scale up, on the occasion of COP21 in December 2015, YES BANK committed to touch 100 million lives through its safe and clean drinking water program by 2020. In line with this commitment, YES BANK, in FY 2015-16, joined hands with the Indian Railways to provide safe and clean drinking water at 1000 railway stations across India by 2019. In the first phase, the Bank set up 100 such water purification systems across 'D' and 'E' category railway stations in the Konkan belt and other locations in Maharashtra in 2015-16.

In the second implementation phase in FY 2016-17, YES BANK provided access to safe and clean drinking water at 192 more railway stations in Maharashtra. Through this intervention, the Bank has touched over 5 crore lives in the preceding two years. Expanding upon its current partnerships, YES BANK has installed water purification systems at 405 'D' & 'E' category railway stations in

FY 2017-18 in partnership with Central and Western Railways providing access to safe and clean drinking water to over 40 million lives.

Additionally, the Bank has partnered with WaterHealth India and Delhi Jal Board to install water ATMs and community water centers in Delhi's urban slums. The water would be available at nominal prices at these ATMs, and through this unique initiative livelihood would be provided to the ATM operators.

The drinking water solution interventions by the Bank has provided access to safe and clean drinking water impacting over 90 million lives in the past three years and dispensed over 16 million litres of filtered water.

In FY 2017-18, the Bank also partnered with National Cancer Institute, Nagpur to provide safe and clean drinking water throughout the facility. As part of the Phase I rollout, YES BANK installed a 20,000 litres per hour capacity, primary filtration plant for first-level groundwater treatment and would also set up water filtration units at 18 locations and 16 water coolers in public spaces and staff areas to serve the main hospital building. These installations are estimated to provide safe and clean drinking water to more than 1,000 beneficiaries, daily.

As a best practice, YES BANK attempted to quantify the value of impact created by the initiative for FY 2016-17. The impact value was measured using the principle-based method called the Social Return on Investment (SROI). A comprehensive analysis of inputs from the stakeholders including the Indian Railways, the outputs achieved, and the corresponding outcomes, indicates that the project has generated a Net SROI of 7.43. In other words, the net social return generated by the project is 7.43 times the value of the inputs invested by the stakeholders.

SKILL DEVELOPMENT THROUGH YES STEADY

YES BANK launched YES STEADY (Skills Training and Enhancement for Development of Youth) in 2014 to provide employability training to youth through targeted skill building initiatives. The Bank had partnered with Deshpande Foundation to provide employability training to youth in Karnataka and Telangana. The program aims at training and employment of 4,500 students. Till FY 2016-17, 3,013 students were inducted and have undergone skill training under various focus sectors, such as agriculture, accountancy, electrical works, BPO & soft skills and primary teachers training. FY 2017-18 was the last phase of this training program where 1,918 students were inducted, 943 students were trained and 716 were placed till March 31. The program has had a significant impact on the lives of these youth, with a

significant number opting for higher education, and thereby being able to earn or start a business of their own independently.

In addition, YES BANK signed an MoU with Manav Sadan Vikas Sanstha in 2017 to create a comprehensive and integrated program for training and skill up-gradation of underprivileged communities from urban and semi urban areas. The training programs would focus on providing skills and employability training to 1,500 youth/women of Mathadi workers community in Navi Mumbai. The training includes vocational traits such as beauty and wellness, fashion designing, tourist guides, driving and computer education.

SAY YES TO SUSTAINABLE MSMEs IN INDIA

In FY 2014-15, YES BANK launched a first-of-its-kind CSR initiative for the MSME sector – 'Say YES to Sustainable MSMEs in India', to promote environmental sustainability and Occupational Health and Safety (OHS) among MSMEs in the manufacturing sectors. This is in partnership with Foundation for MSME Clusters (FMC) and Entrepreneurship Development Institute of India (EDII).

The project in FY 2017-18 impacted 18,544 MSMEs, benefiting 28,454 workers across 14 states and 17 sectors, including dyeing, rubber, plastic, painting, textile, rice mills, auto ancillaries, sports goods, pharmaceuticals, printing and packaging, travel and tourism, exporters and importers, Chemicals, Food Processing and Industrial Engineering through multifaceted interventions including:

- Workshops on promoting energy efficiency, renewable energy and cleaner technology
- Structured occupational health and safety interventions, including health camps, first-aid trainings, safety trainings
- Zero Defect Zero Effect (ZED) trainings to improve operational efficiency and minimize environmental footprint of MSMEs
- Financial literacy camps
- E-commerce trainings for offline SMEs

YES BANK targets to impact 1 lakh MSMEs through the MSME CSR project by 2020. As a best practice, YES BANK calculated the project's Social Return On Investment (SROI) in FY 2015-16. SROI is a principle-based method for measuring the extra-financial value of an initiative relative to the inputs invested. The project's SROI is calculated using internationally recognized framework of Social Value, UK. A thorough analysis of stakeholder inputs, outputs and corresponding outcomes was carried out.

For the project implemented in FY 2016-17, the net SROI was 12.51. In other words, the on-ground social impact generated by the project is 12.51 times the value of inputs invested. The major outcomes/impact includes:

- ~7.4 crore (₹) was saved by the MSMEs through YES BANK's energy efficiency CSR interventions*
- ~78.8 crore (₹) was saved by the MSMEs through YES BANK's OHS interventions*
- 9,338 hazardous incidents and health issues have been avoided*
- 11 working days have been saved for each employee, annually by increasing the operational efficiency and productivity*
- 93% of the benefitted MSME units are satisfied with YES BANK's CSR intervention^

*Calculated and extrapolated figures from stakeholder response.
^Based on stakeholder response.

ENVIRONMENT SUSTAINABILITY

YES BANK, in partnership with the National Highways Authority of India (NHAI), adopted a 40 kilometers stretch along the Mumbai – Nashik Highway (Gonde to Pimpalgaon) under the “Adopt a Green Highway” initiative of NHAI, for greening the highways through plantation of 14,559 trees and maintenance of total 45,462 trees for next 5 years. Through this commitment, YES BANK became the first Indian private sector entity to collaborate with NHAI and work towards the vision of creating green highways.

This project entails generation of sustainable livelihoods for local communities and development of carbon sink to help mitigate global warming and climate change effects. This endeavor will contribute towards achieving India's commitment to create an additional carbon sink of 2.5 to 3 billion tons of CO₂ equivalent by 2030 and YES BANK's COP 21 commitment to plant 2 million saplings by 2020. In FY 2017-18, YES BANK, in line with its commitment, has planted 11,426 trees along the Mumbai – Nashik National Highway.

LIVELIHOOD SECURITY

Agriculture is the only livelihood for two-thirds of India's population and provides employment to about 57% of the workforce in India. Despite remarkable success achieved due to green revolution, its potential is not being fully realized. YES BANK through its 'Digital and Financial Literacy Program for Farmers', launched an initiative this year to empower 10,850 farmers in 15 districts of Haryana and Rajasthan by providing training in Good Agricultural Practices (GAP), financial inclusion and digital literacy. The program is aimed at market awareness on money management and debt financing needs of farmers.

EMPLOYEE PAYROLL GIVING

YES BANK continues to partner with Give India for the payroll giving initiative for its employees. Employees registered under the program contribute a certain portion (decided by them) of their salaries every month, which can be donated to a cause of their choice. To ensure that 100% of the employee contribution is donated, the Bank pays for all the administrative charges to participate in the platform. During the reporting period, a total of over ₹34 lakh was received as donation from employees.

BUILDING AN EMPOWERED AND EQUITABLE INDIA

India's developmental challenges require innovative and inclusive solutions with a multiplier effect, addressing scale and impact. YES BANK drives this social transformation and mindset change through its social development arm, YES FOUNDATION. The initiatives aim to address the gaps in the development sector by strengthening Design and Innovation-led Creative Entrepreneurship solutions. The programs are designed to infuse innovation in the development sector and promote Media for Social Change, Youth Social Leadership, Sustainable Development Goals (SDGs) Communication and Social Entrepreneurship for India's social transformation.

YES! I AM THE CHANGE

YES! i am the CHANGE (YIAC), a nationwide mindset transformation program, was launched in 2013, to inculcate the spirit of responsible youth citizenship through the impactful medium of films. YIAC is a social film movement that engages the youth and organizations alike to make films about social challenges and changemakers, to disseminate best practices.

As part of the program, participants submit 3-minute films, depicting the work of an NGO, a Social Enterprise or an Everyday Hero. In 2016, it emerged as the World's Largest Social Film Movement with over 1.3 million participants and over 29,500 films. Additionally, YIAC films are part of an open repository of invaluable communication resources – over 34,000 films on SDGs for the use of NGOs. With the completion of 5 years of existence, YES FOUNDATION is poised to enter its next phase of growth with a deeper focus on impact.

The Foundation has commissioned an impact assessment study of the previous four editions of YES! i am the CHANGE Social Film Movement. In 2017, an enhanced impact model of YIAC was launched by setting up a grant fund for 25 NGO/Social Enterprises with sustainable and scalable social projects and capacity-building accelerator support for three years. Potential grantees will be

evaluated based on YIAC film entries. Some highlights of the program from previous years include:

- 97 Media for Social Change Workshops and Screenings for NGOs and youth were conducted pan-India to create a culture of communication and help participants make short social films
- The first phase of the program (the filmmaking challenge) received an overwhelming response of 29,805 registrations and 11,501 film submissions by NGOs, Social Enterprises and youth
- YIAC won Gold in the Asia Pacific Customer Engagement Forum & Awards (ACEF) 2017 as the Most Innovative Admired CSR Campaign
- YIAC was declared as the Best CSR Campaign (Gold) at the Fulcrum Awards 2017 in the Technical category
- YIAC entered the coveted Limca Book of Records as the Largest Social Filmmaking Challenge in India for the 3rd consecutive year

CHANGEMAKER PROGRAM

The Changemaker Program was launched to honor and support the projects of past participants of YIAC who went beyond filmmaking, developed innovative solutions and contributed towards social causes consistently.

Towards promoting responsible youth citizenship, eight youth-led social projects were commissioned that impacted over two lakh people. The projects include setting up 55 smart classroom facilities in Gujarat, Uttarakhand and Maharashtra, distributing 1,000 bicycles

to underprivileged rural students in Maharashtra and Goa, and conducting adult literacy program (benefitting 1,000 adults) in Maharashtra. Eye check-up camps for treatment of over 10,000 patients in Gujarat and Rajasthan were also organized.

YES INNOVATE

YES Innovate is a high-impact program promoting communications and DICE (Design and Innovation-led Creative Entrepreneurship) to accelerate social impact of NGOs and social enterprises. The program envisages a strategic national platform mobilize major players in the development ecosystem (corporates/corporate foundations, NGOs and government agencies). It aims to proactively facilitate knowledge sharing and effective partnerships for channelization of CSR funding in India.

YES FOUNDATION conducted one-day capacity building workshops on Effective Communications for NGOs across three cities – Mumbai, Bengaluru and Delhi. Over 200 NGO leaders and professionals from 164 NGOs participated in these workshops.

MEDIA FOR SOCIAL CHANGE FELLOWSHIP

To further enable and deepen youth social engagement, the YES FOUNDATION Media for Social Change Fellowship was launched in 2016. It is a high-impact program to develop socially conscious youth leadership supported by YES BANK in association with ISDIWPP School of Communication. The fellowship promotes engagement with social issues and credible NGOs, to strengthen NGO communication and maximize their social impact.

Mumbai Cohort of the Media for Social Change Fellows

The two-month fellowship provides high potential youth between the ages 18 and-25 an opportunity for intensive and sustained engagement with social issues. The fellowship also offers regular capacity building trainings and structured seven-week placement with credible NGOs. The fellows are trained by industry leaders in a one-week intensive induction training on leadership, marketing, communications, digital and social media. This is followed by a seven-week, full-time placement in NGOs where fellows lead well-defined communication projects such as developing films, websites, social media campaigns, case studies and so on for NGOs.

In 2016, for the inaugural edition, 45 youth were selected to be a part of the fellowship cohort from 922 aspirants across 166 cities and towns across India. They were placed with 19 credible NGOs, across Mumbai. In 2017, the second edition of the fellowship was scaled to 213 fellows placed with 101 partner NGOs across Mumbai, Delhi and Bengaluru. In 2018, the third edition will be scaled to 500 fellows placed with NGOs across Mumbai, Delhi, Bengaluru, Pune and Ahmedabad.

INTELLECTUAL CAPITAL

Intellectual Capital refers to the collective knowledge, research, thought leadership, brand management and intellectual property used to support business activities and lead public discourse on global challenges.

THOUGHT LEADERSHIP

YES BANK, since its inception, has an institutional knowledge framework embedded in its organizational structure and strategy. It enables the Bank to provide its stakeholders with information rich customized solutions.

YES BANK has subject matter experts, who help develop detailed sector specific strategies for business augmentation, envisaging upcoming opportunities across major knowledge sectors recognized by the Bank.

GLOBAL ENGAGEMENT ON SUSTAINABLE DEVELOPMENT

YES BANK plays a leadership role in financing sustainable sectors in India and has shared its views and insights at various global events. The Bank brings together experts from Government, select financial institutions, private and institutional investors at these events and helped unlock financing solutions for projects aimed at realizing the SDGs. Some of the notable ones during the year include the high-level SDG Financing Lab organized during the 71st Session of the UN General Assembly; the UN Retreat on Sustainable Infrastructure Finance; the Institute of International Finance (IIF) Spring Membership Meeting and the 8th session of IRENA Annual Assembly.

The mission-critical topics that YES BANK presented and catalyzed discussions on include innovative business models to help achieve the SDGs; scaling up renewable energy investment globally; role of financial community in mobilizing finance for SDGs; policy instruments; and financial mechanisms to increase investments. The Bank also participated at the One Planet Summit in December 2017, where YES BANK became the first Indian bank to support the Task Force on Climate-related Financial Disclosures (TCFD).

YES BANK remains a signatory to key protocols focused on climate action and sustainable development, including the UN Environment Program Finance Initiative (UNEP FI), Carbon Pricing Leadership Coalition, UN Global Compact, CDP, Natural Capital Finance Alliance, and member of influential national and global alliances including the India GHG Program and TERI Council for Business Sustainability.

NATURAL CAPITAL FINANCE ALLIANCE

In 2013, YES BANK became the first Indian signatory to the Natural Capital Declaration, a joint initiative of the UNEP FI and Global Canopy Program. It is now a part of the Natural Capital Finance Alliance (NCFA). As a signatory, the Bank remains committed to assemble an ecosystem that helps develop an appropriate regulatory framework, disclosure mechanisms and reporting measures to integrate, value, and account for natural capital. YES BANK has been re-elected unanimously as the Chair of the Steering Committee of NCFA thrice for overseeing

NCFA's strategy and providing direction/oversight for the Working Groups and the Secretariat.

PARTNERSHIP WITH UNITED NATIONS ENVIRONMENT PROGRAM FINANCE INITIATIVE (UNEP FI)

YES BANK as the first Indian signatory to the UNEP FI continues to play a leadership role at the platform.

Namita Vikas, Group President & Global Head – Climate Strategy & Responsible Banking, YES BANK, has been elected to be a member of the Positive Impact Steering Group. The role involves chairing the initiative's quarterly meetings, defining and periodically reviewing the outreach strategy and validation of working group outputs. The Principles launched in 2017 by 19 leading banks and investors, including YES BANK provide guidance for financiers and investors to analyze, monitor and disclose the social, environmental and economic impacts of the financial products and services they deliver.

YES BANK actively participated at the UNEP FI Regional Roundtable (RRT) for Sustainable Finance in Asia Pacific in December, 2017 where it presented its work in the Natural Capital space. The Bank's knowledge report 'Natural Capital Mapping: Towards achieving SDGs in India' was highly appreciated by UNEP FI as forward-looking, yet pragmatic.

KNOWLEDGE REPORTS

YES BANK launched six knowledge reports in FY 2017-18:

WORLD SUSTAINABLE DEVELOPMENT SUMMIT

To enhance its prominence as a knowledge bank, YES BANK partnered with TERI's flagship event, World Sustainable Development Summit (WSDS), held during February 15-17 in New Delhi. WSDS witnessed participation from over 2,000 delegates, including policy makers, researchers, think-tanks, diplomats and corporates from 40 countries globally. The summit focused on sustainable transport and resilient cities, transition to clean energy, carbon markets and pricing, and tackling air pollution, among others. It also emphasized on land degradation and effective waste management, promoting resource and energy efficiency, innovating financial mechanism to tackle climate change mitigation and so on. As the knowledge partner, YES BANK launched the FEWL, Electric Mobility and the Circular Economy reports at the event.

Strategic Advisory and Research group (FASAR) has been established within the Bank.

The group houses industry specialists with significant sector knowledge and relevant experience and expertise in the conceptualization and implementation of food and agriculture initiatives. FASAR continues to closely work with corporate sector – micro, small and medium enterprises and multinationals, both – central government, state governments and multilateral agencies to execute project advisory, strategic advisory and policy advisory across the key growth sectors.

FASAR also conducts in-depth research on various sub-sectors in the food and agriculture domain and publishes knowledge reports and research papers on key trends and sector-specific developments. The team has authored knowledge reports with various partners, covering the latest industry trends and sectoral issues.

In FY 2017-18, FASAR took up 57 new advisory mandates and executed projects on enhancing agriculture infrastructure, value chain and exports. It further pursued projects on doubling farmers' income, food processing, organic farming, spices, fruit juices and dairy. During the reporting period, FASAR released sector-specific reports on dairy, innovations in Indian agriculture, start-ups, spices, cold chain, organic, traditional Indian food and horticulture, in partnership with its various external stakeholders.

STRATEGIC GOVERNMENT ADVISORY

Strategic Government Advisory (SGA) is a dedicated division aimed at deepening YES BANK's engagement and partnerships with a wide range of stakeholders. Through this platform, the Bank engages with central and state government ministries, bilateral and multilateral agencies, key educational institutions, think-tanks, industry associations/chambers, international trade bodies, corporate partners and voluntary groups. SGA houses knowledge bankers with cross-functional domain expertise and experience across key sectors such as infrastructure (including social infrastructure), tourism, education and e-governance.

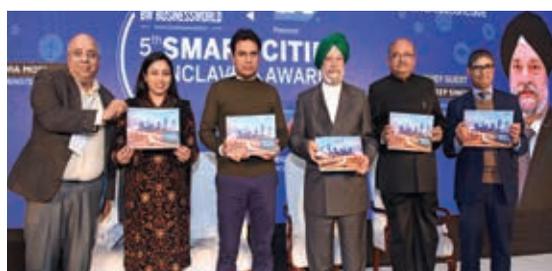

SGA works with the government sector to participate in developing innovative financial and banking solutions to cater to the unique needs of the public sector and to identify areas outside the current realm of engagement where banks can deliver on their role as economic growth drivers. These include showcasing of mechanisms for better returns, developing cashless payment and transaction solutions and achieving efficiency across the financial supply chain between the central government, state governments, local governments and citizens or beneficiaries.

FASAR

In line with YES BANK's approach to be a knowledge-driven organization, a specialized Food & Agribusiness

SGA has successfully executed 300+ mandates and knowledge reports over the last 13 years. With focused research, these knowledge reports offer visionary perspectives, document successful interventions and highlight investment potential in different regions of the country. Some of the reports released by SGA are:

BUSINESS ECONOMICS BANKING

Over the last few years India's economy has witnessed an extraordinary turnaround, outshining not just its peers, but also major global economies. A lucid and comprehensive understanding of all the trends and nuances of the Indian economy is imperative in the ever-changing global economic order. Business Economics Banking (BEB) is the research and knowledge-driven team of YES BANK, which provides authoritative, cutting-edge macro/markets outlook and sector-specific research content, for both external and internal consumption. The team, through active participation in client meetings and industry engagements, aims to further deepen YES BANK's mindshare.

The BEB team publishes periodic reports of evolving macroeconomic data and thematic reports on key economic trends. Over the years, primary research and reports published by BEB have been referred to and cited by key stakeholders, including the government, global investors, media and top clients. As a validation of its expertise, the team won the 'Reuters Most Accurate Forecaster Award' for 2016 for India's economy and continues to remain among the top three forecasters according to Bloomberg rankings.

In 2017-18, BEB held its inaugural Annual Economic Conclave titled 'Budget 2018: Unequivocal focus on Economic Growth and Job Creation', in New Delhi. A knowledge report 'Employment: Unlocking the Demographic Dividend' was also launched at the event, which provides an in-depth analysis of various facets of India's labor market. The report discusses micro trends, link between growth and job creation, policy perspectives on improving employment generation capacity, along with likely impact of Industry 4.0.

Launch of Knowledge Report 'Employment: Unlocking the Demographic Dividend' by Dr Shubhada Rao, Chief Economist, YES BANK, Amitabh Kant, CEO, Niti Aayog, Dr N K Singh, Chairman, 15th Finance Commission, along with Rinki Dhingra, Senior President, Government Banking, YES BANK at Annual Economic Conclave

YES GLOBAL INSTITUTE

YES GLOBAL INSTITUTE, a practicing think-tank, has been established as a division of YES BANK to focus on channelizing private sector capital towards India's development. The Institute has three main pillars – Design, Innovation and Creativity Led Entrepreneurship (DICE), Social Impact and YES Arts & Culture.

DICE

Design, Innovation and Creativity-led Entrepreneurship (D.I.C.E.) focuses on understanding simple yet disruptive innovations, which can address critical issues such as lack of infrastructure, discontinuities and inefficiencies in market and develop alternate and implementable measures.

1. In line with tech-driven improvements for social innovation, the Institute organized a convention with key industry players in educational technology (ED-Tech) sector. Focused mix of delegates included investors, global start-ups and entrepreneurs, media and policy.
2. YES Global Institute, partnered with Women Weave, to launch a crowdfunding campaign to support the livelihood of weavers in Balaghat District, Madhya Pradesh.
3. YES BANK and YES Global Institute partnered with Embassy of Israel to organize Start-Tel-Aviv Competition, to find young women entrepreneurs who are using tech-based solution to revolutionize the social landscape in India.
4. In line with Sustainable Development Goals (SDGs), the YGI Funder's book covers 10 sectors that work towards catalyzing private capital in social sectors.

SOCIAL IMPACT

The YES Global Institute's 'Social Impact' vertical has been undertaking extensive thought leadership through policy-oriented research in the areas of education, healthcare, skills and youth. It has engaged with the government, multilateral and bilateral stakeholders to build suitable networks and generate required momentum for change in policy and mindset.

1. To create a roadmap and policy impetus for National Education Policy 2017 for liberalizing higher education for innovative financing, review 'not-for-profit' tag, easier structuring of a university and other structural reforms. The study on 'Developing a Credit Market for Higher Education' was released in September 2017. Several vice Chancellors and heads of 14 Institutions contributed to the study. The first copy of the study was presented to Shri Ram Nath Kovind, President of India.
2. To facilitate greater internationalization of Indian higher education system by offering solutions to overcome the challenges of internationalization and providing a roadmap to take the UK India higher education relationship to the next level. A study, 'De-mystifying the Indian Higher Education Ecosystem' was released in March 2017 in partnership with UK-India Business Council. The study was released by Shri Arvind Panagariya, Vice Chairman, NITI Aayog and Shri Mahendra Nath Pandey, Union MoS, HRD, Government of India.
3. The Institute has committed itself to promote social entrepreneurship and financial & digital literacy through YES COMMUNITY initiative to maximize engagement with the local communities. A roundtable was conducted in March 2017 with United Nations Volunteers (UNV) to mark the signing of the 'Letter of Intent' between YGI and UNV in New Delhi.
4. YESGlobalInstitute has emerged as a key stakeholder in healthcare policy. Its latest knowledge report, 'Healthcare 2.0: Exploring Synergies between Public and Private Sector' was released at the 4th Business World Healthcare Summit in August 2017 by Srimati Anupriya Patel, Union Minister of State for Health and Family Welfare, Government of India.

YES ARTS & CULTURE

YES Global Institute's YES Arts & Culture arm is working towards promoting and conserving India's rich and diverse heritage in association with over 50 of India's premier cultural organizations. There is a strong focus on heritage, crafts and culinary arts.

1. The team collaborated with the Indian National Trust for Art & Cultural Heritage (INTACH) in New Delhi and Mumbai to conduct over 100 walks in historic neighborhoods, impacting over 3,855 citizens over the past year. Cycle tours were also conducted in Delhi to increase this community-based engagement. YES Arts & Culture has also partnered with Sahapedia, with the support of Incredible India, the Ministry of Tourism to conduct the India Heritage Walk Festival, a 20 city initiative with over 80 events; walks, discussion, instameets and a heritage film festival.
2. The Culinary Arts of India has been a focus area for YES Arts & Culture and towards this, the team has partnered with Food Authority of India (FSSAI) and Government of India to focus on India's rich culinary heritage. 'India Food Culture – Let's Bring the Goodness Back' was a collaborative conclave with FSSAI to showcase regional cuisines and rediscover India's distinct culinary identity. This effort saw chefs, culinary entrepreneurs, academicians as well as diplomatic missions discuss the rich potential of India's culinary heritage.
3. For Crafts, YES Arts & Culture co-created an exhibition on the languishing craft forms of Rajasthan. The exhibition 'Phad – The Mythical Heritage of Bhilwara', held at Bikaner House, Government of Rajasthan, displayed the team's commitment to archiving and documenting traditional forms of art that document rich regional narratives. Also, YES Arts and Culture launched the platform of Networking India, which showcases stalwarts and leaders from the cultural and creative industries of India.
4. YES Arts & Culture firmly believes that India's youth should be given the skills to communicate their dreams. Towards this, the team has tied up with new age digital publisher Juggernaut Books to create Writer's Café, a monthly workshop series, which connects amateur writers with renowned authors to establish a support network and strong writing community.

NATURAL CAPITAL

Natural Capital refers to the natural resources that the Bank uses to create stakeholder value, and the finance it mobilizes to promote natural resource preservation and environmental risk-mitigation.

Since inception, YES BANK has firmly placed natural capital as one of its key focus areas. The Bank has one of the largest renewable energy lending portfolios among private sector banks. It is the first Indian bank to be ISO 14001:2015 certified for Environmental Management System and the first Indian signatory to the Natural Capital Declaration. It is recognized as a Climate Disclosure Leader and drives environmental sustainability as one of its key CSR focus areas.

CATALYST IN CLIMATE CHANGE ACTION

YES BANK believes financial institutions can become catalysts in driving climate action by adopting a proactive approach to address climate change issues. The Bank is committed to this role with its innovative financial mechanisms.

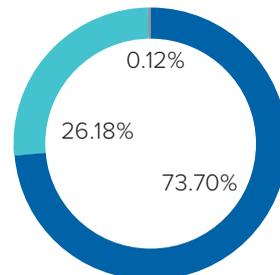

The Bank has envisaged a holistic climate strategy, which would be instrumental in institutionalizing a targeted approach for climate action. It intends to further strengthen its risk management and disclosure in line with TCFD recommendations. The Bank also aims to enhance its recognition as a green bank with the launch of green products, ensuring sustainable operations, and deepening ties with Development Finance Institutions (DFIs) and sustainability focused investors.

RENEWABLE ENERGY LENDING & ADVISORY

India has an ambitious target of establishing 175 GW Renewable Energy (RE) capacity by 2022. Apart from RE target, India's NDCs are laid out to drive climate action in the country with an investment of USD 2.5 trillion.

YES BANK has sanctioned credit for setting up RE projects of capacity 1,264.96 MW during FY 2017-18. RE projects sanctioned during the year are categorized as:

Renewable energy category	Capacity (MW)
Solar (ground mounted and rooftop) power projects	932.26
Wind power projects	331.20
Hydro power projects	1.50
TOTAL	1,264.96

- Solar (Ground Mounted & Rooftop) Power Projects
- Wind Power Projects
- Hydro Power Projects

During FY 2017-18, the Bank's key transactions to enrich natural capital were:

- Joint-underwriter of term debt with YES BANK's share of ₹750 crore for 250 MW ultra-mega solar power project in Rewa, Madhya Pradesh
- Refinancing of term debt of ₹1,050 crore for 105 MW and 50.4 MW wind projects in Andhra Pradesh and Rajasthan, respectively

- Underwriting of term debt of ₹156 crore for 32 MW solar project in Karnataka
- Underwriting of term debt along with LC/Lut sublimits of ₹156 crore for 32 MW solar project in Karnataka
- Underwriting of term debt along with LC/Lut sublimits of ₹212.1 crore for 40 MW solar project in Karnataka
- Underwriting of term debt along with LC/Lut sublimits of ₹427 crore for 100 MW solar project in Maharashtra
- Non Fund based facility (LC) facility of ₹185 crore towards procurement of WTGs for development of 39.6 MW of Wind Power project in Karnataka. LC facility is backed by Letter of Comfort from Piramal Finance (site 1)
- Non-Fund based facility (LC) facility of ₹185 crore towards procurement of WTGs for development of 39.6 MW of Wind Power project in Karnataka. LC facility is backed by Letter of Comfort from Piramal Finance (site 2)
- Underwriter of term debt of ₹14 crore for 3.26 MW solar rooftop project in Delhi NCR and Haryana
- Underwriter of term debt of ₹255 crore for 60 MW solar power project in Maharashtra
- Underwriter of term debt of ₹170 crore for 40 MW solar power project in Maharashtra
- Underwriter of term debt of ₹120 crore for 20 MW solar power project (open access) in Karnataka
- Underwriter of term debt of ₹7 crore for 1.5 MW small hydro power project in Punjab
- Underwriter of term debt of ₹447 crore for 96.6 MW wind power project in Karnataka
- Underwriter of Term Debt of ₹1,156 crore for 300 MW Solar Power Project in Rajasthan
- Refinancing of term debt of ₹291 crore for 55 MW Solar project in Telangana & Madhya Pradesh

INVESTMENT SYMPOSIUM ON 'THE OPPORTUNITY OF GREEN FINANCE IN INDIA'

YES BANK organized an investment symposium on 'The Opportunity of Green Finance in India', along with FMO (the Development Bank of the Netherlands), DEG (the Development Bank of Germany) and Proparco (the Development Bank of France). The symposium shed light on the increasing investment potential of green assets in India and the Asia Pacific region. Besides, it facilitated dialogue among 50 different domestic and international financial institutions, spanning the public and private sector, including regulators, stock exchanges, rating agencies, and banks.

During the symposium, the Bank signed a charter with FMO, DEG, and Proparco to champion green finance in India. The four banks committed to mobilize green investments and capitalize on opportunities in India's sunrise sectors. Besides, they are to help in achieving India's Nationally Determined Contributions (NDCs) and Sustainable Development Goals (SDG) targets, towards climate change.

(L-R) Ashish Kumar Chauhan, MD & CEO, Bombay Stock Exchange (BSE), Karin Homermann, Vice President, DEG, Rana Kapoor, Managing Director & CEO, YES BANK, Guillaume Barberousse, Head of Banking & Capital Markets, Proparco, Linda Broekhuizen, Chief Investment Officer, FMO, and Namita Vikas, Group President & Global Head – Climate Strategy and Responsible Banking, YES BANK

POWERING SOLAR PROJECTS

YES BANK has played a pioneering role as India's 'Green Bank' in developing the renewable energy sector. The Bank is one of the associate organizations supporting International Solar Alliance (ISA). It is a treaty based international inter-Governmental alliance of 121 solar resource rich countries lying fully or partially between the Tropics of Cancer and Capricorn. ISA aims to mobilize USD 1,000 billion by 2030 for massive deployment of solar energy.

Given the Bank's leadership in RE sector knowledge and financing, it was invited to participate in the International Solar Alliance's (ISA) Founding Conference on March 11, 2018. The program was held at the Rashtrapati Bhawan Cultural Center, New Delhi. It was attended by 34 Heads of State/Government and ministerial delegations from ISA member nations and 25 esteemed Indian industry leaders, including Mr. Rana Kapoor, Managing Director & CEO, YES BANK. The event was inaugurated by the Hon'ble Prime Minister of India, Shri Narendra Modi and Hon'ble President of France, Mr. Emmanuel Macron, the founding signatories of ISA. As a knowledge partner, YES BANK prepared the ISA Compendium of Global Case Studies of Solar Energy Deployment from 20 ISA member countries.

Rana Kapoor, Managing Director & CEO, YES BANK speaking at International Solar Alliance's (ISA) Founding Conference on March 11, 2018 at the Rashtrapati Bhawan Cultural Center, New Delhi

YES BANK has also committed to mobilize USD 1 billion till 2023 and USD 5 billion till 2030 towards financing solar energy projects in India at the World Energy Summit 2018.

RENEWABLE ENERGY FINANCE FACILITY

YES BANK launched a USD 400 million renewable energy finance facility as a joint initiative with European Investment Bank (EIB) to support the expanding renewable energy sector. Along with the Bank, this facility will be supported by EIB with an investment of USD 200 million, project promoters and other financial institutions.

This initiative is EIB's first-of-its-kind engagement with any Indian commercial bank. The 15-year tenor of the association is EIB's longest lending tenor. This program will streamline financing for a range of renewable energy projects being built and operated by leading Indian organizations. Eligible solar projects have been identified in Rajasthan, Telangana, Maharashtra and Karnataka, while additional projects are being examined.

Donal Cannon, Head of Regional Representation for South Asia, EIB with Arun Agrawal, Group President, International Banking, YES BANK

In October 2017, YES BANK signed a long-term credit line of USD 30 million with OeEB, the Austrian Development Bank, for dedicated financing of wind and solar power projects in India.

ENERGY EFFICIENCY INVESTMENTS

India's Micro Small & Medium Enterprises (MSMEs) sector is emerging as a growth powerhouse. Over 51 million MSMEs account for 40% of the country's total exports and 38% of its GDP. For YES BANK, providing finance for sustainable MSMEs is a part of their core business strategy.

The Bank signed an MoU with the Bureau of Energy Efficiency (BEE) to become the Participating Financial Institution (PFI) for availing risk guarantee under the Partial Risk Guarantee Fund for Energy Efficiency (PRGFEE). The PRGFEE is an innovative financial instrument, which uses public resources to channelize private sector finance towards promoting energy efficiency in different sectors of the economy, including MSMEs, buildings and municipalities.

YES BANK will channelize the Bank finance for energy efficiency projects through BEE approved Energy Services Companies (ESCOs). The Bank also trained select employees across the country through the BEE – PRGFEE workshop.

MILESTONES ACHIEVED BY YES BANK IN RE SPACE

YES BANK has successfully financed ~4.7 GW RE projects towards its green energy commitment of financing 5 GW of RE projects taken in February 2015 at the RE-INVEST.

SUSTAINABLE INVESTMENT BANKING

Sustainable Investment Banking (SIB) is a knowledge focused vertical at YES BANK. It provides investment banking and advisory services in the sustainability space, including renewable energy, clean technology, environment, healthcare, and education

SIB specializes in private equity fund raising, mergers & acquisitions, technology transfer, business advisory and corporate restructuring, among others. It has successfully completed 41 transactions, amounting to a transaction value of over USD 7 billion.

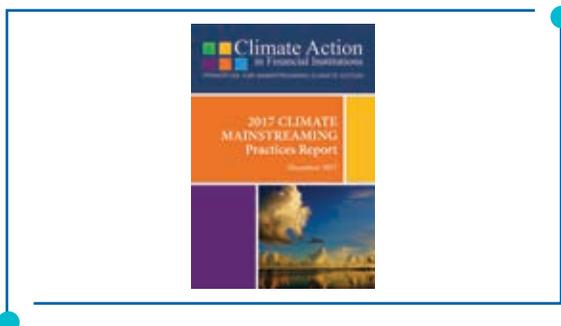

During the reporting period, SIB successfully closed the following transactions in the RE space:

- Acted as an exclusive advisor to Bhilwara Energy Limited for sale of their 69.5 MW wind portfolio to Hero Future Energies Limited
- Acted as an exclusive advisor to Kiran Energy for buy out of minority stake of Mahindra Holdings Limited in their 38 MW solar portfolio
- Acted as an exclusive advisor to Kiran Energy for buy out of minority stake of First Solar in their 55 MW solar portfolio
- Acted as an advisor to First Solar for sale of their operating solar portfolio in India

SIB represented YES BANK's strong sector expertise and thought leadership in the renewable energy and sustainability sectors at key conferences and seminars, including at Powergen Renewable Energy World Congress; PHD Chamber of Commerce India Electric Vehicles Conclave; TERI's World Sustainable Development Summit; and UNIDO Low Carbon Technology Innovations Meet and EQ Cleantech Finance Summit, among others.

CLIMATE ACTION IN FINANCIAL INSTITUTIONS

Climate Action in Financial Institutions is an unprecedented coalition of public and private financial institutions. It is critical in initiating action on global priorities by bringing together over 30 global financial institutions to mainstream climate action within their core business strategies. The initiative has developed five voluntary Principles of Climate Mainstreaming to assist and guide financial institutions in supporting low carbon and climate-resilient development.

YES BANK has been associated with the initiative since its inception at the sidelines of COP21 in 2015. As a part of the coordination group (others include HSBC, AFD & EBRD), the Bank is currently leading the work stream on 'Spreading a Climate Strategy into a whole organization'.

YES BANK's case studies have been included in the 2017 Climate Mainstreaming Practices Report launched on December 11, 2017 at One Planet Summit. They have also been included in the online database launched during COP23 by Climate Action in Financial Institutions.

The database and the report feature case studies from global financial institutions on strategies of mainstreaming climate action within core business models.

NATURAL CAPITAL AWARDS 2017

The YES BANK Natural Capital Awards was launched in 2013. It is a pioneering platform that mainstreams India's natural capital dialogue by showcasing practices in natural capital consumption, accounting mechanisms,

and conservation within the industry and civil society. The awards were conceptualized to recognize and reward unique, scalable, and sustainable models with innovation in products, services, and processes to safeguard natural capital. The complementing and collaborative roles of individuals, policy makers, and industry are showcased at the platform. Besides, the awards highlight how sustainable development is possible through multi-dimensional and multi-disciplinary strategies that are aligned with participatory, inclusive, and responsible governance.

In 2017, the awards saw participation from 522 corporate and 10,135 individuals, a ten-fold increase over previous editions. The third edition of the awards was judged by an eminent jury, comprising noted Indian and international academicians, thought leaders, photographers and environmentalists, who have contributed in strengthening the global discourse on Natural Capital.

The Natural Capital Awards ceremony saw participation from the government, industry and international diaspora, wildlife and natural history specialists, sustainability professionals, and multilateral agencies. The ceremony was held in September 2017, with Dr Harsh Vardhan, Hon'ble Minister for Earth Sciences, Science & Technology and Environment, Forest and Climate Change, Ministry of Science & Technology, Government of India as Chief Guest.

The program also had Mr Inia Seruiratu, Hon'ble Minister for Agriculture, Rural & Maritime Development & National Disaster Management & Meteorological Services, Republic of Fiji as the Guest of Honor. Shri Suresh Prabhu, Hon'ble Minister for Commerce and Industry, Government of India inspired the participants through his video message.

In their addresses, the dignitaries highlighted the need to bring the stakeholders together, and create a national and global movement to combat climate change and embark on the sustainable development pathway.

The winner of Pixel Perfect category being felicitated by (L-R) Dr Kirit Parikh, Chairman, IRADe, Namita Vikas, Group President & Global Head, Climate Strategy & Responsible Banking, Dr Harsh Vardhan, Hon'ble Union Minister for Earth Sciences, Science & Technology and Environment, Forest and Climate Change, Ministry of Science & Technology, Ashok Chawla, Non-Executive Chairman, YES BANK and Nikhil Sahni, Group President, Government Banking and National Head, Branch Banking

This year the awards also partnered with five state governments – Chhattisgarh, Gujarat, Rajasthan, Telangana and Uttarakhand – along with the Embassy of the Netherlands and Proparco, the French development financial institution. These organizations presented their perspective on enhancing natural capital in their domains through initiatives and practices, which can be emulated by all. The discussion was enriched further by the panel on ‘Conserving India’s Natural Wealth: A Multi-Actor Paradigm’ with contributions from UNFCCC, We Mean Business, ERM India, Green Highways Division, National Highways Authority of India (NHAI) and YES BANK.

During the event, two knowledge reports – ‘Valuing Natural Capital: Applying the Natural Capital Protocol’ and ‘Natural Capital Mapping: Towards Achieving SDGs in India’ – were released, strengthening the discourse on conservation of India’s rich natural capital.

CDP WATER FORUM

YES BANK hosted the flagship event of CDP, its Global Water Forum 2017 in Mumbai. The event facilitated a dialogue between various national and international experts about water conservation and its efficient usage.

Experts voiced their opinions on the impact of climate change on water and the need to achieve water security for public and private institutions. This event saw participation from leading corporate houses.

ENVIRONMENT AND SOCIAL POLICY

YES BANK believes that it is critical for banks to have an established framework to recognize, evaluate, monitor and manage the environmental and social elements in its day-to-day decision-making. Besides, it is becoming increasingly imperative for banks to consider the ‘sustainability dimension’ while making credit decisions. In line with its responsible banking strategy and practices, YES BANK has been adopting a precautionary approach to environmental and social impacts, resulting from its lending activities.

The Bank’s Environment and Social Policy (ESP), implemented in 2006, serves as a structured approach towards responsible lending. Through this policy, the Bank integrates environmental and social risks into its overall credit risk assessment framework. It has voluntarily

adopted the policy, based on international frameworks such as the Equator Principles and IFC guidelines. The ESP continues to be a crucial part of the Bank’s credit risk appraisal process, which goes beyond the realm of financial risk mitigation.

INTEGRATING ENVIRONMENTAL EXCELLENCE WITH GO DIGITAL DRIVE

YES BANK has enhanced the scope of its Environment Management System (ISO 14001:2015) to 744 locations. It further included the rural branches and YES Securities into the certification program with digitization as a key focus area. The Bank’s environment management policy highlights greater commitments to environment protection and commitment to source renewable energy for ‘greening’ the Bank’s operation with the strategic objectives:

- Improve key resource efficiency, such as electricity usage, fossil fuel, paper and water with digitization of processes
- Conserve natural resources by adopting the ‘3-R’ (reduce, reuse and recycle) approach towards prevention of pollution and disposal of waste, especially electronic waste, in line with regulatory requirements or best-industry practices
- Explore renewable energy sources for ‘greening’ the Bank’s operations and adopt green-building principles

- Set, monitor and review the overall Environmental Management System (EMS) objectives and targets consistently to achieve continuous improvement in environmental performance on the digital platform – Resustain
- Promote 'green procurement' to influence strategic suppliers' sustainable sourcing of products and services
- Integrate energy and environmental considerations in the design of new infrastructural facilities

EMPLOYEE ENGAGEMENT AND COMMUNICATION

The Bank conducted extensive awareness campaigns and training programs throughout the year to involve all employees to collaboratively achieve higher environmental performance standards. The Bank trained all its employees on the Environmental Management System through the re-launch of a comprehensive E-Learning module, leading to greater employee awareness and participation. The Bank also uses mailers, signage and posters to communicate regularly with its employees regarding resource conservation.

DIGITAL AND PAPERLESS BANKING

The Bank continued its efforts to gradually move towards paperless banking, by digitizing paper-based products and processes, wherever possible.

Its key initiatives during the year included:

- **E-Welcome Kit:** YES BANK launched the E-Welcome kit for retail asset products in October 2017. This provides seamless customer experience through the digital platform. It has helped reduce turnaround time and avoid the potential use of 10,59,360 A4 sheets of paper, 92,118 inserts and 46,059 envelopes (based on total 68,745 loan application processed as on March 2018)

- **YES SPEED:** The Bank launched YES SPEED in December 2017. The digital loan disbursement platform has significantly reduced the turnaround time of the process and potential use of paper
- **RESUSTAIN:** The Bank launched RESUSTAIN, a user-friendly technology platform, to improve the process of data collection on environmental and CSR projects. The end-to-end solution is paperless and provides features to capture data on YES COMMUNITY, environmental performance of the branches and CSR project monitoring. It makes reporting for the user and data analytics for the program manager simple and paperless
- **e-KYC:** Last year, the Bank initiated electronic verification for its new customers, through e-KYC (Know Your Customer). This resulted in greater paper savings due to reduced requirement of physical documents
- **Document Simplification:** The Bank encourages its business units to dedicatedly reduce dependence on paper. Thus through an initiative the Bank has simplified its loan processes and substantially reduced the number of loan agreement pages, resulting in savings of 16,49,880 A4 sheets
- **Digital Reimbursements:** The Bank has digitized all employee reimbursement claims, such as mobile phone, local conveyance, outstation travel and staff relocation, among others through an internal YES PAY platform. The initiative has resulted in total savings of 2,54,000 A4 size sheets.

REDUCE, REUSE AND RECYCLE

During the year, the Bank continued its focused efforts to diminish resource consumption through various initiatives that include:

- A pilot project to recycle all paper waste generated by the Bank. The pilot has been implemented across 78 branches and the corporate office in Mumbai
- The Bank promoted car-pooling among its employees using mobile app-based solutions at some of its major locations
- The Bank encouraged individual business units to commit at a leadership level to reduce their dependency on paper, resulting in more accountability and ownership
- The BANK has recycled 9.5 tonnes of dry waste resulting in 27.35 MT of carbon footprint reduction every quarter. On an average, every quarter 150,000 Swachh Bharat Points are accumulated against the amount of waste recycled. These points are redeemable for recycled stationery, which are made by women of self-help groups

MANAGING E-WASTE

Owing to its high dependency on technology, electronic waste is a primary environmental concern for YES BANK. Thus, the Bank has empaneled the Central Pollution Control Board (CPCB) authorized third-party e-waste handlers for disposal of e-waste from its locations across India.

- During FY 2017-18, the Bank responsibly disposed 4,700 kg of assets as e-waste, which included desktops, printers and laptop hardware, UPS, and server hardware

INFRASTRUCTURE

YES BANK has been increasing investments in technology to renew existing infrastructure, improve performance and enhance resource efficiency.

- Migrating to LED lighting in phases – as on March 31, 2018, 4,403 LED lights have been installed at 66 new branches and 2 corporate office locations with ₹51.22 lakh investment, with a potential saving of 319,217.5 kWh of energy consumption and ₹31.8 lakh in monetary savings annually
- Optimizing water usage – the Bank installed pressure compensating aerators in water faucets at its primary locations
- Installing CO₂ monitoring equipment at YES BANK Tower, Mumbai – to monitor and improve the ambient air quality in the work space
- Phasing out air conditioning systems that use ozone depleting coolants – during FY 2017-18, the Bank

initiated a process to replace all air conditioners that are more than 10 years old with eco-friendly models

- Replacing the branch signages with LED lighting in phases, considerably decreasing energy consumption

KEY STEPS TO ENHANCE ENERGY CONSERVATION

YES BANK's energy management initiatives will aim at reducing 15-20% energy consumption with sustainable facility management over a two-year period.

- Similarly, power factors at branches are being monitored above 0.9 with the help of capacitor bank, while monitoring panels are installed to reduce risk of penalty levied by DISCOMs
- An air conditioning replacement model has been developed for replacing old models with energy consumption of 1.6-1.8 times of peak load and temperature control with dedicated AHU units for centralized AC systems
- Retrofit solutions for HVAC systems have a potential saving of 10 to 15% power consumption. The Bank will be incorporating some of the solutions in a phased manner over a two-year period. Moreover, maintaining AC temperature above 25° Celsius has helped the Bank achieve 3% saving of hourly kWh consumption
- 100% of YES BANK branches are issued Petro cards for diesel procurement, resulting in enhanced transparency, reduced wastages and cost-saving of 2% over the preceding financial year

PERFORMANCE OF ENVIRONMENTAL PARAMETERS

YES BANK GHG Inventory	FY 2017-18	FY 2016-17	FY 2015-16
Scope 1 – Diesel (tCO ₂ e) **	921.03	942.44	1,098.33
Scope 1 – Refrigerant (tCO ₂ e) **	2,059.04	1,349.30	552.88
Scope 2 – Emission (tCO ₂ e) #	29,668.27	34,226.39	30,946.40
Total Emission (Scope 1+2) (tCO ₂ e)	32,648.34	36,518.13	32,597.62
Scope 3 Emission (tCO ₂ e) **	4,420.89	2,642.23	1,543.82

% Change in Total Absolute Emission Y-o-Y	(10.60)	12.03	11.68

** Scope 3 includes Business Air Travel by the employees.

Grid Electricity Consumed has been calculated from the electricity bills for all locations, hence a 15% reduction in the calculation has been considered to account for Government taxes and overheads. Scope 2 emissions includes negligible emissions generated by electricity consumption by YES Securities Ltd, a subsidiary, since it is operating out of same NOC Mumbai building premises.

Scope 1 emissions include CO₂, N₂O and CH₄ emissions from YES BANK's diesel usage and 10% refrigerant leakage from the AC systems.

The emission factors and GWP (Global Warming Potential) values have been taken from GHG protocol. The cost of diesel consumed pan bank is converted in quantities consumed by using state level diesel prices. Like 2012-13 (base year), the Bank has used operational control approach for measuring and managing these emissions.

Note: Scope 2 emissions include CO₂ emissions from electricity consumed by YES BANK. The emission factors have been taken from CEA's (Central Electrical Authority) CO₂ database, version 10. The cost of electricity consumed pan bank is converted in quantities of electricity consumed by using state level tariffs. Like 2012-13 (base year), we have used operational control approach for measuring and managing these emissions.

As a service sector organization, the Bank is reporting specific GHG intensity covering its Scope 1 and Scope 2 emissions, which comprise its significant energy usage, linked with GRI Standard 301 requirements. Given the disclosure, the Bank does not separately report the energy intensity.

WATER FOOTPRINT

Considering the Bank's business and locations it operates in, there are no significant negative impacts on the communities around its areas of operation. The Bank's primary water consumption is for drinking and municipal purposes.

Based on the assumption that ~45 liters of water is consumed per employee per day (Source: Manual on Water Supply and Treatment, Institutional Needs, Central Public Health & Environmental Engineering Organization, Ministry of Urban Development, Government of India), the Bank has estimated that in 2017-18, the water consumption at all its facilities was 203,460 m³.*

Given the Bank is in a stage of steady growth, the consumption has grown from 187, 240 m³ in 2016-17, and

133,213 m³ in 2015-16 respectively. The Bank encourages its branches to lead their own mitigation initiatives and shares best practices across other branches. The Bank is looking towards monitoring of water consumption at branches periodically and metering systems are being installed.

* Estimated number of working days per employee calculated excluding weekends, annual leaves, public holidays and averaged sick leaves

LEADERSHIP IN CLIMATE DISCLOSURE

YES BANK was the first Indian banking signatory to the CDP and has been reporting its carbon emissions since 2009. Backed by its enhanced disclosures on emissions and a clear climate action strategy, the Bank has been recognized as a Climate Disclosures Leader consistently.

The Bank welcomes the recommendations of the Financial Stability Board's Taskforce on Climate-related Disclosures (TCFD) and is committed to implementing the disclosure recommendations.

HUMAN CAPITAL

Human Capital refers to the employees’ competencies, knowledge and experience, and their capability to utilize these to meet stakeholder needs. It also includes development programs undertaken for employees.

YES BANK’s human capital philosophy focuses on creating the right mindset to enable business performance, by empowering and encouraging YES BANKERS to push their boundaries beyond their comfort zones. The Bank encourages its people to embrace challenges and drive growth, thereby deepening mind share and enhancing market share.

To engage its growing workforce, YES BANK follows the 5C Engagement Model, comprising Culture Communication, Career, Connect and Care. Initiatives such as YES CLUB facilitate participation in activities around three broad themes: Social, Culture and Sports.

To reinforce competitive advantage through HR digitization, characterized by big data, integration, mobility, social media, ‘gamification’, and cloud computing, the Bank has adopted a new HRIT system – YESforYou Fusion.

The new system will enhance the Bank’s ability to manage employees in a more flexible, agile and productive manner, by integrating talent management into the fabric of everyday business. It is slated to become a vital component of YES BANK’s performance, re-affirming its commitment towards becoming the Finest Quality Large Bank of the World in India.

HUMAN CAPITAL INITIATIVES

YES CLUB FIT – A WELLNESS INITIATIVE

With the objective of encouraging an atmosphere of fun and camaraderie, and to provide YES BANKERS a platform for engaging in personal wellbeing and showcasing their talent and creativity, YES CLUB was launched across its Hub Branches. YES CLUB is the primary platform that facilitates participation in four broad themes: Social, Culture, Sports and Wellness. Since its launch,

YES BANKERS across the Bank’s 259 Hub/Cluster Hub branches have organized and participated in activities such as sports tournaments, adventure sports & trekking, arts and crafts exhibitions, photography contests and blood donation camps

YES CLUB is also the primary driver of initiatives focused on building a culture of holistic wellbeing amongst YES BANKERS. Under this agenda, several Wellness focused activities such as medical screening camps, Doctor talks in partnership with Apollo, wellness knowledge campaigns, workshops on emotional well-being, meditation, stress management, yoga, zumba and functional training sessions like chair yoga and chair cardio are implemented.

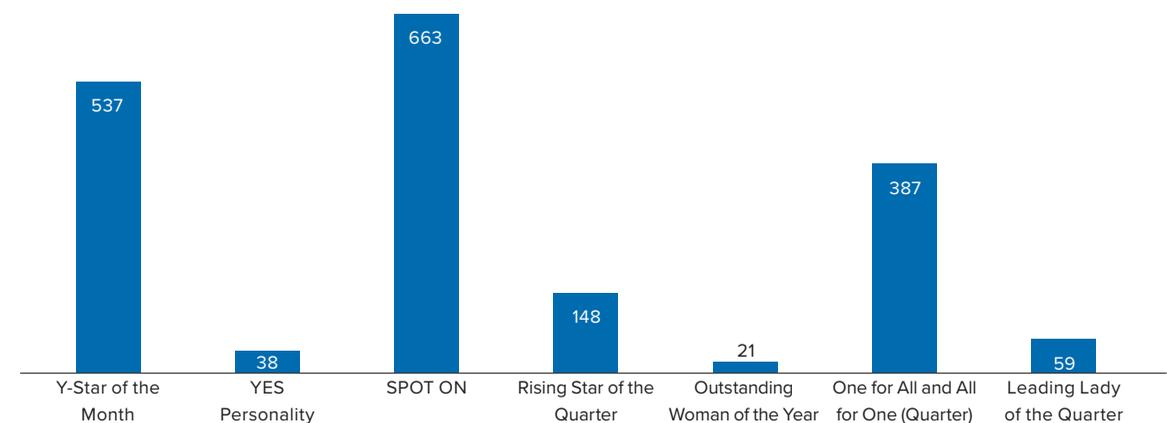

SAY YES TO G.R.A.C.E

‘Say YES to G.R.A.C.E’ (Gender Respect and Commitment to Equality) is a robust framework that creates awareness and periodically disseminates the Bank’s revised Policy for Prevention of Sexual Harassment. The Bank’s policy is in line with ‘The Sexual Harassment of Women at Workplace (Prevention, Prohibition and Redressal) Act & Rules, 2013.’ The Bank has an internal committee to investigate and inquire into sexual harassment complaints.

YES LEAGUE OF EXCELLENCE

YES BANK launched its revamped rewards and recognition online portal called the ‘YES LEAGUE OF EXCELLENCE’. It provides a formal recognition platform to recognize and reward Excellence at YES BANK, and in turn creates a ‘Culture of Appreciation’. All YES BANKERS have the option to appreciate and wish their colleagues on achievements or special occasions, while reporting managers can nominate colleagues for rewards like ‘Employee of the Month’.

Award Categories

YES WE CARE – ADOPTION LEAVE

YES BANK rolled out adoption benefits for its employees to align organizational objectives with the emerging needs of its employees. Under the new policy – ‘Bringing A Beautiful Yes’, rolled out under the ‘Yes We Care’ initiative, employees adopting a child will be offered leaves. Women employees adopting a child can take up to two months of paid leave for adopting a child of six years of age or below, and one month of paid leave for adopting a child over the age of six years (up to 14 years).

The Bank also offers seven day paternity leave, applicable in cases of adoption as well.

EMPLOYEE PERFORMANCE MANAGEMENT

The Bank’s Y-TOP (YES Talent Optimization Program) manages the performance of executives, ensuring timely, unbiased and transparent appraisal process for 100% executives. It follows an annual review cycle, with every executive undergoing a multi-level performance valuation. The Bank evaluates performance purely on merit. The ratio of basic salary for men and women at the Bank is 1:1.

YES BANK AWARDED TIMES ASCENT ‘NO. 1 DREAM COMPANY TO WORK FOR’

YES BANK won the ‘No. 1 Times Ascent Dream Company to Work For’ at the 26th World HRD Congress held in Mumbai in February 2018 after a rigorous multi-stage

selection process among 800 participating companies. YES BANK also scored 75 in Trust Index Score of the Great Places to Work survey in 2017, conducted by the Great Places to Work® Institute India.

LISTENING TO EMPLOYEES – HCM HELPDESK

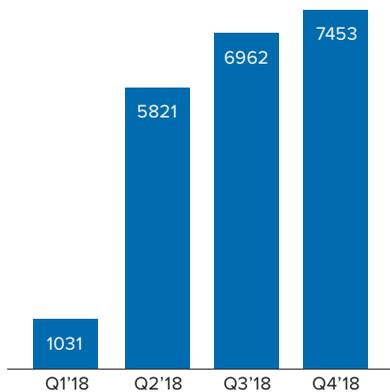

In line with the Bank’s objective to provide a consistent and superior service experience to its employees, ‘HCM HelpDesk’ is a simple, easy-to-use platform allowing employees to raise all their HCM related inquiries via email, Voice Calls which are taken to relevant and satisfactory closure by team. Through this platform, employees can raise grievances, as well as register risks.

A dedicated team analyzes queries and reports concern areas to Head - Human Capital Management and subsequent corrective actions are undertaken.

Most of the queries raised on HCM HelpDesk were related to Salary and Compensation matters (approximately 83%), which may be further elaborated as queries on Investment Declaration, Leave Without Pay, Reimbursements, Salaries & Taxes.

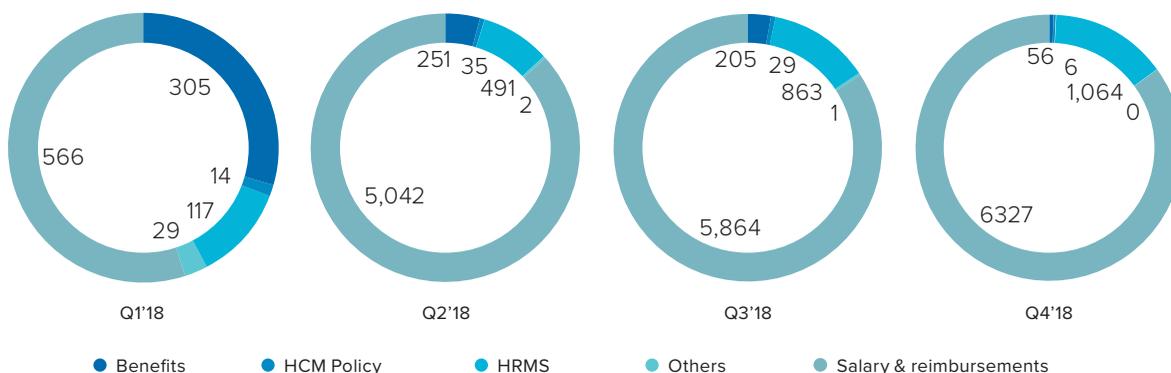

HCM HelpDesk is aimed at providing direct access to Bank’s HCM team. The charts below depict the extensive use of the tool for various categories.

LEARNING & DEVELOPMENT

YES SCHOOL OF BANKING

Since inception, YES BANK has emphasized on a knowledge-driven approach with an objective focus on capability development. The Bank aspires to be an 'Employer of Choice' by the brightest and best quality human capital.

YES SCHOOL OF BANKING (YSB), institutionalized in 2007, functions as the Center of Excellence for Learning & Development (L&D) solutions in banking and related areas. YSB offers L&D solutions in behavioral and

leadership skills, employee induction (includes Know Your Customer and Anti-Money Laundering), mandatory policies and compliance, process training and product training. It is the first and only Learning & Development function in India's banking sector to achieve dual certifications in ISO 9001:2008 and ISO 29990:2010.

MY LEARNINGS@YES

MY Learning@YES, the Bank's online Learning Management System, supports e-learning and classroom training. It caters to the need for planning, conducting and recording all key aspects of instructor-led training programs.

Additionally, the system has features like a versatile training calendar, training schedule management, feedback mechanism and management information system. The program incorporates the latest management research and involves a highly experiential kind of learning, where participants can engage in role plays, group discussions, partner conversations and case studies.

MAJOR LEARNING MODULES

Some of the major learning modules initiated by the YES School of Banking are:

1. YES D.I.C.E Workshop (Design Thinking, Innovation, Creativity led Entrepreneurship)

A series of workshops for senior management leaders and middle management executives launched in partnership with ISDI, to create awareness and reiteration of DICE among YES BANK's leaders.

2. L.E.A.P (Leadership Excellence to minimize Attrition and maximize Productivity)

The workshop for senior and middle management executives to enhance their leadership capability and capacity of YES BANK leaders, minimize attrition, maximize productivity and eliminate gender bias at the workplace.

3. GO GET SALE – Mobile Gamification Learning

The Bank's first game-based mobile learning module for the Branch Banking Sales team to enhance the knowledge and skills of the frontline sales executives through seven micro skills.

4. SUPERCOP (Super Certified Operations Professional) Certification

SUPERCOP is a 'gold standard operations certification' for select YES BANKers from Trade Finance Operations, FMO and CAD teams. It aims to create an elite team of expert executives, who understand and manage end-to-end operations.

The program encompasses cross-functional training across critical operational roles, external certifications, service orientation, leadership training, design thinking and innovation workshop, and exposure to professional technology programs. Its objective is to hone the participants' future skills.

INDUCTION PROGRAM

Corporate Induction continues to be YSB's high impact induction program that trains new employees on key essential areas that every YES BANKer must be aware of and imbibe. The Induction program is the first critical training for employees on key regulatory and compliance issues including Know Your Customer (KYC) and Anti-Money Laundering (AML) guidelines, information security, products and processes and Human Capital Management policies and procedures.

During the reporting period, 318 induction programs were conducted for 4,733 executives and 4,858 executives were inducted through the e-learning module.

UNIVERSITY & SCHOOL RELATIONSHIP MANAGEMENT (USRM)

The Bank's University and School Relationship Management (USRM) program is a structured, sustainable and scalable engagement process. It aims to create and maintain the maximum mindshare for YES BANK among students from the top business schools in India, thereby positioning the Bank as a preferred employer.

YES BANK TRANSFORMATION SERIES

The winners of YES BANK Transformation Series 2017, Team Easy Company from IIM-Shillong, being felicitated by Ramanathan Ramanan, Mission Director, Atal Innovation Mission, NITI Aayog and Ashok Chawla, Non-Executive Chairman, YES BANK

Led by the YES SCHOOL of BANKING, the Transformation Series was conceived in 2010 as a global case-study challenge with the underlying ethos of 'Innovation, Creativity and Transformation'. It offers students globally an opportunity to work on real-life industry challenges faced by the financial sector and urges them to push the envelope, in a bid to transform 'innovation to impact'. Over the years, the focus of the series has been on various disruptive concepts such as digital financial inclusion and complete digitalization. The program has seen 30,000 student participants, 5000+ ideas, 700+ educational institutions, 15 finalist teams and 3 National Winners. YES BANK Transformation Series, 2017 in its sixth edition this year, provided a grueling test to India's future business leaders to think beyond the ordinary.

YES PROFESSIONAL ENTREPRENEURSHIP PROGRAM (Y-PEP)

Y-PEP, the Bank's innovative and institutionalized talent acquisition program, continues to strengthen YES BANK's position as an 'Employer of Choice' across premium B-School campuses. Its primary objective is to develop a strong talent pool to drive the Bank's future growth. During FY 2017-18, the Bank inducted 74 Y-PEP candidates into the program.

This highly qualified talent pool has contributed to consistently augment and support the Bank's knowledge-based, state-of-the-art technology driven services across key banking relationships, products, knowledge advisory groups, and critical support functions. Since its inception, the program has inducted over 1,000 candidates.

During FY 2017-18, the Bank inducted 74 Y-PEP candidates into the program.

YES FUTURE READY SCHOLARSHIP PROGRAM

YES FUTURE READY Scholarship Program (previously known as YES Aspire to Innovate) was launched in January 2018. The program aimed at grooming India's future leaders. It will also enhance YES BANK's positioning as the 'Preferred Employer of Choice' on campus. It offers individual scholarships of ₹2 lakhs each to 31 YES FUTURE READY scholars chosen from India's top premier B-schools and engineering institutes.

Deodutta Kurane, Group President, Human Capital Management, YES BANK speaking at the YES Future Ready Felicitation Ceremony

The scholars also have an opportunity to receive structured mentorship by YES BANK's top management leaders and access to design thinking and innovation workshop and future-ready (professional technology) skills by leading international institutes.

WOMEN-CENTRIC INITIATIVES

In line with the rise in societal awareness and action towards women's safety in India, YES BANK organizes awareness and training workshops for its female executives on basic preparedness and response measures. It is designed to sensitize, empower and support them in challenging situations. These guidelines were aimed at increasing safety awareness and providing practical tips and tools that will help female executives avoid potentially hostile situations practically.

Another key initiative that has been implemented is a 24X7 helpline number for all YES BANK executives in SOS situations. A list of next-of-kin, along with their contact numbers, has been made available with the 24X7 call center, to be able to inform them should any such necessity arise.

GREEN BUILDING

YES BANK believes that even workspaces can be green and high-performing from a sustainability point of view. With this line of thought, training was organized in consultation with Godrej Green Building Consultancy Services, to familiarize the Responsible Banking and the Infrastructure and Network Management (INM) teams with the green-building concept. The training further focused on the rating and certification process and provided an in-depth understanding of the sustainability aspects embedded in a project design. It emphasized on sustainable sites, water efficiency, energy efficiency, material & resources and indoor air quality.

YES BANK'S SUPPLY CHAIN

The Bank's procurement practices continue to be centrally driven by the Central Procurement Unit and overseen by its Central Procurement Committee. In the reporting period, the Bank continued with its efforts in strengthening its supply chain based on the following principles:

- Risk management
- Effective cost management
- Strengthening systems, controls and processes
- Responsible sourcing

The Bank has a diverse supplier base, including suppliers of key platforms on which the Bank operates. With a pan-India presence, it also procures from local vendors for localized consumption of products and services.

The Bank has fostered strategic relationships with eminent Indian and global companies, which not only widen business platforms, but also lay the foundation for a sustainable future. A comprehensive list of YES BANK'S strategic relationships can be accessed at <https://www.yesbank.in/about-us/corporate-partnership>.

To ensure proactive management of strategic supplier partners and adequate risk management, YES BANK has been strengthening its Vendor Management framework. It endeavors to improvise and continually adopt global best practices. The Bank follows the mechanism of segregating its vendors into four categories — strategic, critical, core and basic— and based on this categorization, implements its vendor review and risk management practices. YES BANK has put in place processes to ensure vendor redundancy/business continuity planning (BCP) for critical spends.

YES BANK has well-established vendor guidelines outlining its vendor selection criteria and compliance

with laws of the land in addition to assessing a vendors' credibility, capability and cost to deliver. As part of the Bank's stated objective and commitment to implement best practices in corporate governance, it has a web-based 'Corporate Whistleblower Initiative' (CWI). CWI is an independent online reporting service aimed at facilitating secure and confidential communication between the Bank and its vendors.

The Bank has also undertaken several other key initiatives to strengthen the vendor management process implemented. These include:

- Process standardization for claiming central value added
- Tax benefit
- Multiple year contracts, depending on the category of the spends
- Initiated strategic contracts with key vendors with standard terms for year-round purchases for complex items

Supplier Code of Conduct

YES BANK's vision of being 'The Finest Quality Large Bank of the World in India' has enabled a laser-sharp focus on being a sustainable bank, through its 'Responsible Banking' ethos. The Bank engages with the sustainable development ecosystem nationally and internationally as a part of its stakeholder commitment.

We believe a strong commitment and a strategic approach to sustainability are essential for managing the challenges and opportunities of a rapidly changing global environment. At YES BANK, we consider our suppliers to be an integral part of our ecosystem and we strive to connect our strengths with our supply chain partners' competencies to make full use of the opportunities for sustainable development.

YES BANK is a signatory to United Nations Global Compact and the Bank's Communication on Progress (COP) continues to be at GC Advanced level. We particularly encourage our suppliers to support the following ESG standards which are based on the ten principles of the United Nations Global Compact initiative. Towards this, the Bank expects its supply chain partners (as well as their suppliers and subcontractors) to comply with applicable laws of the land and adhere to recognized environmental, social and corporate governance standards (ESG standards).

Environment

- ✓ Establish control over timely delivery and quality commitment as per scope of service

YES BANK'S Supplier Code of Conduct integrates sustainability priorities in its supplier base

Schedule 16 – Operating Expenses, in the Annual Report 2017-18, provides a breakdown of the Bank's expenses under various operational heads, including services provided by its supply chain, on page 220 of this report.

SUPPLY CHAIN SUSTAINABILITY

As India's first banking signatory to the UN Global Compact, YES BANK continues to abide by the 10 Principles of the Compact covering four major dimensions – human rights, labor, environment and anti-corruption. The Bank uses them as the foundation for build its sustainable supply chain practices.

The Bank believes that its suppliers are an integral part of its ecosystem; and YES BANK strives to connect its strengths with its supply chain partners' competencies. The objective is to make optimum use of the opportunities for sustainable development. In line with its belief, and as a part of the ESG operationalization plan, the Bank released a Supplier Code of Conduct, based on environmental, social and governance (ESG) parameters. The supplier code defines the Bank's commitment to human rights, fair labor practices, environmental progress and anti-corruption policies.

Through this initiative, the Bank is encouraging its suppliers to support its sustainability agenda. The Bank further expects its supply chain partners to comply with the applicable laws of the land and adhere to internationally recognized ESG standards. The Bank also introduced an ESG self-assessment tool for suppliers to understand their current practices and identify areas for improvement.

WORKPLACE TECHNOLOGY MOBILITY

YES BANK has invested in and successfully implemented state-of-the-art technology initiatives since its inception. The Bank's philosophy is to engage with key partner companies, who are acknowledged leaders in their products or businesses to develop specific solutions for YES BANK that become marketplace differentiators.

Optimizing IT asset use in service organizations is emerging as a global best practice to reduce generation of e-waste and diminish operational costs. As on March 31, 2018, the Bank had an IT asset to employee ratio of 1.50. During FY 2017-18, the Bank has responsibly disposed 4,700 kg of e-waste through authorized empaneled recyclers.

During the reporting year, YES BANK launched Microsoft Kaizala to help the Bank connect their corporate headquarters and branch office employees with field staff who may be mobile-only users. The tool powers the Bank's sales and distribution workforce across the country to engage over a mobile app and transmit relevant information like sales reports or service requests without the need to connect to the branch or corporate IT network. Consequently, the Bank can serve customers better, with a more productive sales team and real-time updates from the ground for senior management.

SECTION E: PRINCIPLE-WISE PERFORMANCE

PRINCIPLE 1

1. Does the policy relating to ethics, bribery and corruption cover only the company? Yes/ No. Does it extend to the Group/Joint Ventures/Suppliers/Contractors/NGOs /Others?

The Bank has a separate Vendor Management Policy that covers the pertinent issues related to ethics, bribery and corruption. The Bank also has in place a Supplier Code of Conduct in line with the Ten Principles of the UN Global Compact for its strategic suppliers.

2. How many stakeholder complaints have been received in the past financial year and what percentage was satisfactorily resolved by the management? If so, provide details thereof, in about 50 words or so.

Please refer to page 269 for Customer Complaints, page 195 for Shareholder Complaints in this Annual Report.

For Employee complaints, please refer to page 58 of the Sustainability Disclosures in this Annual Report.

PRINCIPLE 2

1. List up to three of your products or services whose design has incorporated social or environmental concerns, risks and/or opportunities.

- i. Digital Banking – YES MONEY, YES PAY, AEPS
- ii. Inclusive and Social Banking –YES LEAP/ YES SAHAJ/ YES Samadhaan /YES Joint Liability Group/Affordable Housing
- iii. Sustainable Investment Banking and Corporate Finance – Lending and advisory in clean energy, technology and water, among others

2. For each such product, provide the following details in respect of resource use (energy, water, raw material etc.) per unit of product (optional):

- i. Reduction during sourcing/production/ distribution achieved since the previous year throughout the value chain?

On account of the nature of its services, the major resources consumed at the Bank are grid electricity and paper. During the reporting period, the Bank has launched several key initiatives and achieved significant traction on on-going initiatives, towards achieving internal resource efficiencies, focused on product and process digitization, greater employee awareness, reduction in waste generation, and improved waste management.

During the year, the Bank's 744 locations, including 4 corporate offices were certified as ISO 14001:2015. The Bank's Environment Management Policy, revised in 2016-17, has a carbon emissions intensity reduction target of 10% year-on-year.

The key initiatives focusing on achieving resource consumption efficiency at the Bank, and the impact achieved, are included in the Sustainability Disclosures 2017-18 that is a part of this Annual Report.

- ii. Reduction during usage by consumers (energy, water) has been achieved since the previous year?

Given that the Bank's primary product offerings are financial services, resource consumption during usage by consumers is not a significant

material issue for the banking sector in general. During the year YES BANK's 744 locations, including 4 corporate offices were ISO 14001:2015 certified, a globally recognized Environment Management System (EMS). Through this EMS, the Bank makes maximum effort to raise awareness among its customers on efficient resource consumption, and on broader national agendas, such as Swachh Bharat Abhiyan, through YES COMMUNITY and related initiatives.

The Bank is rapidly adopting technology to digitize its operations and product offerings, and has witnessed a strong growth in adoption of mobile banking, mobile wallets and internet banking, thus reducing the incidence of paper usage and travel among its customers. The impact achieved through related initiatives is included in the Sustainability Disclosures, as a part of this Annual Report.

3. Does the company have procedures in place for sustainable sourcing (including transportation)?

- i. If yes, what percentage of your inputs was sourced sustainably? Also, provide details thereof, in about 50 words or so.

Given that the Banking sector's primary product offering is financial services, the Bank does not have any raw material requirements. The primary resources consumed for its day-to-day operations are paper, grid electricity, water from municipal sources, and diesel for DG sets in locations with erratic availability of electricity. Through a centralized procurement process, led by the Central Procurement Unit, the Bank strives to achieve greater transparency, compliance and adoption of environmental and labor best practices.

4. Has the company taken any steps to procure goods and services from local & small producers, including communities surrounding their place of work?

If yes, what steps have been taken to improve their capacity and capability of local and small vendors?

Yes. The Bank's award-winning product for the Bottom of the Pyramid – YES MONEY, is based on the Business Correspondent (BC) model that enrolls local small business owners as BC Agents (BCA) to provide remittance services to local communities. These BCAs are trained in remittance operations and basic banking.

In addition to the Bank's procurement done through the Central Procurement Unit, given that the Bank has branches in all states and Union Territories in India, it also procures locally, services and items for daily use such as stationary, food & beverages and local transport. It works with most local vendors to align them with the Bank's procurement requirements and standards.

5. Does the company have a mechanism to recycle products and waste? If yes, what is the percentage of recycling of products and waste (separately as <5%, 5-10%, >10%).

Also, provide details thereof, in about 50 words or so.

Yes. As the Banking sector's primary product offering is financial services, its waste is related to paper, municipal waste, and electronic waste. The Bank has strong policies and practices in place for responsible disposal of all such waste through authorized third party vendors. For waste paper disposal, the Bank has local authorized vendors to ensure near 100% recycling of waste paper, and has partnered with a vendor which provides stationary from recycled paper, in return for the paper disposal. For e-waste handling, the Bank has a national authorized vendor for centralized collection and handling of e-waste to ensure near 100% of e-waste management.

The Bank's waste management practices are included in the Sustainability Disclosures, which is a part of this Annual Report.

PRINCIPLE 3

1. Please indicate the Total number of employees.

3. Please indicate the Number of permanent women employees.

The Bank had 3,294 permanent women employees on March 31, 2018.

4. Please indicate the Number of permanent employees with disabilities

The Bank, being an Equal Opportunity Employer, makes no distinction between employees on the basis of disabilities.

5. Do you have an employee association that is recognized by management?

The Bank does not have an employee association.

6. What percentage of your permanent employees is members of this recognized employee association?

Not applicable as the Bank does not have an employee association.

7. Please indicate the Number of complaints relating to child labour, forced labour, involuntary labour, sexual harassment in the last financial year and pending, as on the end of the financial year.

S. No.	Category	No of complaints filed during the financial year	No of complaints pending as on end of the financial year
1.	Child labour/forced labour/involuntary labour	Nil	Nil
2.	Sexual harassment	9	1
3.	Discriminatory employment	Nil	Nil

8. What percentage of your under mentioned employees were given safety & skill up-gradation training in the last year?

i. Permanent Employees

The Bank has a separate entity, the YES SCHOOL OF BANKING, as a centre of excellence in imparting learning solutions in banking, skill development and personality

development, among others. The Bank's training programs are divided into 5 broad categories: Behavioral and Leadership Skills, Employee Induction, Mandatory Policies and Compliance, Process Training and Product Training. In the reporting period, 15,568 employees were trained under 5,035 classroom-based training programs.

ii. Permanent Women Employees

2,757 women employees were imparted classroom-based training during the year, which is over 83.7% of the Bank's total women employees.

iii. Casual/Temporary/Contractual Employees

Not applicable as the Bank only hires employees on a permanent basis. However, the Bank works with its vendors providing staffing services to ensure adequate training is provided to the staff on the Bank's policies and processes.

iv. Employees with Disabilities

All employees are imparted training basis their training requirements and organizational profile.

engagement initiative, and other initiatives focusing on skill development in rural India, environmental efficiency in the MSME sector, and livelihood and water security, among others. Details are available in the Sustainability Disclosures section in this Annual Report.

PRINCIPLE 4

1. Has the company mapped its internal and external stakeholders?

Yes

2. Out of the above, has the company identified the disadvantaged, vulnerable & marginalized stakeholders?

The under-banked and unbanked population in rural and urban India, which is still not entirely integrated into India's mainstream economy, can be vulnerable to socio-economic exploitation. The Bank focuses on financial inclusion as a key business priority to positively impact this stakeholder group.

3. Are there any special initiatives taken by the company to engage with the disadvantaged, vulnerable and marginalized stakeholders? If so, provide details thereof, in about 50 words or so.

Yes. The Bank engages with such stakeholders in multiple ways. Through its focused business units such as Inclusive and Social Banking, Digital Banking, Agri Product Banking and Rural Retail Banking, the Bank offers financial products and services to diverse stakeholders in rural and urban India. Details on the Bank's business units can be accessed in the Management Discussion & Analysis in this Annual Report.

The Bank has high-impact CSR initiatives underway on key areas of socio-economic development and community impact. These include YES COMMUNITY, its innovative branch-based community

PRINCIPLE 5

1. Does the policy of the company on human rights cover only the company or extend to the Group/Joint Ventures/Suppliers/Contractors/NGOs/Others?

The Bank has in place policies and processes that cover various aspects of Human Rights, specific to employees, and external stakeholders such as its CSR partners, supply chain and corporate customers. In addition, the Bank's corporate whistle blower program covers all its internal and external stakeholders.

PRINCIPLE 6

1. Does the policy related to Principle 6 cover only the company or extends to the Group/Joint Ventures/Suppliers/Contractors/NGOs/others.

The Bank has multiple policies that directly and indirectly communicate its support and adherence of Principle 6.

The Environment & Social Policy (ESP) is based on international best practices such as the Equator Principles and the IFC Guidelines. Under the Policy, the Bank ensures environment and social risk is integrated with the overall credit risk appraisal process. The Policy also includes an exclusion list to flag socially and/or environmentally irresponsible proposals, and guides the Bank in engaging with clients towards adopting best practices.

The Environmental Management Policy guides the Bank towards achieving internal resource efficiency, creating employee awareness and communicating positive environmental action among its stakeholders.

The CSR Policy of the Bank includes Environment Sustainability as one of its focus areas. The Bank has undertaken several CSR initiatives with positive direct environmental impact or towards creating awareness among stakeholders.

The Bank also has in place a Supplier Code of Conduct that promotes ESG best practices among its supplier base.

2. Does the company have strategies/initiatives to address global environmental issues such as climate change, global warming, etc.? Y/N. If yes, please give hyperlink for webpage etc.

YES BANK is a signatory to international protocols and initiatives, such as the UNEP Finance Initiative, UN Global Compact, CDP (formerly Carbon Disclosure Project), the Natural Capital Finance Alliance, Carbon Pricing Leadership Coalition, the World Resources Institute India GHG Program, and TERI Council for Business Sustainability, where it works on creating awareness and impact at a global level, on issues of environmental and social significance.

YES BANK is among the leaders in the Indian banking sector in driving climate finance. In 2015, the Bank had taken a commitment to target mobilizing USD 5 billion up to 2020 for climate action, and reports its Renewable energy funding portfolio annually. In the reporting period, the bank committed to mobilize USD 1 billion to solar projects till 2023, and USD 5 billion till 2030.

In addition, through the Environment & Social Policy, the Bank incorporates Environmental and social risk assessment into its overall credit risk assessment process.

During the year, the Bank's 744 locations, including 4 corporate offices are ISO 14001:2015 certified, a leading Environment Management System.

During the year, the Bank's 744 locations, including and 4 corporate offices ISO 14001:2015 certified, a leading Environment Management System. Guided by the certification and its Environmental Management Policy, the Bank assesses the environment risks of its operations.

As part of its overall risk management framework, the Bank has a Reputational Risk Management Committee overseeing its E&S risk preparedness across its business operations and community activities.

4. Does the company have any project related to Clean Development Mechanism? If so, provide details thereof, in about 50 words or so. Also, if Yes, whether any environmental compliance report is filed?

YES BANK has a significant portfolio in clean energy, water and waste management, and has taken a public commitment to mobilize funding of USD 5 Billion towards climate action by 2020. In the reporting period, the Bank committed to mobilize USD 1 billion to solar projects till 2023, and USD 5 billion till 2030. The Bank's portfolio is highlighted in the Sustainability Disclosures in this Annual Report. Projects that the Bank has funded or advised for clients may be linked to CDM.

5. Has the company undertaken any other initiatives on – clean technology, energy efficiency, renewable energy, etc. Y/N. If yes, please give hyperlink for web page etc.

YES BANK has one of the largest active debt and advisory portfolios in the Indian banking space, in renewable energy, water, waste management, and other climate-linked sectors. In December 2015, on the occasion of COP21 at Paris, the Bank took a public commitment to mobilize funding of USD 5 billion for climate action up to 2020. In the reporting period, the Bank committed to mobilize USD 1 billion to solar projects till 2023, and USD 5 billion till 2030.

The Bank's clean technology portfolio in debt and advisory is included in the Sustainability Disclosures section of this Annual Report.

Internally, under its ISO 14001:2015 certification for Environment Management System, the Bank has

launched several initiatives to rationalize resource consumption and reduce waste consumption.

As part of its CSR commitments, the Bank is driving several initiatives that focus on energy efficiency in the MSME sector, provide clean and safe drinking water for rural communities, and support protection of endangered species.

The Bank's initiatives and actions are included in the Sustainability Disclosures included in this Annual Report.

6. Are the Emissions/Waste generated by the company within the permissible limits given by CPCB/SPCB for the financial year being reported?

Yes. The Bank's primary wastes – paper and electronic waste, are recycled to the maximum extent possible through third party vendors. The Bank's emissions and waste are within permissible limits of the laws applicable. At the branches where the Bank uses Diesel generator sets due to erratic electricity supply, it ensures it only uses low noise and low emission sets with proper procedures in place to handle the used oil.

MANAGEMENT DISCUSSION AND ANALYSIS

EXECUTIVE OVERVIEW

MACROECONOMIC AND INDUSTRY OVERVIEW

The cyclical upswing underway since mid-2016 continued to intensify in 2017, with pickup in growth across developed & emerging markets and notable favourable economic surprises from the US, Europe and Asia. The year 2017 marked the broadest synchronized global growth surge since 2010. As per the IMF (World Economic Outlook, April 2018), annual global GDP growth is expected to have expanded by 3.8% in 2017, a significant improvement from 3.2% in 2016.

Accompanying the improvement in global growth momentum, commodity prices also continued to strengthen in 2017. Demand buoyancy along with weather events in the United States, the extension of the OPEC+ agreement to limit oil production to 2018, and geopolitical tensions in the Middle East supported higher crude oil prices, which rose by ~29% in FY18 to ~USD 66 per barrel by the end of the year. Among other commodities, price of copper and gold rose by approximately 14% and 6% respectively during the course of FY18.

Meanwhile, growth in global merchandise trade volume picked up to 4.9% in 2017 (IMF estimate) from 2.3% in 2016. Growth in global merchandise trade volume superseded the World GDP growth for the first time in nearly a decade. The improvement was driven by recovery in global demand, especially capital spending.

On the inflation front, while the increase in commodity prices, especially crude oil, led to an increase in fuel prices and thereby headline inflation in advanced economies, core-price inflation continued to remain ranged. Among emerging market economies, headline and core inflation have ticked up slightly in recent months after declining earlier in 2017.

On the monetary policy front, 2017 was also testimony to global monetary policies akin to the real economic upswing. While the US Federal Reserve continued to remain on a tightening path by hiking the rates thrice during the course of the year, the Bank of England joined in by raising its policy rate for the first time since 2008 in view of diminishing slack in the economy and above-target inflation driven by the past Sterling

depreciation. Further, the European Central Bank announced that it will taper its net asset purchases starting in January. The ECB, however, intends to maintain policy rates at current historically low levels until after quantitative easing ends, and should inflation underperform, extend the asset purchase program in amount and duration.

Looking ahead, global growth is expected to strengthen further over 2018 and 2019. Risks remain from build-up in financial vulnerabilities and inward-looking trade protectionist policies, which could impinge on trade flows and more so on productivity and efficiency.

In line with the uptick in global economic activity, the Indian economy during 2017-18 is projected to see an improvement in GDP growth in H2 to 7.2% from 6.1% in H1 FY18 and 7.5% in FY17, according to the Central Statistical Organization. The withdrawal of legal tender character of specified bank notes (SBNs) by the Reserve Bank of India in November 2016 and the implementation of the Goods and Services Tax in July 2017, resulted in a transient loss in growth momentum, especially in H1. However, the recovery has been stronger in H2 FY18, led by Government consumption growth and gross fixed capital formation. On the sectoral front, while the industry slowed down, higher momentum was recorded for Construction, Transport, Communication, Financial and Real Estate sectors. The recovery is expected to continue with FY19 GDP growth being pegged at 7.5% (YBL Forecast).

Meanwhile, domestic retail inflation continued to moderate despite an increase in global commodity prices. Average CPI inflation in FY18 decelerated to 3.6% from 4.5% in FY17. A favourable monsoon, efficient food supply management by Government and continued rationalization in Minimum Support Prices helped keep food inflation in check. The moderation in food inflation more than offset the uptick in fuel inflation due to higher crude prices and Housing inflation due to 7th Central Pay Commission HRA norms.

India's external position remained on solid footing in FY18. Despite the anticipated rise in the Current Account Deficit (CAD) to 1.9% of GDP in FY18 (YBL Forecast) from 0.7% in FY17, robust net FDI and portfolio inflows helped more than bridge the CAD. As such, overall BoP balance is expected to remain in surplus of USD 20 billion in FY18 (YBL Forecast) compared to USD 22 billion in FY17.

Further, foreign exchange reserves continued to rise to an all-time high of USD 424 billion as of end FY18.

On the fiscal front, given that 2017 was an exception year due to implementation of GST, the government slipped on its fiscal deficit target by 30 bps with upward revision in FY18 fiscal deficit target to 3.5% of GDP. However, the Government has committed returning to the path of consolidation by projecting to reduce fiscal deficit to 3.3% of GDP in FY19. It also adopted key recommendations of the Fiscal Responsibility and Budget Management (FRBM) panel by accepting Government debt as the nominal fiscal anchor and fiscal deficit as the operational anchor. The medium term fiscal policy aim is to reduce the cumulative government (Center + State) debt to 60% of GDP by FY25.

On the monetary policy front, the RBI reduced the repo rate only once by 25 bps to 6.00% during the course of FY18. The 25 bps cut came in Aug-17 at a time when June CPI inflation at 1.46% provided comfort. However, amidst upward inflation trajectory in H2 FY18, the monetary policy committee remained vigilant.

From an average surplus of ₹3,508 billion in Q4 FY17, money market liquidity surplus steadily declined to ₹77 billion in Q4 FY18. Build-up in the Government's surplus cash balances since December 2017 along with increase in currency in circulation weighed on liquidity in recent months.

On the bond market, the 10-year G-sec yield rose by 72 bps to 7.40% during the course of FY18. Uptick in inflation trajectory in H2 FY18, slippage in FY18 fiscal deficit and fast dwindling surplus on money market liquidity, amidst rise in global crude prices and hardening of US treasury yields cumulatively weighed on the market sentiment.

Over the course of FY18, the Indian rupee weakened marginally by 0.5% and closed the year at 65.18 vis-a-vis the US dollar. Rupee largely remained stable amidst recovering global growth, a softer dollar and benign global financial market conditions. In addition, favourable domestic factors like normalization in H2 FY18 growth momentum and sovereign credit rating upgrade by international rating agency Moody's aided sentiment.

BUSINESS SEGMENT OVERVIEW

CORPORATE BANKING

YES BANK'S Corporate Banking (CB) group provided comprehensive financial and risk management solutions to large corporate clients with turnover greater than

₹1,500 crore. The Bank's professional relationship experts forged value-based long-term relationships with the top management and promoters of almost all large corporate houses in India.

The Bank's CB group offered comprehensive client focused services comprising Working Capital Finance, Term Loans, Specialized Corporate Finance Products, Trade & Transaction Banking Products, Cash Management Services, Debt Capital Markets, Treasury Services, Investment Banking Solutions and Liquidity Management Solutions, among others. YES BANK prioritized credit quality and all offerings were made following a rigorous analysis of the client's risk profile as well as proactive monitoring of credit, market and operational risks.

The Bank offered industry-specific products by understanding customer businesses, market conditions and industry developments. This distinctive approach translated into mutually-beneficial relationships with clients in knowledge-driven sectors such as Life Sciences & Healthcare, Information Technology, Food & Agribusiness, Manufacturing, Infrastructure, Media & Entertainment, and Hospitality & Education, among others.

The Bank remained committed to continuous improvement in service, risk management and product portfolio through original research, benchmarking and client orientation.

MULTINATIONAL CORPORATE BANKING

YESBANK'S Multinational Corporate Banking (MCB) group is focussed on providing comprehensive client focused services comprising Liquidity Management Solutions, Trade & Transaction Banking Products, Treasury Risk Management Solutions, Cash Management Services, Working Capital Finance, Term Loans, Specialized Corporate Finance Solutions, Debt Capital Markets and Investment Banking Solutions to multinational corporate clients and embassies.

The Bank has positioned itself as the preferred host country banking partner to international business houses by extending its best-in-class service expertise, a strong technology platform for banking transactions, and a deep understanding of the country's regulatory framework to guide new to India establishments on banking matters, and help them focus on their core business. The Bank is aligned with the Indian Government's Make in India initiative and contributes to improving Ease of Doing Business for international companies.

The Bank has built a self-financed sustainable asset book for this segment through a strong focus on liability mobilization and comprehensive credit analysis of the borrower company's domestic and international businesses. Looking beyond transactional banking

with an unrelenting focus on Knowledge Banking, the Bank has emerged as a strategic partner in the India growth story of several marquee multinational corporates.

The Bank has strategized growth of its Multinational Corporate Banking franchise through alliances with progressive international banks. During the year, the Bank signed an MoU with Santander Bank, one of the most well-respected and technology focused European banks. Within a short time, this alliance has helped both banks to complement their respective strengths and support their customers in establishing businesses in new markets. With Knowledge Banking, a key pillar of this alliance, both banks have collaborated in segments like Food, Beverages and Agri-processing to maximize outreach into the European market for GoI initiatives such as Make in India and SAMPADA schemes. The partnership also helped several companies participate in World Food India 2017, a gateway to the Indian food economy. The Bank looks forward to building on the strength of this alliance in 2018, as well as find more such alliance opportunities with other banking partners.

EMERGING CORPORATES BANKING

The evolution of a dynamic economy is characterized by the transformation of its mid-sized companies to large global businesses. The Indian economy is at an inflection point with new tailwinds for sustained and substantial growth. The mid-size businesses, backed by strong entrepreneurial ambition, form the backbone of the economy and are in the best position to capitalize on this growth potential. YES BANK strives to be the catalyst in bringing about this growth.

The Emerging Corporates Banking (ECB) group, focuses on corporates with turnover between ₹500 crore and ₹1,500 crore. It plays a crucial role by developing a thorough understanding of companies' banking needs and delivering customized solutions including trade, forex and advisory services, besides efficient cash management and digital banking products throughout the 'lifecycle' of the Company. The Group continues its Knowledge Banking approach to cater to the requirements of growth sectors including Auto Components, Food & Agri-processing, Media & Entertainment, and Pharmaceuticals & Specialty Chemicals.

Recognizing the growth and the need for increased local presence, the Group has enhanced its footprint and is now present in 16 locations across India. The emerging needs of this diverse segment present a significant opportunity for the Bank, and the ECB group is well poised to seize it through innovation and differentiation.

MEDIUM ENTERPRISES BANKING

With the economy on the cusp to consolidate gains from the recent reforms, India is witnessing an optimism in the business environment. Various Government initiatives and availability of skilled manpower have led to the growth of mid-sized corporates across various manufacturing and service industries. This has also reflected in the growth of the Bank's Medium Enterprises Banking (MEB) group, focused on servicing mid-sized corporates with a turnover ranging from ₹100 crore to ₹500 crore.

Considering the high growth nature of the Bank's clients, the MEB group adopted a 'Lifecycle Banking' philosophy to fulfil the banking needs of these corporates across all stages of their growth cycle. The impetus continued to be on servicing clients through a solution centric 'Money Doctor' approach, balancing client expectations and the Bank's risk mitigation strategies. With presence across 34 locations, the Bank's unique positioning provides an opportunity to offer the entire product suite with tailor-made solutions. The Bank helped forge a number of success stories across industries, such as Life Sciences, Healthcare, Food & Agri, Auto Ancillaries, Education and E-Commerce.

Further, the MEB group addresses the lifecycle banking requirements covering the entire value chain of the clients, ensuring deepening and retention of client relationships. The Group concentrates on granularity, profitability and capital efficiency by focusing on referral-led business origination and cross-sell.

GOVERNMENT BANKING

At YES BANK, the Government Banking (GB) group addresses the financial and banking needs of Central and State Government undertakings and affiliates.

Over the years, the Bank has provided financial and advisory services to Ministries under the Union Government, State Governments, Central and State Public Sector Undertakings (PSUs), Boards and other affiliates. The Bank remains committed to delivering innovative, structured and comprehensive solutions, accomplishing several landmark transactions with Maharatnas, Navratnas, Mini-Ratnas and other apex institutions, and developed meaningful relationships with over 850 entities across India. The GB group remains committed to the core values of client origination, innovation and superior service, and has over 100 experienced and seasoned bankers in 56 locations across the country.

The Bank displayed strong commitment towards catalyzing sustainable growth in the country by partnering with the Central Government in their flagship events during the year besides actively engaging with State Governments as Knowledge Partners for their Investment Summits. The Bank partnered with NITI Aayog for the

8th Annual Global Entrepreneurship Summit (GES) 2017 at Hyderabad. The Bank was also a key contributor to the Founding Ceremony of the International Solar Alliance (ISA) in March 2018, where the Bank showcased its strengths and leadership in the renewable energy space. The Bank was also the exclusive Knowledge Partner to the TERI – World Sustainable Development Summit 2018. The Bank was at the forefront in World Economic Forum (WEF) held in Davos this year, co-hosting a round table on Skill Development. The Bank also partnered the recently concluded WINGS INDIA 2018 and Agriculture 2022.

The Bank made concerted efforts towards supporting educational, religious and sporting institutions across India through unique transaction banking offerings aimed at streamlining the working capital management of these apex and nationally important institutions. The Bank made inroads into the welfare trusts management of leading Central and State Public Sector Undertakings through its differentiated and competitive SA offering, complementing the Bank's efforts to build a sustainable CASA book.

INDIAN FINANCIAL INSTITUTIONS BANKING

The Bank's Indian Financial Institutions Banking (IFIB) group interfaces with domestic financial institutions. The team primarily engages in offering banking solutions to domestic banks, non-banking finance companies, housing finance companies, asset finance companies, insurance companies and brokers, small finance banks, payment banks, mutual funds, financial institutions, domestic private equity funds, cooperative banks, regional rural banks, capital market participants (stock exchanges, stock brokers, commodity brokers and exchanges, and foreign portfolio investors), primary dealers, depositories, AD II (Authorized Dealer II) license holders, full-fledged money changers and payment aggregators. The Bank customizes specific solutions for Domestic Financial Institutions that enhance transactional efficiencies resulting in enduring relationships.

The Bank actively engages with institutions like SIDBI, NABARD, EXIM Bank and NHB to avail refinance, and with overseas branches of domestic banks to avail foreign currency long-term borrowings. The Group also undertakes Primary Dealership sales function through distribution of Government Bonds across various institutional and retail segment investors.

Marquee deal that the Group closed in FY18 was:

- Acted as sole arranger of India's 1st Social Affordable Housing Bond issue of ₹10 billion by Indiabulls Housing Finance Limited.

In addition to the above, the group implemented various offerings using the Bank's pioneering technological platform such as:

- Launch of multi-currency Forex (FX) Card, wholesale purchase and sale of foreign currency and Host-to-Host (H2H) Facility for Authorized Dealer II (AD-II) related remittances for money changers/foreign-exchange players.
- Application Programming Interface (API) Banking to offer real-time/instant banking facility to NBFCs, Mutual funds, Stock Brokers, Cooperative Banks and other Financial Institutions – a technology which is emerging as a key product to integrate and streamline the transaction processing cycle.
- Preferred sponsor Bank for LIC to process remittance of scholarships to students under Public Financial Management System (PFMS) program with expected monthly volume of over 1 million transactions.
- Correspondent banking with over 400 Cooperative Banks and Regional Rural Banks by offering sub-membership of RTGS / NEFT services, automated solutions for cheque clearing under CTS, sponsorship of ATM transactions, enabling merchant acquiring through deployment of POS terminals, collection of subsidy and grants under DBTL scheme, and integrated investment solutions viz. CSDL account services to benefit them and their customers.

INTERNATIONAL BANKING

YES – International Banking Group has developed widespread partner network of international banks, financial institutions, exchange houses and official bodies. The Bank executed marquee transactions across products and geographies through their global banking partner network.

YES – International Banking Group offers complete suite of products such as Trade Finance, Treasury Services, Investment Banking Solutions, Remittance Solutions, Financial Advisory and Global Indian Banking to customers and has consistently delivered unique and first-to-market offerings, leveraging on its global alliances. The Bank features among the preferred partners by international institutions to meet their clients' banking requirements in India. International Banking, in coordination with Multinational Corporate Banking, helped position the Bank as the preferred 'Host Country Bank' by leveraging its rich relationship capital.

The Group continues to raise large-ticket offshore borrowings for the Bank by tapping unique structures and new geographies.

- The Bank successfully completed issuance of its maiden **USD 600 million bond MTN issue** in the international debt markets. The Bond is listed on London Stock Exchange International Securities Market (LSE ISM), Singapore Exchange Securities

Trading Limited (SGX) and India International Exchange IFSC at Gujarat International Financial Tec-City (GIFT City), Gandhinagar.

- **European Investment Bank (EIB)** and the Bank have entered into a USD 400 million co-financing program to increase lending to renewable energy power generation across India, with special focus on construction of new solar plants and wind farms across the country. This novel initiative – where EIB will lend USD 200 million to the Bank for 15 years for on-lending to the renewable sector – is EIB's first partnership with the Bank and is also EIB's first-of-its-kind financing agreement for renewable energy in Asia.
- YES BANK raised USD 150 million long tenor loan from **Overseas Private Investment Corporation (OPIC)** – US Government's development finance institution – and Wells Fargo to increase lending to MSMEs in India. USD 50 million of the financing is specifically being used to expand support to women-owned businesses, while another USD 50 million is being utilized for financing MSME businesses in low-income states.
- Following its maiden loan issuance in the **Taiwan loan market** in the previous year, the Bank has successfully closed a 5-Year Syndicated loan facility this year, led by CTBC Bank, Bank of Taiwan, Mega International Commercial Bank and Land Bank of Taiwan, which also saw participation from 17 banks. The syndication which closed at USD 250 million, saw a total subscription of USD 355 million and ranks amongst the largest bank participations in a Taiwan loan transaction.
- The Bank raised its maiden **Samurai Loan** in a syndication led by Bank of Tokyo-Mitsubishi UFJ Ltd. (MUFG). The issue was successfully closed with oversubscription and saw total participation of JPY 16.5 billion (~USD 150 million) across eight banks.
- Extending the Bank's established credentials within the Developmental Financial Institutions (DFI) community, the Bank has successfully raised a USD 30 million, 8-year **Green loan from OeEB, the Development Bank of Austria**, to finance renewable energy projects in India.

The Group has also leveraged its global banking partnerships to support the Bank's increasing FCY lending requirements through a diverse mix of borrowing avenues aggregating to over USD 2 billion during the year.

YES – International Banking Group focusses on emerging as a preferred Host Country Banker and payments bank to global counterparts. As a result, more institutions utilized the Bank's network for their India-linked businesses. The Group has also well-established relationships with

exchange houses across key geographies host to Indian diaspora including the USA, UK, Europe, APAC and GCC, and through these originates a significant portion of NRI remittances into India.

International Footprint

YES BANK established its international footprint by inaugurating its first international office in the form of a Representative Office at Abu Dhabi, UAE, in April 2015. The Representative Office has provided great convenience to NRI customers by facilitating a host of Banking, Financial and Investment consultation services of the Bank in UAE and has played an important role in promoting the Bank's services to the larger NRI diaspora in the country. Additionally, it has provided a significant brand value and visibility of the Bank in UAE. The Bank has also received approval from the Reserve Bank of India (RBI) to open two representative offices in London and Singapore, respectively. The Bank continues to explore expanding its overseas presence with a view to promote the Bank's services to the NRI diaspora.

The Bank was the first bank in India to commence operations at International Financial Services Center (IFSC) at GIFT City, Gujarat, in October 2015 and continues to be the largest Bank in terms of volumes at GIFT IFSC with balance sheet size crossing USD 2.5 billion as on March 31, 2018. GIFT-IFSC Banking Unit (IBU) provides comprehensive solutions for the Bank's clients' foreign currency banking requirements in the areas of Cross Border Trade offerings, External Commercial Borrowings and Foreign Currency Loans/Syndications, Arrangement/Underwriting of Masala Bonds issuance by Indian Corporates among others. The Bank continues to introduce new initiatives at GIFT-IFSC – YES BANK is the first entity to setup its MTN program for USD 1 billion at GIFT-IFSC and also the first to list its Bonds on Global Securities Market (GSM) at India INX, India's first International stock exchange, promoted by BSE, which opened in 2017 at GIFT-IFSC. The Bank successfully raised USD 600 million through issuance of Reg S Senior Unsecured 5-year Bonds, which is also the largest debut international bond issuance by an Indian Bank.

BRANCH BANKING

In FY 2017-18, YES BANK's geographical footprint expanded to 1,100 branches spread across 725 locations with 1,724 ATMs and BNAs. The Bank continues to build on the deeply institutionalized strategy of strengthening presence across all State Capitals, Top 200 Deposit Centers, Delhi-Mumbai Industrial Corridor, Special Economic Zones, Economic Promotion Zones, Food Parks, Agri-Parks, Ports etc. with a well-balanced parallel focus on financially-efficient Inclusive Banking. The Bank has placed considerable focus on branch penetration in Rural, Agri and MSME geographies by

establishing dedicated leadership, with local know-how, and products targeted at these specific segments. The Bank is also embracing the ever-evolving technological landscape and complementing its endeavors towards physical expansion with substantial investments in state-of-the-art new-age technologies that will substantially enhance its reach and capabilities to most optimally acquire and service customers.

This financial year saw a host of new developments in the Branch-Banking segment. The Bank has piloted YES asap! – a paperless account opening solution. The Bank is not only introducing these efficiencies across customer interfaces but across internal processes as well. Sales Management has been digitized which enables the sales staff to execute lead generation and closure on mobility platforms while allowing the sales leadership to digitally connect with staff and monitor business progress. The Bank has capitalized on the efficiencies generated by these digital interventions by fundamentally transforming the Branch Banking business through adoption of a lean operating model under which the sales hierarchy has been rationalized for achieving optimum ROI.

New Deposit Product Variants

The Bank has extended its existing portfolio by introducing focused and tailored proposition for specific segments including Farmers, Chartered Accountants, Diagnostic centers, Non-Formal Education institutes and Housing societies. YES BANK's first-of-its-kind, customizable savings account proposition has been further strengthened by the YES Prosperity Ascent tier, thereby providing customers with higher benefits and a more attractive product proposition at a competitive price point.

Industry First Digital Initiatives for MSME customers

YES MSME: The Bank has introduced the industry's first comprehensive mobile banking application and portal for MSME customers. The app provides a single interface for multiple banking needs and cash flow management on the go.

API Banking: As a part of YES Fintech program, the Bank has collaborated with 'Numberz', a start-up fintech, to launch a specialized Current Account Proposition. The proposition caters to business requirements around invoicing, taxation and accounting automation, integrated to YES BANK payments API and e-collect API.

Introduction of Sales-force Efficiency Tools

YES Pulse Mobile CRM: As a part of its drive to improve sales efficiency, the Bank has extended its CRM platform to mobile. YES Pulse Mobile CRM facilitates end-to-end

sales-force management and effective customer contact through digitization.

Kaizala: The Bank has developed an enterprise-wide mobility-based sales review platform with secure two-way communication capabilities. The platform aids in broadcasting announcements, conducting surveys, setting up meeting requests, sales number collections and consolidation, thereby enhancing the sales productivity.

All-New Debit Card Variants

YES BANK has ramped up its existing portfolio of Debit Cards with the introduction of Near Field Communication (NFC) technology across card variants to enable contactless payments. Segmented across its flagship customer segments, YES Prosperity and YES FIRST, these Cards have been carefully customized and designed around the specific needs of Debit Card customers. The new Debit Cards offer unique benefits such as Reward Points on all spends, NFC-enabled contactless payments, complimentary lounge access at domestic airports on selected Debit Card variants, MasterCard Golf lesson on YES FIRST range of Debit Cards and YES InControl-Card spend management features. The YES Prosperity Debit Card range comprises of YES Prosperity Titanium, Titanium Plus, Platinum and RuPay Platinum Debit Cards, whereas the YES FIRST range includes the YES FIRST WORLD Debit Card. The Bank will issue these cards to all new customers, and also focus on offering them to its existing Debit Card customers. The Bank is also planning to launch a new Debit Card variant 'YES PREMIA WORLD Debit Card' for its customers in YES Prosperity and YES FIRST segments.

ATMs/Recyclers

YES BANK has 1,724 ATMs and Bunch Note Acceptors/ Recyclers (BNA) as of March 31, 2018. Bunch Note Acceptors have been appreciated by many Corporate Clients as they offer multiple advantages while fulfilling corporate cash collection needs. The Bank has become the first Private Sector Bank to go live on Interoperable Cash Deposit platform and now YES BANK BNAs/ Recyclers can be used for depositing cash into any other bank account. The Bank is also the first to offer recharge codes for Google Wallet on its ATMs. YES BANK ATMs now offer a wide array of services right from Cash Withdrawals to Mobile Recharge Payments as well as YES BANK Credit Card Bill Payments.

Digital Banking

YES BANK has continued investing significantly in new-age mediums and digital technologies to achieve heightened customer engagement and experience. The Bank realizes that 'Digital' is steadily growing as a preferred medium for customers to avail banking services and has invested

in upgrading core systems like CBS, Debit Card Switch, Mobility Platforms, Chatbots and will continue to do so for the coming 18-24 months to create a next-generation banking platform which can provide unified digital experience across internet, mobile, voice and bot channels.

The Bank has pioneered the implementation of 'Bots' technology for Customer Acquisition, Personal Banking Assistant, Cross Sell and Customer Servicing for various businesses. Unlike other Bots which largely restrict users to explore services or seek product information, YES BANK Bot also allows customers to transact over chat. Further, as Aadhaar proliferates, the Bank shall focus on launching Aadhaar based Banking and Payment Services (AEPS and Aadhaar Pay). In this regard, the Bank has partnered with industry pioneers to launch IRIS and EMV-ready payment solutions. The Bank is creating Centers of Excellence for Robotics and Analytics which shall play a key role in reducing service times and enhancing the quality of customer interactions, which are the key elements for customer delight. Digital Payments is another area where the Bank has been focusing to gain leadership position. The Bank has plans to scale other payment services like IMPS, BBPS and Prepaid Payment Instruments through third-party networks. Contributing to the Prime Minister's Digital India and Smart City Mission, the Bank is working with multiple State Governments and Municipal Corporations by offering them customized smart city solutions for digital payments. The Bank has been selected to partner with Maharashtra, Rajasthan, and Chhattisgarh State Governments and Rajkot Smart City.

POS

YES BANK has always focused on implementing the latest technology and is one of the first Banks to launch 'Wallet & UPI acceptance on POS' in partnership with BONUSHUB, adding to its current product suite of GPRS, PSTN, MPOS, PCPOS and NFC enabled terminals along with Bharat QR code. The Bank is one of the fastest growing market players in POS Business with its terminal base growing by 2.2x over last FY to 72,000 terminals spread across 200 cities covering various sectors and segments.

Currency Chest

The Bank is expanding its network of Currency Chests and Small Coin Depots and now has two Currency Chests operational in Delhi and Mumbai, with a few more on the anvil. Establishing Currency Chests reflects YES BANK's support to Reserve Bank of India's endeavor to increase the efficiency of currency management in the banking system. During the year gone by, the Bank ensured optimum supply of fresh/issuable currency across all touchpoints.

Contact Center

YES BANK has established dedicated 24/7 inbound contact centers for Liability, Asset and Credit Card customers to resolve queries, complaints and service requests in three locations, namely Mumbai, Chennai and Gurgaon, providing multi-lingual servicing in regional languages in addition to English. A dedicated 24/7 desk for Super Premium Credit Card, MasterCard World Elite & Concierge services was established in August 2017 to provide bespoke services for niche clients. Apart from rendering services, the contact center has commenced prospecting for Bank products, viz. Term Loans, Retail Assets, CASA & Credit Cards. In compliance with regulatory directives, a dedicated desk for customers wishing to reach out to Senior Management was established in April 2017. The Contact Center has embarked on extending the servicing platform to the Bank's corporate clients and merchant establishments as well. A dedicated team along with the required infrastructure and processes is being set up to extend the services for corporate clients.

YES FIRST

The Bank offers YES FIRST program to address the unique requirements of the High Net-worth Individuals (HNI) segment. It encompasses best-in-class banking products – Retail & Business Loans, Credit Cards and Wealth Management Solutions – in addition to a dedicated Relationship Manager. In an endeavor to enhance customer service experience, the Bank has also launched a dedicated Priority Queue for servicing HNIs at the 24/7 Contact Center.

In addition, the Bank has also introduced YES Robot, a virtual assistant which uses artificial intelligence to help customers with their banking requirements quickly and efficiently. The Bank also provides curated and differentiated experience for YES FIRST customers through exclusive benefits, select lifestyle offerings and knowledge-based events. For instance, 'Budget Decoded' sessions were conducted for customers in 12 cities in India along with events in Dubai and Bahrain, which were very well attended and appreciated by YES FIRST clients.

Global Indian Banking

YES BANK offers best-in-class banking products and services for Indians settled across the globe and strives to continually enhance these offerings. This financial year saw a host of developments across our Global Indian Banking (GIB) proposition. The Bank strengthened its offerings enabling booking of non-resident term-deposits over Phone Banking as well as through Swift. The Bank completely overhauled its inward remittance solution, YES Remit, which now provides state-of-the-art

user interface and enables access across touchpoints – desktops, laptops, tablets and smartphones. The Bank also launched GIB Corporate Proposition to enhance alliances with corporates by offering best-in-class banking solutions for their expat employees, which will contribute towards build-up of granular GIB liabilities. NRI Festival FY 2017-18 was also conducted to enhance visibility of YES BANK's NRI Services by engaging with various NRI associations, clubs and societies across the country and overseas. The Bank's Representative Office in Abu Dhabi has completed two years of operation and has contributed to making UAE our largest market for the GIB business.

Rural and Inclusive Branch Banking

YES BANK now has a well-entrenched presence in the rural and semi urban segment with an exhaustive network of over 400 banking outlets. The Rural and Inclusive Branch Banking vertical today comes with a wide array of customized product propositions across liabilities, assets and third-party insurance and investment segments. The Bank has launched differentiated asset products in Farmer Finance, Allied Agriculture Finance, Farm Mechanization Finance and Micro-Enterprise Finance space to cater to the multi-faceted needs of the 'RURBAN' customers. The Bank continues to proactively engage with the local community and has conducted over 3,700 financial literacy camps in the rural and semi-urban geographies.

CREDIT CARDS

The Bank recently announced the launch of the uber-exclusive Yes Private Credit Card. This card has been introduced for the first time in India on MasterCard's premium global platform – WORLD ELITE. This top-of-line WORLD ELITE platform, focused on ultra HNIs, is available only in select developed countries globally such as the US, Canada and Singapore. The card is available 'by invitation only'. With the launch of Yes Private Credit Card, the Bank now offers a wide range of 10 Credit Card product variants across its flagship customer segments of YES FIRST and YES PROSPERITY. This wide range of portfolio is backed by a highly effective Alliance and Loyalty program, digitized acquisition and servicing platforms, and above all, a very robust and effective credit-management framework. With more than 2 lakh Credit Cards issued and monthly spends of above ₹200 crore, the Bank is poised to significantly scale up the Credit Card business. The cards are designed to offer superior benefits on the back of world-class technology, class leading alliances and partnerships. Backed by a consistent and superior service experience, the YES BANK Credit Cards program has been orchestrated to be the card of choice for the Bank's customers.

RETAIL BANKING ASSETS

In line with the objective of continually strengthening the retail offerings, and with customer satisfaction as the main objective, the Bank has expanded the product offering by aligning Working Capital under Micro Enterprises Banking Group (for customers with turnover of up to ₹15 crore) within the overall Retail Banking Assets Group. The Bank's customers can select a wide range of Retail Loan products like Affordable Home Loans (YES KHUSHI), Home Loans, Car Loans, Super Bike Loans, Commercial Vehicle Loans, Construction Equipment Loans, Loans against Securities, Gold Loans, Personal Loans, Secured Business Loans, Health Care Finance and Printing Equipment Finance along with Working Capital under one roof. This will help the Bank in increasing wallet share of the customer with a 360-degree approach. The Bank has entered into Preferred Financer agreement with leading automobile manufacturers across Cars, Commercial Vehicles and Construction Equipment, thereby giving access to the wholesale and retail business of the manufacturing dealers across the country. The Bank currently offers retail products across 68 locations in 490 branches. ISO 9000:2015 certification has been accredited to the Personal Loan business, reflecting adherence to ISO global standards on process efficiencies. Noteworthy here is that the Bank has also won FINNOVITI 2018 award for its application 'YES ENGAGE', a Chatbot based Sales-force Management and Planning tool, within six months of launch.

SMALL ENTERPRISES BANKING

YES BANK has adopted a focused approach to serve small enterprises throughout their lifecycle and has developed expertise to provide industry specific and need-based financial solutions. The Small Enterprises Banking (SEB) focusses on servicing entities with a turnover in the range of ₹15-₹100 crore. 'Knowledge Banking' clearly distinguishes the Bank from its peers in this space. The Bank's offerings are also fully aligned with the Government's vision of 'Make in India' and an inclusive banking approach has promoted employment generation, growth and competitiveness amongst target customers. The Bank is continuously working towards making the banking experience more convenient by introducing simplified products, implementing large format digitization and reducing the overall turnaround time. The Bank has also developed long-standing and meaningful associations with e-commerce and fintech companies in this domain. The Bank has inked MoUs with Government of Maharashtra and the Food Processing Ministry to provide easy and inclusive financial assistance and has also partnered with NSIC, SIDBI, CRISIL, EDII (Entrepreneurship Development Institute of India) and

other key institutions in this space to ensure that the customers have access to best-in-class schemes and benefits.

PRODUCT CAPITAL

TRANSACTION BANKING

The Transaction Banking Group (TBG) specializes in core banking offerings like Cash Management Services, Capital Markets and Escrow Services, Trade Finance and Services, Supply Chain Finance, Bullion and Digital Transaction banking, provided under the aegis of the **YES Transact** brand. The key focus of the team is to conceptualize and deliver quality products and services seamlessly. The team comprises domain specialists from diverse backgrounds with significant experience in interacting with customers to understand, address and fulfil their strategic, financial and operating requirements in the following areas:

- Working Capital and Liquidity management
- Treasury integration
- Risk management
- Inbound and Outbound remittances
- Digital 'Channel Finance' solutions including Factoring
- Integrated API Banking solutions aiding process automation and/or integration with the customer's systems
- Customized and Innovative solutions aiding process automation and/or integration with the customer's systems
- Regulatory and International Trade Advisory including current and capital account transactions
- Digitized solutions for domestic and Cross-Border Trade transactions
- Bullion Sales and Gold Metal loans

Digitized Transaction Banking product suite is continuously expanding in scope through its Knowledge Banking strategy and has found strong demand from corporate customers. The Bank's 'Integrated Financial Supply Chain' solutions assist the client in reducing cost and avoid supply chain disruptions while managing associated risks.

There is an enhanced focus on digitization of processes with the ultimate aim of enhancing customer experience. The Group has strengthened its focus on its digital strategy by building synergies amongst different product verticals, enabling unique opportunities for clients. The state-of-the-art Corporate Net Banking (CNB) online platform provides comprehensive coverage across Cash Management, Digital Trade Finance and Digital Supply Chain Finance solutions to corporate clients and their constituents.

YES BANK is also building on its hugely successful API Banking franchisee by adding more services under this channel. The Bank is already a market leader in the Cash Management space on this channel and has now made inroads into the Supply Chain Financing space as well. This year, the Bank will be introducing Trade Finance transactions to the 'Bank from the ERP' suite of products.

The Group also has a dedicated B2B2C arm to focus on ecosystem banking. This enhances product penetration across all corporate relationship groups with the objective of increasing cross-sell opportunities as well as enhancing the retail liability business.

As a testimony to the best-in-class offerings by the Group, the Bank has won several national and international awards and accolades in FY 2017-18. This includes the 'Global Winner' in the Supply Chain Finance category and the Transaction Bank of the Year for Asia-Pacific by The Banker. Further, the Bank was ranked No. 7 by Bloomberg in the India Domestic Bonds League Table for CY17.

The Bank is a Primary Dealer (PD) for Government of India securities and as part of this mandate underwrites and bids for these securities in the auctions held by the Reserve Bank of India from time to time. The PD desk actively trades and distributes dated securities, T-bills and State Government Bonds, thus encompassing the complete suite of Sovereign Debt Products.

The FM Group also conducts proprietary trading to maximize earnings by optimal risk-taking across fixed income and global foreign exchange markets. Additionally, it is responsible for Balance Sheet Management, Liquidity Monitoring, Maintenance of Cash and Statutory Reserve requirements and day-to-day Fund Management of the Bank. Subordinated and hybrid debt capital for the Bank is also raised by the FM Group. ICRA (Moody's affiliate in India) has reaffirmed the Bank's A1+ rating for its ₹10,000-crore Certificate of Deposit program. A1+ rating indicates the highest level of safety in the short term. Also, the Bank's senior debt program is rated AA+ (Positive Outlook) by ICRA and AA/Stable by India Ratings and Research Pvt. Ltd.

LOAN SYNDICATIONS

The Loans Syndication (LS) team has created strong brand equity across stakeholders like banks, NBFCs and other financial institutions. Over the years, the team has

demonstrated strong credit appraisal and structuring skills, sectoral knowledge, relationship management and debt placement, which has been appreciated across the stakeholder spectrum and is reflected in the results below. The Loans Syndication (LS) team has sold down long-term bulk exposures to banks and financial institutions, improving capital churning and effective yields on the Bank's advances.

- The LS team has successfully placed underwritten deals aggregating to approximately ₹28,000 crore (~USD 4.30 billion) in CY17, significantly improving ROE on underwritten transactions for the bank. The clientele comprises pedigreed players across the manufacturing, renewable energy, power transmission, ports and real estate sectors.
- The team's consistent performance has continued to place the Bank amongst top 7 syndicators in League table ranking by both Bloomberg and Thomson Reuters for CY17.

ASSET RECONSTRUCTION AND MANAGEMENT GROUP

YES BANK's Asset Reconstruction and Management Group (ARM) was created for the effective management of distressed and non-performing assets comprising qualified and experienced professionals specializing in distressed asset management. The Group provided effective solutions for resolving stressed assets by leveraging its rehabilitation, regulatory and legal understanding.

The ARM Group employed multi-pronged resolution strategies, which included operational and financial restructuring, identifying strategic investors for takeover of stressed assets, business turnaround financing, negotiating with borrowers for onetime settlement, recovering through the enforcement of security interest under the Securitization Act, 2002, using various enablers from extant RBI policies and selling non-performing assets to asset reconstruction companies (ARCs).

The Group's focus resulted in the Bank continuing to be reflected in best-in-class credit metrics.

RESPONSIBLE BANKING

Since its inception, sustainability has been a core value proposition for YES BANK, with an aim to weave sustainability into its operations as well as create shared value through positive-impact business solutions. Responsible Banking, a core plank that runs across all functions of the Bank, is firmly integrated into its business strategies and targets. The Responsible Banking team holds the mandate to set and drive the Bank's strategy based on a triple bottom line of financial, social and environmental returns with support from other business units. Through FY 2017-18, the Bank has created positive impact through its low carbon and social portfolio, positive-impact community projects and thought leadership.

During the year, the Bank's global engagement on key sustainability topics expanded significantly and it was recognized as a thought leader on noteworthy national and international platforms. The Bank was one of the few private sector entities invited to the One Planet Summit hosted by Emmanuel Macron, President of the French Republic, in Paris in December 2017, and at the event became the first Indian bank to support Financial Stability Board's Taskforce on Climate-related Financial Disclosure (TCFD) recommendations on climate risks and opportunities.

YES BANK was the only Indian bank to be invited to the United Nations Retreat on Sustainable Infrastructure Finance in June 2017 and consequently in February 2018, to share its iconic projects and be a part of stimulating discussions to create a pipeline of bankable projects to support Nationally Determined Contributions (NDCs) and Sustainable Development Goals (SDGs) towards closing the investment gap in sustainable infrastructure.

YES BANK continues to be a signatory to key protocols focused on climate action and sustainable development, including the UNEP FI, Carbon Pricing Leadership Coalition, UN Global Compact, CDP, Climate Action in Financial Institutions Initiative, and is member of key national and global alliances including the India GHG Program, TERI Council for Business Sustainability, CII Climate Change Council and Natural Capital Finance Alliance.

In the year, Responsible Banking produced six knowledge reports on pertinent topics:

- Valuing Natural Capital: Applying the Natural Capital Protocol
- Natural Capital Mapping: Towards Achieving SDGs in India
- Scaling SDG Finance in India
- Electric Mobility Paradigm Shift: Capturing the Opportunities
- Circular Economy: A Business Imperative for India
- FEWLing the Growth: Food Energy and Water Nexus for Livelihood Security in India

In a pioneering effort, the Bank solely underwrote and invested in India's first Social bond of ₹1,000 crore, for 'Affordable Housing', that is aligned to the Pradhan Mantri Awas Yojana, and the nation's mission of 'Housing for All' by 2022. In addition, the Bank hosted India's first ever green symposium in June 2017 with FMO, the Development Bank of the Netherlands, and signed a charter with FMO along with DEG (the Development Bank of Germany) and Proparco (the Development Bank of France), to champion green finance in India. Significantly, the Bank's sustainability focus was highlighted as a case study in Climate Mainstreaming Practices Report 2017 by the Climate Action in Financial Institutions Initiative.

In its efforts towards environmental management within its operations, the Bank expanded its ISO 14001:2015 certification footprint, which now covers the Bank's 744 locations, including 4 corporate offices*. YES COMMUNITY, the Bank's unique branch-led community engagement program, touched 32,15,644 lives in 2017-18, through its pan-India branches. The Bank partnered with UN Environment, government bodies, NGOs and private partners to celebrate World Environment Day with tree plantation and beach cleaning drive in Versova, Mumbai. Through the initiative, 5,00,000 citizens were sensitized to the importance of environmental conservation.

Under the guidance of the Board Committee on CSR, the Bank's 'Livelihood and Water Security' program provided access to clean and safe drinking water to 4,09,24,800

people in Maharashtra, Delhi, Madhya Pradesh, Gujarat, and Rajasthan. The Bank's 'Say YES to Sustainable MSMEs in India' initiative impacted 18,544 MSME units and over 28,454 workers in 14 states. YES BANK became the first private sector Bank to partner with National Highways Authority of India under its 'Adopt a Green Highway' program for plantation and maintenance of 45,462 trees. The Bank has committed to develop and maintain 40 kms of green corridor along the Mumbai-Nashik-Pimpalgaon Highway for five years, beginning 2017.

YES FOUNDATION, the social development arm of YES BANK, continues to catalyze the social development ecosystem through an enhanced impact model of its flagship program – YES! i am the CHANGE (the world's largest social video-making initiative), by setting up a grant fund for non-profit organizations and social enterprises. Additionally, grantees will receive accelerator support for a period of 3 years. The Foundation's Media for Social Change Fellowship program was expanded to three cities, developing 213 socially conscious youth leaders and supporting 101 non-profit organizations.

The Bank was recognized in India and abroad for its sustainability performance, winning the Karlsruhe Sustainable Finance Award 2017 in the 'Best Innovation in Sustainable Financial Products & Services' category for its innovative blended finance facility for women salt farmers, ASSOCHAM Water Management Excellence Award 2017 for the 'Best Community Initiative in Water', and Frost & Sullivan and TERI Sustainability 4.0 Award for 'Challengers Award – Mega Large Business', among others.

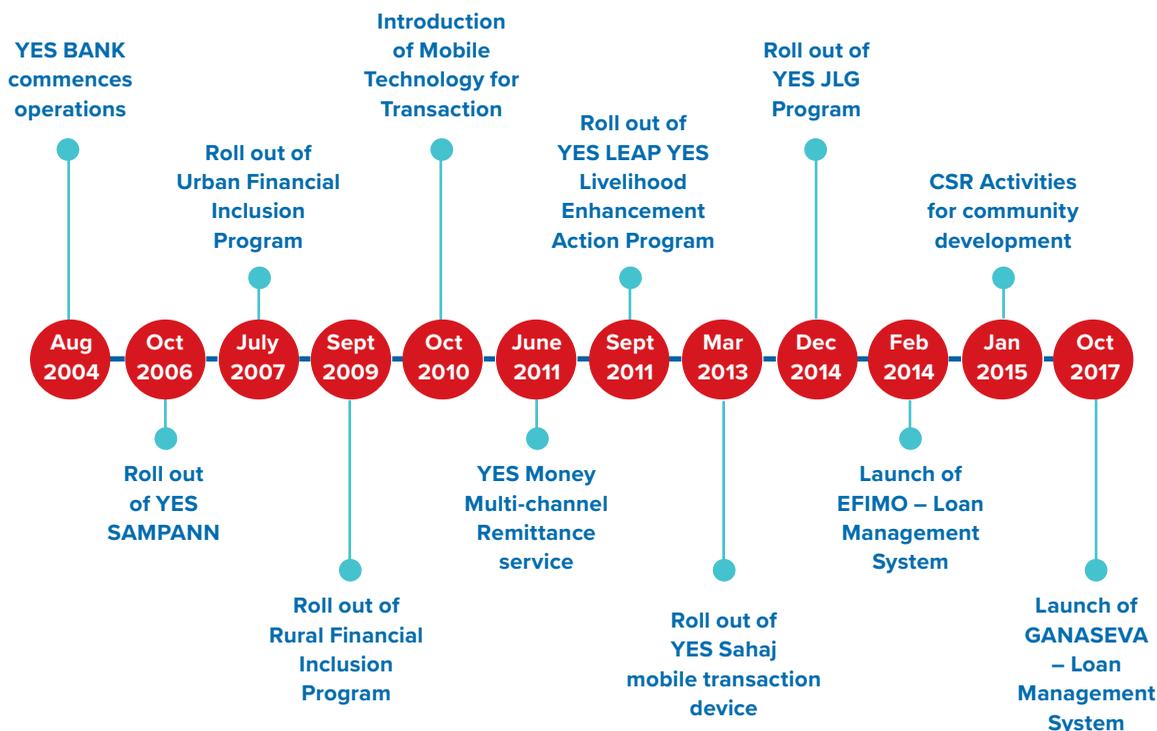

YES BANK continues to be the only Indian Bank in the DJSI Emerging Markets Index for the third consecutive year in 2017, and it is a matter of immense pride that the Bank is the first and only Indian bank to be selected in all major global sustainability benchmarking indexes, including Dow Jones Sustainability Index (DJSI) Emerging Markets, MSCI All-Country World Index (ACWI) ESG Leaders & SRI Indexes, and the FTSE4Good Emerging Index in the reporting period.

* In FY 2017-18, YES SECURITIES has been brought under the scope of the Bank's Environment Management System

INCLUSIVE & SOCIAL BANKING

In line with the Responsible Banking vision to mainstream sustainability within its core business and address the needs of the 'next billion' customers, the Bank created a special division called Inclusive & Social Banking (ISB). ISB is responsible for the design and implementation of various financial inclusion initiatives. For the Bank, financial inclusion is not just a social and regulatory obligation but also a viable business opportunity. The mandate of ISB was to reach the unbanked and under

SPEARHEADING FINANCIAL INCLUSION

banked population (rural, semi-urban and urban areas) by leveraging the Bank's branch network, technology edge and relationship capital in the public, private and social sectors. Following the guiding principle of Frugal Innovations for Financial Inclusion (FI4FI), the ISB team developed innovative business models and forged partnerships leading to their seamless implementation. It aimed to create viable business models while providing 'access to finance' to the bottom-of-the-pyramid customers.

ISB offered various financial services comprising microcredit, micro-saving, micro-insurance and remittance services across geographical and socio-economic contexts and partners. With the flagship program, YES Livelihood Enhancement Action Program (YES LEAP), the Bank provided comprehensive financial services (credit, saving and insurance) to Self-Help Groups/Joint Liability Groups through partner organizations acting as Business Correspondents and touched over 2.1 million households across 19 states and 260 districts.

While being committed to Financial Inclusion, ISB's recent focus has been on enhancing technology solutions to efficiently scale YES BANK's outreach to cater to more

unbanked and under banked population of India. Towards enhancing the impact and delivery mechanisms of YES LEAP, ISB has launched a robust technology intervention 'GANASEVA – a Semi Automated Loan Origination and Loan Management System'. Apart from end-to-end loan processing, it also offers the flexibility to build adequate regulations and required risk controls. ISB has made continuous efforts in leveraging technology and digital platforms for all the facets, including business analytics, data management, training and financial literacy. While innovative methods like Virtual training, Voicecall training and WhatsApp training for BC and ISB staff in remote areas were adopted, financial literacy modules were disseminated to ISB clients (women SHG/JLG members) through voice call training.

The ISB team is also mandated with the implementation of the Bank's Financial Inclusion Plan (FIP) as approved by the Board and the RBI. The Bank performed well across almost all financial inclusion parameters. The Bank's radical FI4FI approach received several national and international accolades.

MICROFINANCE BANKING

YES BANK remains committed to creating equal financial opportunities for all. The Bank promoted microfinance as a new asset class, widening access to capital through a two-pronged strategy involving the Microfinance Banking (MFB), and mainstreaming bottom-of-the-pyramid clients through the Inclusive and Social Banking team. With the MFB product suite which includes term loan facilities, cash management services, loan syndications, rated capital market loan products like pool securitization, pass through certificates (PTCs), the Bank catalyzes growth of the Indian microfinance industry.

The Bank aims to access more investors and reduce fund costs, thereby making it possible to deliver affordable, fairly-priced and customized financial solutions. MFB engaged in advocacy at various levels, emerging as the primary channel to engage with stakeholders (MFIs, investors, rating agencies, policymakers, governmental agencies and regulatory bodies) and making it possible for the Group's activities to touch the lives of millions of people.

AGRI PRODUCT MANAGEMENT

YES BANK's Agri Product Management (APM) group is a specialized team which facilitates building of banking opportunities in the agri value chains through structured financial products that are regulatory compliant while mitigating credit risk. The team is also responsible for ensuring that the Bank meets the regulatory Priority Sector Lending norms. The team comprises of experienced industry and banking professionals with relevant domain knowledge and skill sets, who interact with F&A clients to create structured lending propositions for agri value chain participants – farmers, MSMEs as well as corporates. The Food and Agribusiness (F&A) sector is fueling the growth of an emerging India and is of strategic importance to the country. With the Government's impetus on the sector and a slew of policy measures initiated such as doubling of farmers' income by 2022, market reforms for e-mandi, etc., the F&A sector is set to take a quantum leap, thus creating innumerable opportunities for all the entities associated with it. F&A sector has always been one of the focus areas for the Bank, which has put us in a good stead to capitalize on these emerging opportunities. As a part of agri value chain financing, the Bank has created a robust portfolio against pledge of agri commodities while ensuring adequate risk mitigation. Within APM, a specialized team closely monitors the commodity pledge financing portfolio and mitigates the inherent risks through daily monitoring of prices of the funded commodities & marking to market through a Commodity Desk and frequent audits of the funded stocks through in-house audit team on the ground. Another focus

area of the Bank has been the emerging segment of Farmer Producer Companies (FPC) wherein the Bank is partnering with select FPCs with sustainable business models, thus creating a sizeable & profitable portfolio.

PROCESS, SERVICE & TECHNOLOGY OVERVIEW

SERVICE AND TECHNOLOGY CAPITAL

To enhance customer delight, the Bank has undertaken various technology enabled business initiatives to deliver improved customer experience, ease of banking and operational excellence. As the number of ways to connect with customers' increase and self-service channels become the primary way for banking, an omni-channel approach provides competitive advantage to the Bank. The Bank has leveraged state-of-the-art technology to enable customer accessibility of all products across all channels through seamless multi-channel integration. To achieve this, the Bank has been simultaneously focusing on adoption of innovative practices in digital banking and digitization of end-to-end processes.

Technology is a key enabler and facilitator of the critical goals of the Bank, allowing it to make systems and processes even more efficient. Since inception, the Bank has continued to invest heavily in technology to provide better products and superior customer experience. The Bank continues to spread its electronically linked Branch Network with state-of-the-art IT enabled core banking platform to ensure customers have access to 24/7 banking services.

BUSINESS PROCESSES – CREATING A QUALITY ORGANIZATION

The Bank continued to refine operational processes from the perspective of implementation of Best Practices, Risk Identification and Containment to bring about greater precision in the management of operations in both the Corporate and Retail side of the Bank's businesses.

In our pursuit to build a Quality Organization, the Bank seamlessly extended its professional approach to business processes, resulting in continuous improvement.

Some key initiatives comprised:

- The Bank has deployed an enterprise-level Customer Relationship Management solution which provides the Bank a single view of both Corporate and Retail customer segments. A lead management system has been built for the sales team to enhance their productivity.
- Centralized back-office functions (NOC – National Operating Centers) of various businesses are working in full capacity at Mumbai and Gurgaon, and recently at

Chennai, covering spread over 4 lakh sq. ft. to employ 9,000 employees.

- The Bank has a dedicated 24/7 inbound Contact Center for Liability, Asset and Credit Card customers which resolve queries, complaints and service requests in three locations namely Mumbai, Chennai and Gurgaon, providing multi-lingual servicing in regional languages and English.
- A dedicated 24/7 desk for Super Premium Credit Card, MasterCard World Elite and Concierge services was established in August 2017 to provide bespoke services for clients. Apart from rendering services, the Contact Center has commenced prospecting for Bank products, viz. Term loans, Retail Assets, CASA and Credit cards.
- In compliance with regulatory directives, a dedicated desk for customers wishing to reach out to Senior Management was established in April 2017.
- The Contact Center has embarked on extending the servicing platform to the Bank's corporate clients and merchant establishments. A dedicated team along with the required infrastructure and processes is being set up to extend the services for corporate clients.
- The Bank became the First Bank in India to be conferred with ISO 31000 Certification on Enterprise Risk Management Framework for efficient and robust risk aggregation and monitoring.
- The Bank has successfully upgraded to new ISO 9001 (Quality Management) standard and adopted risk-based thinking thereby aligning with the Bank-wide Enterprise Risk Management Framework.
- The Bank strengthened its Business Continuity Management Framework (ISO 22301-certified) and Information Security Management Framework (ISO 27001-certified) by including Data Centers (2 nos), Branches including their ATMs (5 nos) apart from the existing National Operating Centers (2 nos).
- Business Excellence frameworks and quality practices such as Five S, Lean and Six Sigma and ISO 9001 standards established for back-office operations at NOCs, 101 key branches and the Bank's Internal Audit Function have been certified under ISO 9001 (Quality Management System).
- The Bank's complaints management processes have been certified under ISO 10002 (Customer Service – Complaints Management system). The Bank used the Complaints and Query Management System as a singular touchpoint to log, handle, escalate and resolve customer grievances.

- The Bank implemented a framework for the measurement of Customer Experience (internal and external) to ensure customer feedback across each touchpoint (including customer complaint registers, customer satisfaction surveys, telephonic surveys and employee feedback) is collected, analyzed and acted upon.
- The Bank has digitized transaction processing in critical functions for straight-through processing and enabling paperless transactions.
- The Bank leveraged social media as a new channel for superior customer service to address queries/complaints, receive feedback and garner inputs on service (Voice of the Customer – VOC).
- The Bank adhered to Banking Codes and Standards Board of India (BCSBI), Goiporia Committee recommendations, Damodaran Committee recommendations and the Committee on Procedures and Performance Audit of Public Services (CPPAPS) guidelines, thereby ensuring compliance across its critical functions.
- The Bank is the First Bank in India to be certified on Risk Based ISO 9001 Standard for YES School of Banking.
- As part of Insta Gratification spirit, the Bank has taken an initiative to provide fast-track processing (within 2 hours) of key customer requests.
- The Bank is in the process of implementing 'Robotics Process Automation' to optimize internal processes with a view to provide faster and accurate services.

Embedding a Continuous Improvement Approach

YES BANK's Quality Assurance and Service Delivery Units provided a framework that facilitated continuous improvement. The Quality Policy at the Bank states, 'YES BANK will strive to ensure consistent superior service experience through operational excellence, innovation, cutting-edge technology, best-in-class systems and processes in its mission to become 'The Finest Quality Large Bank of the World in India'.

THE SERVICE QUALITY STRATEGY

- The Service Excellence & Quality Assurance teams take up focus initiatives under the framework of Lean and Six Sigma integrated methodology towards improvement of service and process standards. The team actively engages with customers across various channels to capture the feedback which is analyzed before being taken up for improvements.

The complaints management team conducts Root Cause Analysis on an ongoing basis to address repeated issues.

- The Service Quality framework of the Bank is built on the world-renowned PDCA (Plan – Do – Check – Act) model of Deming's improvement cycle. Under this, Bank branches are visited by especially skilled quality professionals for a detailed review of the service delivery processes. This entails assessment, gap identification, root cause analysis, action plan and execution. The entire process is closed looped with actionables and closures.
- The Bank's three-pronged structure to bolster customer service comprises customer experience, innovation and quality assurance. The Customer Experience unit captured the Voice of the Customer (VOC), and assessed performance across key service drivers. These initiatives were managed through the Innovation Center, which acted as a clearing house for ideas that helped the Bank implement 'next practices' across products, services and channels.
- Specific quality goals were classified across the categories of Process Management and External and Internal Service Delivery in line with the Bank's Quality Policy and Objectives. Quality improvement drives, like workforce suggestion schemes, Lean Six Sigma, Five S, ISO 9001 and ISO 10002 certifications were implemented across business units and branches.
- Being a member Bank, Service Excellence team proactively engages with all the customer facing channels to ensure compliance with the BCSBI code. This has enabled the Bank and its service delivery processes to be more robust and customer friendly.
- At the Bank, external and internal service delivery (customer satisfaction) was measured using dashboards, Voice of the Customer (VOC), Branch Service Committee Meetings, Sigma Scorecards and External/Internal Customer Satisfaction Surveys. These initiatives not only helped build mutually-beneficial customer relationships, but also ensured stringent Service Level Agreements (SLAs) across the Bank.
- The YES Service Program, an internal service proposition, disseminated through a defined and ongoing service marketing program, and measured through mystery shopping, on-job monitoring and Branch Executive Leadership Team (BELT) programs, were held periodically across key branches.
- The Bank created a knowledge pool of Six Sigma/Lean Sigma change agents to reinforce a culture of improvement. The Bank undertook several strategic and tactical improvement projects during the fiscal year.

- The leadership of each business unit reviewed existing processes, initiated improvements and instilled procedural orientation. Within a short period, the Bank has been recognized as 'World-Class' in the Service Category by Asia Pacific Quality Organization. The Bank is also the only Indian Bank to win this prestigious global award based on Malcolm Baldrige Business Excellence Framework (USA).

INFORMATION TECHNOLOGY

Information Technology (IT) is a critical enabler of business transformation and growth. IT-enabled businesses advance products and innovation and foster customer-led growth. As a new generation Bank, the Bank has deployed technology as a strategic business enabler – to build a distinct competitive advantage and to achieve superior standards of Customer Service.

The Bank has recognized this and is committed to investing in technology, adopting an A.R.T (Alliances, Relationships and Technology) approach wherein we have identified the need and pain points of the customers, assessing them as a set of opportunities, and without compromising on security, ensure customers carry out their banking needs and avail of our services with ease and comfort.

The vision of the Business & Digital Technology Solutions Group (BDTS) at the Bank continues to remain 'To make life simpler for our customers and colleagues'.

Working on its strategy which is broken into two parts, i.e., 'Run the Bank' to continue work on initiatives which are needed to keep the Bank's operations running effectively, and 'Build The Bank', BDTS keeps a laser-sharp focus on transformation initiatives to meet the vision of the Group and the Bank. During the current FY, many new initiatives were completed successfully and systems were upgraded to latest versions to support the growing needs of the Bank. Few of the key projects which were undertaken bank-wide during the year are highlighted below:

- Merchant Funded Offer Program – A first in the banking industry, Merchant Funded Offer Program was implemented with key USPs such as analytics driven personalised offers for customers based on their profile, real-time analytical tracking of transactions and communication to customers (SMS and push notification) about cashback eligibility. It offers completely automated processes right from tracking transactions to settlement, multiple cashback mechanisms like Account Transfer and Mobile Wallet, association with best brands (both offline and online) across categories like Food & Dining, Fashion & Apparel, Health & Beauty, Entertainment Services and many more. It provides a hassle-free mechanism for transactions with no need to remember coupon codes etc.
- YES asap! – The Bank’s Mobile App enables account opening of Individual Savings Accounts on the mobile phone of the Client Relationship Partner (CRP) and Relationship Manager (RM). Over 1,400 accounts have been processed using YES asap! till date. The app is accessed using Secure Hub & enables CRPs to open accounts while on the field and share the account number instantaneously with the customer. It also automates E-KYC, PAN validation, Negative Check Lists, Re-KYC & de-duplication checks, thereby minimising case rejections.
- Enterprise Communication – Kaizala was implemented for the Bank’s employees for broadcasting announcements, task assignments, setting up meeting requests, conducting quick polls and data collection surveys (e.g. daily numbers reporting), and of course, chatting with colleagues on work-related matters, securely. It also helps in easily organising large amounts of information with an aggregated view of user responses or task status and get aggregated reports at each level of the organization.
- Master Data Management application – Again an industry first initiative implemented by the Group, all customer information under one Golden Record is accessible across the bank through this app. An enterprise-wide singular system is used for Customer De-duplication at on-boarding and maintenance, with capability to monitor, control, clean and standardize customer attributes. Standard Customer information helps in maintaining a clean MIS and better analytics. It also includes attributes that are generally not captured in other systems, e.g., KYC, FATCA, BO, CDD, Facebook ID, Twitter handle etc. Centralized customer maintenance in MDM with automated feedback to core application avoids duplication.
- YES PAY Bot – A chatbot has been integrated in YES PAY Wallet. With this change, the Bank has enabled all the wallet services like load money, balance inquiry, send money, bill payments etc. to our customers. YES PAY Wallet services have been made available to our corporate customers wherein they can initiate bulk disbursements to their customers’ wallets and also demand collections from individual wallet accounts.
- Professional Clearing Member (PCM) – It allows the Bank to provide settlement and clearing services for equity derivative segment for TM in NSE. Key benefits include online monitoring of margin utilization, trading limit setup for trading members, monitoring of possible violation of position limits, collateral management (FD, BG, Securities & Cash), corporate actions on outstanding trade positions, and position expiry process.
- Robotics Center of Excellence (CoE) including Robotics Process Automations (RPA) – Today, automation is a business enabler. With legacy systems, traditional set of application have limited scope of automating processes in the Bank. Such processes need significant investment of bank’s manpower to perform repetitive and mundane tasks. Hence, with the evolution of a Robotics Center of Excellence (CoE) instituted within the Bank, the Bank has embarked on a journey to automate various processes in the Bank. Within a year, Robotics Center of Excellence has already automated critical processes within the Bank, most important of which is the salary processing of corporate customers. With the implementation of Robotics Process Automations (RPA), the turnaround time (TAT) per customer request for salary processing has been reduced by more than 75%. Furthermore, the CoE has also automated the process of User Provisioning and de-provisioning for a critical application, thus reducing TAT by almost 75%. The CoE also went ahead with automating the Reconciliations MIS scrubbing and processes which led to a saving of almost 30-man hours per day.
- YES ROBOT – An AI enabled Banking Assistant was launched on the Bank’s website. Earlier, this was available to customers only through the Facebook Messenger. Key benefits include 20+ banking services including service requests, financial and non-financial transactions, instant information on the Bank’s products/services. It also captures customer interest via lead generation, answers frequently asked customer queries without manual intervention and has a loan eligibility calculator for Commercial Retail Assets, which customers can also apply for.
- Debit Card and ATM System Upgrade –All YES BANK Debit Cards and YES BANK ATMs are now available for all transactions. Key benefits include:
 - Enterprise-wide licence for ATM switch as against cost per ATM, giving benefit of unlimited terminals/debit cards/transactions

- Switch infrastructure is now owned by the Bank with full and robust security controls as per the Bank's standards as against hosted at vendor and with limited access/controls
- Seamless migration of 23.5 lakh Debit Cards from earlier Debit Card system & ATM switch
- Migration of 3D secure (Two-factor authentication for E-Commerce transactions) resulting in cost saving and seamless customer experience
- Consolidation of vendors and multiple components into a single vendor/product for better management and control
- Deployment of 'right-skilled' resources from switch partner to 'Run and Operate' from Bank's premises
- Gives the Bank the option to offer other products like Prepaid Cards, Forex Travel cards, IMPS, Credit Cards routing through same switch
- YESFXOnline (Credence) – Direct Customer Dealing (DCD) module has been implemented to select corporate customers in the ADII, FFMC & Referral Clients segments which provides real-time transaction reporting, along with Dynamic FX card rate publication and special rate negotiation with dealing room.
- Launch of YES MSME Mobile App – Launched on iOS and Android platforms, the app offers a powerful digital banking solution empowering our MSME customers with the power of speed-banking, resulting in substantial reduction in transaction costs and increase in overall productivity at branches. Key features of YES MSME Mobile are:
 - Complete Business Cash Flow Management through the mobile app
 - Single interface right from CASA, all loan relationships, Bank Guarantees and Letter of Credits, to raising service requests and managing employees' salaries
 - On-screen payments to group of beneficiaries at one go without the need for file upload, and real-time reconciliation
 - YES MSME Mobile App will help with significant reduction in time and costs savings for our MSME business with convenience of payment authorization on the go.
- Enhanced Wealth Management System (WMS) – The Bank has successfully migrated to an Enhanced WMS which added several new features/functionality for our customers & RM's convenience, such as:
 - System-level specified person code validation for Life and Non-Life Insurance entries
 - System-level entry of the Branch QC checklist
 - Capital Gain/Loss report
 - Standing instruction for transactions
 - Setting up One-Time Purchase and then STP (Purchase and Switch Systematically - PSTP)
 - Weekly STP / SIP
 - RM/Segment-level revenue reports
 - Transaction capabilities for US/Canada customers for select AMCs
 - Common Transaction slip for purchase/ sell/ switch for all AMCs through Branches
- 'Samsung Pay' for YES BANK Credit Cards – The Bank partnered with Samsung to launch payments for our Credit Cards customers through 'Samsung Pay', which is accepted at all places where a physical card currently works, backed by Samsung's patented Magnetic Secure Transmission (MST) technology and Near Field Communication (NFC). Since a majority of PoS terminals in India are MST enabled, they will work seamlessly with Samsung Pay enabled devices. Samsung Pay offers a robust three-level security for every transaction.
- Tableau Server Implementation – It has helped in moving from individual team's capability of creating dashboards/reports to enterprise-level solution, providing self service capability to business end-users in publishing of dashboards/reports for wider audience, including COO dashboards.
- Unified Customer Experience Portal (UCXP) Core Release – It has been envisaged to have specific Transaction Banking products/offers for corporates on one single platform with single sign-on.
- Commercial Credit Card Data Warehouse Implementation – It is being used to perform CIBIL reporting for commercial cards and provide regular updates to RM's for tracking corporate spends/ payments. The data helps in avoiding any miss in corporate payments being processed.
- Hadoop – Analytical Campaign Application – It extends analytical campaign application to automate event-based triggers for Savings Accounts customers. It holds the capability to automate rule-based scenarios and communications based on customers' transactions and channel behavior, enabling cross-sell/up-sell of various products like Fixed Deposits, Recurring Deposits and Digital Channels. It is a horizontally scalable application to address YBL's SCALE requirements in terms of data volumes, both structured and unstructured, and also automated campaigns.

- Hadoop – Merchant Funded Discounts – This is an analytics driven personalized offer for customers based on their location, historical transactions, product categories, merchant affinity etc., among other attributes. Instant gratification by using discount coupon codes on various merchants is provided. The program is associated with the best brands across categories like Food & Dining, Fashion & Apparel, Health & Beauty, Entertainment Services and many more.
- Sales Portfolio Management System – The new version release conforms to the new branch banking structure for the West 2 region. Key automation benefits include mapping requests and subsequent approvals to be done via system, which will result in better TATs, and better e-mail communication of the changes made.
- GEM e-PBG Module (Government e-Marketplace) – Based on the recommendations from Group of Secretaries, we have developed a one-stop Government e-Marketplace (GeM) to facilitate online procurement of common use Goods & Services required by various Government Departments/ Organizations/ PSUs. GeM helps in enhancing transparency, efficiency and speed in public procurement. It provides the tools of e-bidding, reverse e-auction and demand aggregation to facilitate government users get the best value for their money.
- Newgen Platform – A Bearer Identification Process in which a one-time bearer introduction letter is recorded in Newgen after approvals. The bearer can approach any branch for transaction as bearer details are stored centrally. The bearer need not carry documents and has to only mention his bearer ID for transactions.
- Notiva Application – It is used to send real-time alerts in which there is no restriction on the number of users for Swift message viewing. It has the ability to perform wild card search for Swift messages and FCC advice which can be downloaded in pdf and txt formats.
- Puratech channel finance – A secured online platform with transaction initiating capabilities for corporate clients, with rich MIS and reporting capabilities. It has homepage view wherein customers can view their setup details, including accounts, interest etc. It has online interfacing with core banking via ESB for online API to trigger NEFT/ RTGS/ Internal fund transfer, a module for customer setup, and limit management configurable by the Bank's team.
- CRIF Highmark – Connect Tool for Retail Assets – Used for CIBIL reporting of cases booked in FinnOne. This is a platform for agnostic bureau data contribution integrated with user-driven ETLV single extraction, multiple format capability. Built on underlying credit bureau domain knowledge and highly efficient, easy to use, rule-based engines to perform all activities involved in data integration between credit bureaus and its members without any specific programming effort.
- CASA Upload & Verification Process – Through this, users will now be able to run the entire process from RPA Platform without any manual intervention and with near-zero errors. The LIMPOS team has been successfully doing a parallel run on production setup.
- RESUSTAIN – A digital platform for Environmental and CSR Reporting – this is a cloud-based Environmental & CSR data collection platform that enables 'Reimagining Sustainability', by shifting the focus from Sustainability Reporting to Sustainability Strategy, Performance and Collaboration. With investors' growing interest in non-financial performance (mainly CSR and environmental), it is imperative for the Bank to have a Sustainability & CSR-specific data collection and reporting system. The Resustain platform has the capability to compile data aggregated from various sources and perform analytics in the in-built platform.
- YES PRIME – An integrated Project Management Solution for managing all project initiatives from Initiation to Benefit Realization. The system is released on Microsoft Project Online which is a cloud-based Project and Portfolio Management (PPM) Solution from Microsoft, making it accessible anywhere and everywhere through a secured multi-factor authentication enabled channel. It provides real-time access to project status and related information to drive informed decisions. This increased collaboration among project team members within the technology unit of the Bank – BDTS.
- Migration to Ganaseva for Retail Assets Business – As part of this activity, ~5,81,000 loans amounting to ~₹644 crore have been migrated from the legacy application to Ganaseva. This also included all repayment schedule records and repayments of the migrated loans. Key benefits of this migration includes a single dedicated system for Inclusive and Social Banking (ISB) and efficiency improvement in operations processes, where activities were previously performed in two systems.
- PI-CONTROL™ Platform – It is a one-of-a-kind platform that will be available for Corporate Banking Customers of the Bank. It has the capability to provide 'real time cryptographic digital transaction signing' at a mass scale. YES BANK has developed the platform with a vision to provide adaptive, dynamic security controls in response to the rapidly changing threat landscape. I-AM™ crypto-ID is probably the first non-Public Key Infrastructure (PKI) massively scalable

cryptographic technology, which simplifies usage as well as increases distribution and adoption, given its Cloud Native and mobile first nature.

- Y-COLORS (Yes Corporate Loan Originating System) was launched with key benefits:
 - Customized Rule based workflow for CAM approval process
 - Scoring calculation basis various parameters
 - Digitization of complete CAM, Facility Letter and Disbursement Notice reports
 - Improvement in Operation Efficiency and reduce overall TAT
 - Overall TAT monitoring

Technology has responded by strategically partnering businesses. Many first-mover implementations have provided business growth, long-lasting advantages, and have also won many accolades and awards for the Bank.

HUMAN CAPITAL MANAGEMENT

YES BANK pursued a strong employee value proposition of 'Creating & Sharing Value' driven by the ethos of Professional Entrepreneurship, a talent philosophy of Owner-Partner-Manager and superior employee experience, designed to encourage and reinforce a strong culture promoting meritocracy, performance and prudent risk taking.

The Human Capital engagement practices at the Bank are targeted at enhancing the Bank's brand as a Preferred Employer of Choice amongst new-age knowledge human capital by deploying a suite of best-in-class initiatives that deliver fast-paced, high-quality and predictive human capital outcomes leveraging technology driven digital platforms.

The Bank made significant people investments in FY 2017-18 by building Human Capital capacity, both in terms of leadership capabilities and requisite skills through institutionalized initiatives encompassing learning and development interventions, employee engagement driven through digital platforms and holistic well-being embodied through 'YES Personality'.

Some of the key highlights of the Bank's Human Capital practices are illustrated below:

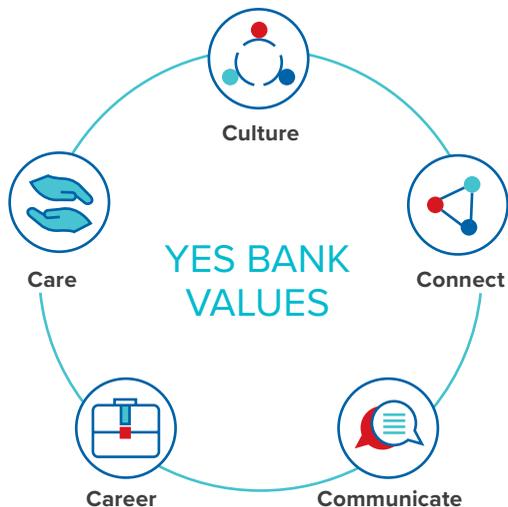

EXECUTIVE ENGAGEMENT

Making YES BANK a 'Great Place to Work'

YES BANK has been participating in the 'India's Best Companies to Work For' study since 2013. The study is conducted by Great Place to Work® Institute, a leading management research and consulting firm. During this study, confidential and anonymous feedback is sourced by the Institute from randomly-identified representative sample of YES BANKers, to measure the Bank's 'Trust Index' across certain parameters like Organizational credibility, Respect, Fairness, Pride and Camaraderie. The Bank also participated in the 2017 study with the anonymous survey launched to 100% employees. The Trust Index score has consistently gone up from 70 in 2013 to 72 in 2014, and subsequently to 74 in 2015 and 2016. The scores increased across all parameters. The Bank was declared the 2nd Best Place to Work For in the Banking Sector in 2015.

The Trust Index score has improved to 75 for 2017. YES BANK is the only Bank to be identified as one of the Top 100 Companies to work for in India.

5 Cs Employee Engagement Model

To engage the growing workforce, the Bank follows the 5 Cs Engagement Model, viz. Culture, Communication, Career, Connect and Care. The Bank engages and develops Human Capital by disseminating/re-connecting YES BANKERS with YES BANK’S core values, by creating an intentional culture, encouraging open and honest communication, strengthening connect with employees and community, supporting career development and showing care as an organization.

Holistic well-being forms the cornerstone of the Bank’s engagement model, disseminated digitally through targeted initiatives under each of the pillars.

YES Club

With the objective of encouraging an atmosphere of fun and camaraderie, and to provide YES BANKERS a platform to showcase their talent and creativity, YES CLUB was launched across 180+ hub branches. YES CLUB facilitates participation activities around three broad themes: Social, Culture and Sports. Since its launch, YES BANKERS across hub branches have organized and participated in activities such as sports tournaments, adventure and trekking trips, arts and crafts exhibitions, photography contests, blood donation camps, and employee volunteering activities.

YES League of Excellence

YES BANK launched its revamped Rewards & Recognition online portal called the ‘YES LEAGUE OF EXCELLENCE’ to provide a formal recognition platform to recognize and reward excellence at YES BANK and in turn create a ‘Culture of Appreciation’. All YES BANKERS have the option to appreciate and wish their colleagues on achievements or occasions. Reporting Managers can

nominate colleagues for Employee of the Month and similar other rewards.

University & Schools Relationship Management (USRM)

The University & Schools Relationship Management (USRM) program is a structured, sustainable and scalable engagement process, which has created and maintained maximum mindshare for YES BANK and plays a pivotal role in building YES BANK’S brand as a ‘Preferred Employer of Choice’ among the best educational institutions in India and abroad. Hiring of 75 management graduates from premier B-Schools in FY 2017-18 through the Y-PEP (YES – Professional Entrepreneurship Program), the flagship program for campus recruitment, is testimony to the success of the USRM program.

The USRM team launched the 6th edition of the ‘Transformation Series’ – YES BANK’S flagship property focused on business school students, which has emerged as India’s largest innovation challenge having witnessed participation from over 30,000 students across 2,500 colleges. The Transformation series was rated as the second most prestigious B-School competitions of the year 2018 by Dare2compete.

The platform, launched in 2010 as a case study challenge, amplified its scope this year as an idea crowdsourcing platform wherein during the preliminary rounds, 10 organizations from three key sectors of the economy – financial services/technology, smart cities and social development – sought solutions to some of their live problems from India’s brightest minds.

The Grand Finale saw the top 15 teams address the national challenge of ‘Doubling Farmer’s Income by 2020’. The case study was set by Atal Innovation Mission, NITI Aayog, who were the Grand Finale partners this year.

YES School of Banking (YSB)

YES SCHOOL OF BANKING

YES BANK has always strongly believed that Knowledge is a key differentiator, and continues to invest in developing its Human Capital for creating differentiated Capacity, Capability, and Culture & Confidence. In line with this belief, YES School of Banking was institutionalized in 2007 with a vision to create a Center of Excellence for learning solutions in banking and related areas and drive alignment of business goals at every stage of the organization’s

growth. All learning and development initiatives at YES BANK are domiciled under the aegis of this dedicated knowledge function.

The key focus areas for YSB are:

- Equip staff with skills of the future via 'Professional Technology Programs'
- Certification of staff based on RBI Circular on Capacity Building in Banks and AIFIs
- Multiply leadership capability across levels
- Business Priorities
 - Design Thinking, Innovation, Creativity led Entrepreneurship (DICE)
 - Productivity
 - Cross Sell
 - Service Culture
 - Compliance Culture

WOMEN CENTRIC INITIATIVES:

Say YES to G.R.A.C.E.

YES BANK has revised the Policy for Prevention of Sexual Harassment in line with the 'The Sexual Harassment of Women at Workplace (Prevention, Prohibition and Redressal)' Act & Rules, 2013.

With a view to create a robust framework for dissemination, awareness creation and periodic reiteration of Prevention of Sexual Harassment policy amongst all executives, the Bank launched 'Say YES to G.R.A.C.E.' (Gender Respect and Commitment to Equality). This initiative is applicable to all YES BANKers irrespective of gender. Keeping in mind the focus on women safety in India, this initiative has played a key role in gender sensitization.

YES WE CARE: Celebrating 'Special Moments'

Launch of special and differentiated benefits like 'Celebrating Motherhood', wherein all new mothers resuming duty post maternity leave are presented with a Gift Voucher for their new-born.

24*7 Helpline Number

YES BANK has in place a 24/7 Helpline Number for emergency situations available to all YES BANK employees. An employee just needs to dial or send SMS to an emergency number to trigger an SOS call/SMS to the registered emergency contacts of the executive, including the manager and HCM Relationship Manager.

Diversity Recruitment Drives – Increasing Women Workforce at YES BANK

We have focused recruitment drives and campus placement targeting women employees for Branch Banking in metro locations. During the last financial year, the Bank increased its focus on gender mix in leadership roles across Middle, Senior and Top Management resulting in an increase in representation of women executives in key positions.

Rewards and Recognition

YES BANK was recognized as:

- The No.1 'Dream Company to Work For' and 'Best Employer Brand' by the World HRD Congress 2018

- Runners up of BML Munjal Awards 2015 for Business Excellence through Learning & Development (Private Sector – Services category)

RISK MANAGEMENT

The long-term financial security and success of the Bank is built on a robust risk management system. Risk Management is based on three lines of defence principle i.e. Business units, Independent Control Functions and Audit. Through proactive and improved risk management practices, the Bank's risk management function continuously works towards achieving financial stability and enhancing stakeholder value. The Board of Directors of the Bank has the overall responsibility for Risk Management. The Risk Management Architecture of the Bank is overseen by five Board-level Committees, viz. Risk Monitoring Committee (RMC), Audit Committee (AC), Fraud Monitoring Committee (FMC), Board Committee on Wilful Defaulters & Non-Cooperative Borrowers and Board Credit Committee (BCC), which strive to put in place specific policies, frameworks and systems for effectively managing the various risks.

The day-to-day functioning is managed by the Risk Management Unit (RM). The Risk Management Unit is headed by the Chief Risk Officer (CRO) who leads the Credit Risk (Underwriting) unit, General Legal Counsel and other Risk units. The CRO reports to the MD & CEO. The CRO is responsible for ensuring an effective implementation of an enterprise-wide risk management framework through various risk policies, processes, limits and controls that enable prompt risk identification, accurate risk measurement and effective risk mitigation. The CRO is also responsible for risk compliance and monitoring as well as reviewing and presenting various risk reports, policies and dashboards to RMC and Board.

The Risk Management Unit in the Bank is designed to establish an effective, non-silo-based Enterprise Risk Management (ERM) framework to ensure sustainable business growth with stability and to promote a proactive approach in identification, assessment, management and reporting of risks associated with the business. The Unit enables the Bank to successfully meet its business and financial goals, while maintaining effective Board and management oversight on Risk and Control parameters.

ENTERPRISE RISK MANAGEMENT

YESBANK has an Enterprise Risk Management Unit (ERM) that is responsible for implementation of ERM framework, Risk Aggregation, Risk-based pricing, Risk assessment of Pillar II risks, viz. Reputation Risk, Compliance Risk, Concentration risk etc., Basel II/III compliance, Internal Capital Adequacy Assessment Process (ICAAP), and Bank-wide Stress testing. The Bank has two Committees – Enterprise Risk Management and Capital Management Committee (ERCC) and Reputation Risk Management Committee (RRMC). ERCC is responsible for overseeing Enterprise Risk Management, Capital Management, and ensuring that all material risks are identified, measured, monitored and controlled in accordance with the Bank's risk appetite, as well as, within regulatory guidelines. The RRMC oversees Reputation Risk Profile, designs proactive steps for enhancement of reputation of the Bank and management of Reputation Risk events for the Bank.

The Bank has successfully migrated to Basel II capital adequacy norms since March 31, 2009. Under this, it has adopted the 'Standardized Approach' for measurement of Credit Risk, 'Basic Indicator Approach' for Operational Risk and 'The Standardized Duration Approach' for Market Risk. The Bank has also implemented the Basel-III norms, and has laid down a roadmap for migration to advanced approaches for capital charge computation, across Credit Risk, Market Risk and Operational Risk. The Bank has formulated an overarching ERM Policy and an extensive policy on ICAAP commensurate with the Bank's size, level of complexity, risk profile and

scope of operations. The Bank has thus evolved a robust enterprise-wide risk management framework which is geared to support the strategic objectives and business plans of the Bank.

CREDIT RISK

YES BANK's Credit Risk management is governed by a comprehensive and well-defined Board-approved Credit Policy. It encompasses credit approval processes for all business segments, along with the guidelines for monitoring and mitigating the risks associated with them. All corporate credit proposals are approved either through a committee approach or through Joint Delegation, depending on rating and exposure thresholds outlined in the Credit Policy. The Bank currently has four committees for approving credits, viz. Board Credit Committee (BCC), Management Credit Committee (MCC), Executive Credit committee (ECC) and Retail & Business Banking Credit Committee (RBBCC). Of these, the BCC is a Board-level sub-committee, while MCC, ECC and RBBCC comprise Top and Senior management personnel. Joint Delegation involves two or three approvers jointly approving the proposal, which primarily addresses large volume of small ticket proposals. While exercising their sanctioning powers, these designated committees/functionaries exercise the highest level of due diligence and ensure adherence to the Bank's Credit Policy and other regulatory guidelines.

The appraisal process encompasses a detailed risk assessment and rating of obligors, using the Bank's rating models. These models have been developed in conjunction with a reputed external credit rating agency and cover all corporate business segments of the Bank. The ratings of customers are assessed based on their financial performance, industry characteristics, business positioning, project risks, operating performance and other non-financial parameters such as quality of management and conduct of account.

The Bank additionally has in place scorecards for specific schematic programs in case of Retail and SME borrowers. This function works in close coordination with various business segments to periodically review the individual borrower relationships and assesses the overall health of borrowers. The Bank has taken proactive measures to ensure delinquencies are maintained at a minimum level through robust post-sanction monitoring processes. There is a dedicated team which works towards ensuring compliance to the sanctioned terms and conditions through an internal tracking system.

There is also an independent 'Portfolio Analytics Unit' which is responsible for monitoring the entire credit portfolio across all segments, including identifying portfolio trends and generating portfolio-level MIS

covering various credit quality indicators. Further, the 'Credit Risk Policy Unit' is responsible for independently reviewing the Bank's credit policies and programs, including validation and monitoring of rating models. The Unit is also responsible for migration to Internal Ratings Based (IRB) approach and IndAS for Credit Risk. The Bank has an active legal department that helps in assessing and managing Legal Risk. The department has developed a comprehensive set of standard documents for various types of credit products and is responsible for ensuring legal compliance of applicable laws and ensuring that the documentation entered into by the Bank is legally valid and enforceable.

MARKET RISK

YES BANK's Market Risk management is governed by comprehensive Board-approved policies such as Market Risk Policy, ALM Policy, Liquidity Policy, Investment Policy, Hedging Policy, Stress Testing Policy, Derivative Policy, Derivative Appropriateness Policy and Liquidity & Contingency Funding Policy, to ensure that risks underwritten across business activities are within the stipulated risk appetite of the Bank, and also to ensure that similar risks are aggregated. These policies have been benchmarked with industry best-practices and RBI regulations.

The Bank has an integrated, straight-through processing and state-of-the-art treasury system for enabling better risk management. The Bank measures liquidity, currency, and interest rate risks through various metrics, viz. Liquidity Monitoring, Liquidity Gap Analysis, Dynamic Cash Flow Analysis, Intraday Liquidity, Liquidity Coverage Ratio, along with other Liquidity Ratios, Value at Risk (VaR), Earnings at Risk (EaR) and Market Value of Equity, Sensitivity Analysis, among others, using robust internal risk models. The Bank also regularly conducts stress testing to monitor the Bank's vulnerability towards extreme but plausible unfavorable shocks. The Bank monitors and controls its risk using various internal and regulatory risk limits for trading book and banking book, which are set according to a number of criteria, including economic scenario, business strategy, peer analysis and the Bank's risk appetite. The risk reporting mechanism in the Bank comprises disclosures and reporting to the various management committees, viz. Investment and Financial Markets Management Committee, Asset Liability Committee, among others.

OPERATIONAL RISK

Operational Risk is the risk of loss resulting from inadequate or failed internal processes, people or systems, or from external events. Operational Risk includes legal risk but excludes strategic and reputational risks. Operational Risk is inherent in a bank's day-to-day business activities.

The Bank has implemented a robust and comprehensive Operational Risk Framework defined as part of the Board-approved Operational Risk Management Policy to identify, assess and monitor risks, strengthen controls, improve customer service, and minimize Operational Risk losses. The Bank has constituted the Operational Risk Management Committee (ORMC), consisting of Senior Management of the Bank for implementation and monitoring of the Operational Risk Framework throughout the Bank. The Committee is also responsible for reviewing of Operational Risk profile of the units, understand future changes and threats, and concur on areas of highest priority and related mitigation strategy.

The Bank has also constituted a Product and Process Approval Committee (PPAC), for approval and risk evaluation, of all the new products/modifications to existing processes for the Bank. The Bank has further implemented a Business Continuity Management Committee (BCMC) as a sub-committee of ORMC, responsible for development, implementation and ongoing monitoring and review of the effectiveness of the Business Continuity Plans (BCP) across the Bank.

Additionally, The Bank has also constituted Outsourcing Management Committee (OMC) to review the effectiveness of the outsourcing policy and procedures and to ensure effective due diligence and monitoring of the Bank's outsourced activities on a continuous basis.

CLIMATE RISK

Today's risk environment is increasingly seeing impacts that were previously considered by financial institutions to be externalities becoming more material. The year 2017 has been significant from the perspective of integrating climate action in corporate strategies, with Financial Stability Board's Taskforce on Climate-related Disclosures (TCFD) putting forth its recommendations. The recommendations acknowledge that climate risks have the potential to affect the efficiency and effectiveness of markets, financial institutions and the economy at large. In December 2017, YES BANK became the first Indian Bank to support the TCFD recommendations on climate risks and opportunities at the One Planet Summit hosted in Paris. Given the significance of climate risks, the Bank has identified climate-related risks as Transition Risks and Physical Risks.

YES BANK identified Transition Risks as those risks which arise from efforts to address environmental change, including but not limited to regulatory changes in policies, technological changes or shifts in investor sentiment and consumer behavior. Furthermore, with growing awareness on Environmental & Social (E&S) issues globally, countries have established robust E&S regulations that specify requirements for operating

licences, occupational health and safety standards, and emission/discharge limits. Stricter environmental regulations may affect some projects funded by the Bank, which in turn may affect repayment capability of the client and could also pose a Reputational Risk. Non-compliance to these standards may directly impact the financial and operational viability of companies, which also translates into risks for banks.

The Bank through its Environmental & Social Policy (ESP) integrates Environmental & Social (E&S) risks assessment into its overall credit approval framework. The Bank has a dedicated E&S Risk team, which undertakes preliminary environmental and social due-diligence of the projects funded by the Bank. This helps ensure that all activities are environmentally and socially viable and compliant to the regulatory environmental and social standards as applicable or likely to be in force in the future.

Furthermore, Physical Risks are risks which arise from the impact of climatic (i.e. extremes of weather) or geologic (i.e. seismic) events. Extreme weather or geologic events, due to climate change, increases the risk to the Bank's physical assets and poses a risk of service disruption. The Bank is ISO 22301 certified, an International Business Continuity Standard, to manage its business continuity and has a robust Business Continuity Plan to manage any potential service disruption.

For more information on the Bank's climate-related opportunities and positive-impact climate finance, please refer to pages 48-51.

CYBER RISK

There has been significant adoption of digitization in the financial sector with the use of cutting-edge technologies to promptly extend e-delivery channels to customers. Cyber Risks are the security risks which could occur with the breach of confidentiality, integrity and availability due to external or internal cyber attacks. To keep a check on the applicable Cyber Risks, the Bank has an Information Security Unit under the Risk Management Unit.

The Bank has a governance structure in place for effective security management. The Security Council has been constituted with cross-functional representation at leadership level, which meets at quarterly intervals to review the implementation of Information Security management system in the Bank. The Bank has implemented Board-approved Information Security Policy and Cyber Security policy, as directives to protect the information assets of the Bank. The security practices in the Bank are ISO 27001:2013 certified.

The Bank has implemented a multi-layered security defence to protect against Cyber Risks. The Bank

periodically conducts security testing of all applications (old and new) and IT infrastructure and technologies to ensure that security issues, if any, are proactively identified and remedied. To monitor Cyber Risks, the Bank has a Security Operations Center (SOC) which keeps vigil on actionable threat intelligence, suspicious network traffic and events to timely detect any anomalies and help respond to potential incidents. Further, the Bank keeps the employees, customers and other stakeholders aware of the global cyber threat landscape and risks applicable to protect them from becoming victims of cyber attacks.

INTERNAL AUDIT

The Bank's Internal Audit department performs independent and objective assessment to monitor adequacy, effectiveness and adherence to the internal controls, processes and procedures instituted by the management and extant regulations. The audit function also proactively recommends improvements in operational processes and service quality.

The function has adopted a Risk-Based Approach of Internal Audit (RBIA). The primary focus of the audit is on key risk areas, which are of substantial importance to the Bank. The RBIA approach has been thoughtfully structured taking into account the RBI guidelines and internationally established practices. The audit frequencies are in sync with the risk profile of each Unit to be audited. The Internal Audit department reports to the Managing Director & CEO for day-to-day activities and to the Audit Committee of the Board for Audit Planning, Reporting and Review. Additionally, the Bank also subjects its operations to Concurrent Audit by reputed audit firms to complement its Internal Audit function. The Concurrent Audit covers core activities such as the Operations, Financial Markets and Branches. All audit reports are circulated to the relevant management teams and the Audit Committee of the Board.

The Bank's Internal Audit department is ISO 9001:2015 certified (Quality Management System).

COMPLIANCE

YES BANK has institutionalized a strong compliance culture across the organization, pursuant to its strategic goals of transparency and trust among all its stakeholders. The Bank has a dedicated Compliance Department for ensuring regulatory compliance across all its businesses and operations. The key functions of this department include dissemination of key regulatory updates affecting the various businesses of the Bank, review of new products and processes from a regulatory compliance perspective, providing guidance on compliance-related matters, conducting compliance reviews, imparting training to employees on compliance aspects, among

others. The Bank has also put in place a 'Know Your Customer' and 'Anti-Money Laundering Policy' approved by the Board of Directors, and transaction monitoring procedures, as per the RBI guidelines.

UPDATE ON IndAS IMPLEMENTATION:

The Institute of Chartered Accountants of India has issued IndAS (a revised set of accounting standards) which largely converges the Indian accounting standards with International Financial Reporting Standards (IFRS). The Ministry of Corporate Affairs (MCA) has notified these accounting standards (IndAS) for adoption. The Reserve Bank of India (RBI) through its press release dated April 5, 2018 has deferred the implementation of Indian Accounting Standards (IndAS) by one year for scheduled commercial banks. In accordance with the same, the IndAS is applicable to banks from April 1, 2019.

As per RBI directions, the Bank has taken following steps so far:

- Submitted Proforma IndAS financial statements to the RBI for the half-year ended September 30, 2016, and for the quarter ended June 30, 2017 as required.
- Formed Steering Committee for IndAS implementation. The Steering Committee comprises Chief Financial Officer (CFO) (Chairman), Chief Risk Officer (CRO), Chief Operating Officer (COO), Chief Information Officer (CIO) and members of the Senior Management from Financial Management, Risk Control and Treasury Operations. The Committee oversees the progress of IndAS implementation in the Bank, and provides guidance on critical aspects of the implementation such as IndAS technical requirements, systems and processes, business impact, people and project management. The Committee closely reviews progress of the implementation.
- Steering committee updates the Audit Committee and the Board on preparedness for migration to IndAS on a quarterly basis.
- Further, the Bank has evaluated various IT solutions to automate Expected Credit Losses (ECL) computation and other accounting changes required in IndAS in order to improve the robustness of the process.

YES BANK will continue to liaise with RBI and industry bodies on various aspects pertaining to IndAS implementation.

STRENGTHS

Since Inception, the Bank has displayed strong financial and business performance, across macroeconomic cycles. In the past decade, Indian Banking Sector has been subjected to multiple challenges including the Global Financial Crisis in 2008-09, Liquidity tightening measures in 2013 and macroeconomic slowdown in past few years coupled with Asset Quality overhang emanating out of over leverage in Corporates. Despite the foregoing, the Bank has delivered consistent Earnings and Growth while maintaining healthy Asset Quality. During the first 3 years of the Bank's Large Bank Growth Phase (2015-2020), Total Assets grew at CAGR of 32% with corresponding growth of 33% in earnings and 28% in Net Profit. The Bank has also delivered best in class GNPA and NNPA ratio of 1.28% and 0.64% respectively,

as on March 31, 2018. This superior delivery has come on the back of strong and experienced leadership, competitive offerings and technology driven service delivery across Corporate, MSME & Retail Segments and Robust Risk Management practices.

The Bank's Earnings and Growth momentum has further got a boost through its IBU Branch at GIFT City which caters to the funding requirements of domestic corporate clients and since operationalization in Oct 2015, has grown to USD 2.5 billion in Total Assets. The IBU branch, along with 3 Representative offices in Abu Dhabi and London & Singapore (received approval from RBI for these 2 locations which will be operationalized within the next 1 year), will enable the Bank to expand services to the NRI population and Indian origin business at these locations and thus completing the suite of our International product offerings.

The Bank has also time and again demonstrated ability to raise different forms of capital to support its growth, with the Bank raising ₹124.2 billion of Total Capital Funds in FY18 through issue of ₹54.2 billion of Basel III AT1 and ₹70 billion of Basel III Tier II Bonds. Healthy internal accruals, with RoA and RoE of 1.6% and 17.7% respectively in FY18 has also bolstered Bank's Capital Ratio while supporting ability to grow and gain market share.

The Bank is a leader in new age payments, and has been consistently ranked on the top for its share of UPI payments, IMPS, AEPS etc. The Bank was ranked 2nd in performance on Digital payments across public, private, foreign and private banks in India by Ministry of Electronics and Information Technology. The Bank is also accessing new age innovation through its Fintech Accelerator program, which in conjunction with its API banking offering is enabling it to rapidly expand its franchise through the A.R.T (Alliance. Relationships. Technology) approach.

To sum up, 18,000+ strong empowered YES BANKERS, increasing Size, Scale & Reach, Capabilities to bank the entire ecosystem of Corporate, MSME & Retail customers and Scalable model through Digital & Technology innovations is enabling the Bank to capture market share at an increasing pace and grow business organically.

WEAKNESS

Although the Bank has made significant strides over the last few years, it is still a relatively small player in the Indian banking space with relatively lesser number of branches and penetration as compared to the larger peers. While the Bank is overcoming some of these challenges through technology led solutions, given that the Indian customer landscape has not fully evolved

towards digital channels, the Bank will need to continue to invest in building a digital setup.

The Bank also has higher Corporate advances constituting 67.9% of the book compared to 32.1% of Retail & MSME. However, the Bank is rapidly increasing granularity in its advances book. Core Retail Banking advances doubled in FY18 and now stands at 12.2% of Total Advances and MSME book grew by 34.4% during the same period. The Bank is committed to increase share of Retail and MSME segments.

The Bank is not an 'Agency bank' and hence does not have access to a significant portion of Government business opportunity. The Bank is hopeful that given the thrust on digital banking by the Government of India, some of the legacy rules regarding 'Agency Banking' will be reformed to include new-age banks like YES BANK for the agency banking business.

OPPORTUNITIES

India is one of the fastest growing economies in the world with a potential to become one of the Top 3 global economies over the next decade. Policy focus on micro, macro, institutional, administrative, and behavioral reforms is evolving towards an environment for enhancing ease of doing business. As India's potential growth moves up; rapid urbanisation, enhanced spending on infrastructure, and further deepening of the 'formalization through financialization' drive are likely to increase the credit intensity within the economy.

Government's efforts at reviving capex amid its focus on infrastructure sectors like roads, railways, ports, and power, as well as affordable housing, is helping to create a salubrious environment for crowding in private investment. Further, with increase in pace of resolution of stressed assets through the National Company Law Tribunal (NCLT) under the IBC framework, and the overall cost of credit coming down, there is likely to be significant unlocking of stuck capital a lot of suppressed demand for credit presenting opportunity to the Bank to selectively finance large corporates who are bidding in the IBC resolution proceedings.

The Bank has also recently got empanelment with the NSE as a Clearing Bank. This will open up significant business opportunities with the brokers of NSE. The Bank is already empaneled as a Clearing Bank with the BSE.

The Bank has established two subsidiaries namely YES Securities India Limited and YES Asset Management Company. YSL has over the past few years gained strong mind-share and market share across broking, investment banking & merchant banking businesses. YES AMC

which will be functional in this Calendar Year will further strengthen YES BANK's expertise in wealth management solutions, debt capital markets and gain from its significant and growing customer base & distribution network, and overall execution expertise, to build a large and profitable Fund Management franchise

THREATS

While the reforms process has started to gain momentum, the upcoming state elections & general elections could pose political uncertainty.

Though we believe that Stressed Assets have bottomed out for the system, with even visible early signs of

recovery, global uncertainties in terms of a possible escalation in global trade war led by the US and China, further hardening of international crude oil prices, and removal of monetary accommodation by systemically important central banks globally could have short to mid-term impact on global demand, inflationary impulses, liquidity, and financial market volatility.

Domestic interest rates have already started to firm up in response to some of the above mentioned risks. The bond portfolio of banks' could potentially be vulnerable to mark-to-market losses in such an environment.

DIRECTORS' REPORT

To the Members,

Your Directors are pleased to present the Fourteenth Annual Report on business and operations of your Bank together with the audited accounts for the year ended March 31, 2018.

BUSINESS OVERVIEW AND OUTLOOK

Your Bank had another year of highly satisfactory business and financial outcomes in Financial Year ('FY') 2017-18 with a net profit of ₹42,246 million which is an increase of 26.9% from FY 2016-17. Your Bank showed continued acceleration and momentum in building a strong liability franchise with CASA ratio at 36.5% at the end of FY 2017-18. Your Bank's Retail Assets Product Suite has also built significant traction and Digitization remains a key focus to further grow the Retail and MSME book. Your Bank's branch network stood at 1,100 branches and 1,724 ATMs (including Bunch Note Acceptors) as on March 31, 2018.

STATE OF THE AFFAIRS OF THE BANK

FY 2017-18 was a significant year in your Bank's lifecycle wherein your Bank raised incremental growth capital aggregating to ₹124,150 million through various instruments, thus, demonstrating its ability to raise capital across products and cycles. Of this amount, your Bank raised an aggregate of ₹70,000 million via Basel III compliant Tier 2 bonds and ₹54,150 million via Basel III compliant AT1 bonds.

Your Bank was the first bank in India to commence operations at International Financial Services Centre ('IFSC') at GIFT City, Gujarat ('IBU'). In FY 2017-18, your Bank's IFSC Business Unit ('IBU') balance sheet size crossed USD 2.5 billion as on March 31, 2018 on the back of significant momentum from specialized knowledge sectors.

On February 06, 2018, your Bank successfully completed issuance of its maiden USD 600 million bond issuance in the international debt markets under its USD 1 billion Medium Term Note (MTN) programme which was the largest debut international bond issuance by an Indian bank including the lowest spread. The tenor of the bond is 5 years with a rating of Baa3 by Moody's Investors Service. The Bond is listed on the London Stock Exchange International Securities Market (LSE ISM), the Singapore Exchange Securities Trading Limited (SGX) and the India

International Exchange IFSC at GIFT City, Gandhinagar. The proceeds are being used to fund your Bank's IFSC Banking Unit (IBU) in Gift City and expand IBU's rapidly growing business opportunities.

Your Bank raised USD 150 million long tenor loan from Overseas Private Investment Corporation ('OPIC'), the U.S. Government's development finance institution, and Wells Fargo to increase lending to MSMEs in India. USD 50 million of the financing is being specifically used to expand support to women-owned businesses, while another USD 50 million is being used for financing MSME businesses in low-income states. This was the third such transaction between OPIC and your Bank after the first transaction of **USD 265 million OPIC facility in 2016**, towards MSME financing in India.

Your Bank entered into a **USD 400 million co-financing programme with the European Investment Bank ('EIB')** to increase lending to renewable energy power generation across India, with special focus on construction of new solar plants and wind farms across the country. This novel initiative, where EIB will lend USD 200 million to your Bank for 15 years for on-lending to the renewable sector is EIB's first partnership with your Bank and is also EIB's first-of-its-kind financing agreement for renewable energy in Asia. This demonstrates another milestone in your Bank's leadership as India's pre-eminent 'Green Bank'. The highly successful transaction showcases continued trust and enthusiasm of Global multilaterals and Finance Institutions in partnering with your Bank.

In November 2017, your Bank successfully closed a 5 year Syndicated loan facility led by CTBC Bank, Bank of Taiwan, Mega International Commercial Bank and Land Bank of Taiwan, which saw participation from 17 banks. The syndication which closed at USD 250 million, saw a total subscription of USD 355 million and ranks amongst the largest bank participation in a Taiwan loan transaction. This is your Bank's second such strategic loan syndication transaction in Taiwan after a successful maiden transaction in 2016 for a 5 year, USD 130 million syndicated loan.

Your Bank raised its **maiden one year Samurai loan** in a syndication led by Bank of Tokyo Mitsubishi UFJ, Ltd. (MUFG). The issue was successfully closed with oversubscription and saw total participation of JPY 16.5 billion (~USD 150 million) across 8 banks.

Further information on the Business overview and outlook and State of the affairs of your Bank is discussed in detail in the Management Discussion & Analysis section.

There is no change in the nature of business of your Bank for the year under review.

The Securities and Exchange Board of India ("SEBI") has prescribed two methods to account for stock grants: namely (i) the intrinsic value method; (ii) the fair value method. The Bank adopts the intrinsic value method to account for the stock options it grants to the employees. The Bank also calculates the fair value of options at the time of grant, using Black-Scholes pricing model with the following assumptions:

RISK MANAGEMENT FRAMEWORK

The Bank's Enterprise Risk Management framework encompasses the following:

- **Risk Governance Framework:** The Bank has implemented an Enterprise Risk Governance framework to ensure non-silo based management and oversight of Risk. The Bank's Risk Management philosophy is guided by the Three Lines of Defence Principle
- **First Line of Defence – Business Management:** Each business segment of the Bank has risk ownership and is responsible for assessment and management of risks and has the overall responsibility of the management and mitigation of the Risk. The segments are required to implement appropriate procedures to fulfil their risk governance responsibilities.
- **Second Line of Defence – Independent functions:** The Bank's independent oversight functions, such as, Risk Management, Compliance, Legal, Fraud Containment Unit, etc. set standards for management and oversight of risks, including compliance with applicable laws, regulatory requirements and policies.
- **Risk Management:** Risk Management establishes policies and guidelines for risk assessment and management and contributes to controls and tools to manage, measure and mitigate risks faced by the Bank.
- **Compliance:** The Compliance vertical manages adherence to applicable laws and regulatory guidelines.
- **Legal:** The Legal Risk Management division of the Bank undertakes various activities including advising business and operational management, acting as an independent control function while facilitating business, ensuring legal compliance, assisting the Board and Committees of the Board regarding analysis of laws and regulations, regulatory matters, disclosure matters, and potential risks and exposures on key litigation and transactional matters.
- **Finance:** The Finance vertical provides key data and consultation to facilitate sound decisions in support of the objectives of the Bank and the business verticals. Finance serves as an independent control function advising business management and establishing policies or processes to manage risk. It has overall responsibility for managing the Bank's balance sheet and the Bank's liquidity and interest rate risk.

- FCU & AML: The Fraud Containment Unit is responsible for prevention and detection of internal and external frauds in the areas of Liabilities, Product and Support functions. The unit conducts transaction monitoring, forensic scrutiny, employee awareness trainings and vulnerability assessments to help achieve the said objective. The Anti Money Laundering Unit is responsible for identifying and reporting of suspicious transactions as prescribed under PMLA Act/Regulators, across all Business segments of the Bank. The AML unit is equipped with qualified, trained and experienced staff, which monitors various transactions undertaken by customers with a view to combat financial crimes and prevents misuse of the accounts for money laundering.
- **Third Line of Defence** – Internal Audit: The Bank's Internal Audit function independently reviews activities of the first two lines of defence based on a risk-based audit plan and methodology approved by the Audit Committee of the Board. Internal Audit provides independent assurance to the Board, the Audit Committee, senior management and regulators regarding the effectiveness of the Bank's governance and controls designed for risk mitigation framework.

The Board of Directors of the Bank has overall responsibility of Risk Management. The Board oversees the Bank's Risk and related control environment, reviews and approves the policies designed as a part of overseeing the Risk Management practices. The Board ensures that comprehensive policies, systems and controls are in place to identify, monitor and manage material risks at a Bank-wide level, with clearly defined risk limits. The Board has laid down a Risk Appetite framework which articulates the quantum of risk the Bank is willing and able to assume in its exposures and business activities in pursuit of its strategic objectives and desired returns. The Board has also established policies governing risk management, such as, Enterprise Risk Management Policy, Reputation Risk Management Policy, Group Risk Management Policy, Credit Policy, ALM Policy, Model Risk & Governance Policy, etc.

The Board has put in place five Board level committees which *inter-alia* pertain to Risk Management, viz. Risk Monitoring Committee (RMC), Audit Committee (ACB), Fraud Monitoring Committee (FMC), Board Committee on Wilful Defaulters & Non-Cooperative Borrowers (BCWD&NCB) and Board Credit Committee (BCC) to deal with risk management practices, policies, procedures and to have adequate oversight on the risks faced by the Bank.

The Board Committees have set up various Executive level Committees for oversight over specific risks.

1. Management Credit Committee
2. Executive Credit Committee
3. Retail and Business Banking Credit Committee
4. Model Assessment Committee
5. Asset & Liability Management Committee
6. Investment & Financial Markets Management Committee
7. Operational Risk Management Committee
8. Outsourcing Management Committee
9. Business Continuity Management Committee
10. Security Council
11. Product Process Approval Committee
12. Fraud & Suspicious Transaction Monitoring Committee
13. Whistle Blower Committee
14. Enterprise Risk Management & Capital Management Committee
15. Strategy Management Committee
16. Reputation Risk Management Committee
17. Standing Committee on Customer Service
18. IT Steering Committee
19. Steering Committee for IFRS (Ind AS)
20. RBS – Reporting Oversight Committee
21. Apex Management Committee
22. Staff Accountability Committee

Risk events, potential threats, performance of the Bank vis-à-vis Risk Limits and Risk Appetite, Risk Profile dashboard covering key risk indicators, etc. are presented to these Committees, with QoQ/YoY trends highlighted, with level and direction of risk. The Bank also conducts a detailed Internal Capital Adequacy Assessment Policy ('ICAAP') review exercise to identify its Risk universe, internal controls and mitigation measures in place for the risks and capital requirements for identified risks. The ICAAP findings are presented to the RMC and the Board.

The Risk Management Unit is headed by the Chief Risk Officer ('CRO') who leads the Credit Risk (Underwriting) Unit, General Legal Counsel and other Risk Units. The CRO reports to the MD&CEO. The CRO is responsible to ensure an effective implementation of an enterprise wide risk management framework through various

risk policies, processes, limits and controls that enable prompt risk identification, accurate risk measurement and effective risk mitigation. CRO is also responsible for risk compliance and monitoring as well as reviewing and presenting various risk reports, policies and dashboards to RMC and Board.

The Risk Management Unit in the Bank is designed to establish an effective Enterprise Risk Management (ERM) framework for the Bank to ensure sustainable business growth with stability and to promote a proactive approach in identification, assessment, management and reporting of risks associated with business. The Risk Management Unit enables the Bank to successfully meet its business and financial goals, while maintaining effective Board and management oversight on Risk and Control parameters.

- **Risk Appetite:** The Bank's Risk Appetite statement details the level of aggregate risk that the Bank is willing to undertake and successfully manage in pursuit of its business goals.
- **Risk Management:** The Bank follows a standardized methodology of identification and assessment of material risks, implementation of internal controls and mitigation measures, ongoing quality reporting and monitoring of risks.
- **Capital Management and Risk-based Capital Allocation and Performance Measurement:** The Bank ensures deployment of capital within the organization based on risk tolerance, economic constraints, stakeholder needs and ensuring risk-based capital allocation and performance measurement.

LOANS, GUARANTEES OR INVESTMENTS IN SECURITIES

Pursuant to Section 186(11) of the Companies Act, 2013, loans made, guarantees given or securities provided or acquisition of securities by a Banking company in the ordinary course of its business are exempted from disclosure requirements under Section 134(3) (g) of the Companies Act, 2013.

CONTRACTS OR ARRANGEMENTS WITH RELATED PARTIES

There were no materially significant transactions with related parties including promoters, directors, key managerial personnel, subsidiaries or relatives of the Directors during the financial year which could lead to a potential conflict with the interest between the Bank and these parties. The details of the transactions with related parties, if any, were placed before the Audit Committee from time to time. There were no material individual transactions with related parties, which were not in the ordinary course of business of the Bank, nor

were there any transactions with related parties, which were not on arm's length basis. Accordingly AOC-2 is not applicable to the Bank. Suitable disclosure as required by the Accounting Standards (AS18) has been made in the notes to the Financial Statements.

Prior omnibus approval for normal banking transactions is also obtained from the Audit Committee for the related party transactions which are of repetitive nature as well as for the normal banking transactions which cannot be foreseen and accordingly the required disclosures are made to the Committee for their approval.

The policy on materiality of Related Party Transactions and also on dealing with Related Party Transactions as approved by the Audit Committee and the Board of Directors is uploaded on the website of the Bank and the link for the same is <https://www.yesbank.in/about-us/corporate-governance>

DISCLOSURES UNDER GREEN INFRASTRUCTURE BONDS

Since the first issuance by Your Bank in February 2015, green bond issuances in India are witnessing a steady growth, making India one of the top ten largest green bond markets globally. These instruments are playing a pivotal role in the realization of India's renewable energy potential and towards achieving its globally committed target of 175 GW of renewable capacity by 2022. Your Bank has issued three green bonds:

- **February 2015:** Your Bank issued India's first-ever Green Infrastructure Bonds, raising an amount of ₹1000 crore. This 10 year tenor bond witnessed strong demand from leading investors including Insurance companies, Pension & Provident Funds, Foreign Portfolio Investors, New Pension Schemes and Mutual Funds.
- **August 2015:** Your Bank raised ₹315 crore through the issue of Green Infrastructure Bonds to International Finance Corporation on a private placement basis which is the first investment by IFC in an Emerging Markets Green Bond issue in the world. The bonds are for a tenor of 10 years. IFC paid for the placement using the proceeds from the first Green Masala Bond program, that aimed at raising capital in the offshore rupee market.
- **December 2016:** Your Bank has raised ₹330 crore, through an issue of a 7-year Green Infrastructure Bonds to FMO, the Dutch Development Bank, on a private placement basis. This is FMO's first Investment in a Green Bond issued by a bank in India. FMO has paid for placement using the proceeds from their sustainability bonds issued in 2015.

The amount raised is used to finance green infrastructure projects as per 'Eligible Projects' outlined in the Bank's internal guidelines that were put in place in adherence to Green Bond Principles by international capital market

association. KPMG, India has provided assurance on the internal tracking method and the allocation of funds of green bonds for FY 2017-18.

GREEN BOND PRINCIPLES (GBP)

The Green Bond Principles are voluntary process guidelines intended for broad use by the market that recommend transparency and disclosure, and promote integrity in the development of the Green Bond market. The GBP has the following four key components that your Bank has adopted:

- **Use of Proceeds:** The proceeds raised are used in eligible project categories and include all projects funded in whole, or in part, in the fields of renewable and clean energy projects including Wind, Solar, Biomass, Hydropower and other such projects.
- **Process for Evaluation and Selection of Eligible Projects:** The process includes interactions with potential borrowers to understand the overall aspects of the project and a preliminary comparison against the eligibility criteria. Post preliminary consideration, based on the merits of the project, the evaluation moves to the risk team which assesses it and confirms the eligibility of the project. Further documentation is sought as per the Bank's policies and GBP.
- **Management of Proceeds:** Green Bond allocations to eligible projects are tracked through an MIS based asset tagging system on a quarterly basis. The unallocated proceeds, if any, are placed in liquid instruments (Government Securities) on a quarterly basis.
- **Reporting:** Communication to investors through an annual update includes:
 - List of projects to which Green Bond proceeds have been allocated to with brief description including amounts disbursed and installed capacity
 - Summary of Environmental and Social (E&S) impacts associated with these projects, if any
 - Information on investment of unallocated proceeds in liquid instruments

IMPACTS

The proceeds of the green bonds have been utilized in augmenting solar and wind energy capacities, with a significant impact of avoidance of emissions of CO₂, SO₂ and NO_x apart from other air pollutants associated with energy generation. Estimated CO₂ emission reductions are shared along with project details. Through financing solar and wind power plants, these bonds contribute to a positive environmental impact and also strengthen India's energy security by reducing fossil fuel dependency.

List of projects against which green bonds proceeds have been allocated as on March 31, 2018 is provided below:

(A) CONSERVATION OF ENERGY

- **Environmental stewardship in the financial sector – ISO 14001:2015 Environmental Management System (EMS) certification for the Bank embarked on the 5th year**

Your Bank, since inception, has embedded concept of Natural Capital as one of its core values. The Bank has one of the largest Renewable Energy lending portfolios among private sector banks, and is the first Indian bank to be ISO 14001 certified for Environmental Management System and was the first Bank globally to migrate to the latest ISO 14001:2015 version of the standard in 2017 is the first Indian signatory to the Natural Capital Finance Alliance, is recognized as a Climate Disclosure Leader, and drives environmental sustainability initiatives as its CSR focus.

In line with its commitment to achieve internal natural resource consumption efficiencies and minimizing its carbon footprint, your Bank completed phase V of the certification in the reporting period and has 744 locations, including 688 metro-urban branches, 50 rural branches, 4 corporate offices and YES Securities certified as per ISO 14001:2015 standard, the highest number for certified facilities for any BFSI organization in India.

The Bank's Environmental Management Policy, revised in 2016, outlines the Bank's commitment to achieve a 10% reduction in its carbon emissions intensity annually through organization-wide environment management initiatives and employee engagement.

With digitization as a key focus area, your Bank's environment management policy highlights stronger commitment to environment protection and commitment to source renewable energy for greening the Bank's operation with strategic objectives to –

- Improve key resource efficiency, such as usage of electricity, fossil fuel, paper and water with Digitization of processes
- Conserve natural resources by adopting the '3-R' (reduce, reuse and recycle) approach towards prevention of pollution and disposal of waste, especially electronic waste, in line with regulatory requirements or industry best practices

- Explore renewable energy sourcing for greening the Bank's operations and adopt green building principles
- Set, monitor and review the overall Environmental Management System (EMS) objectives and targets on an ongoing basis towards achieving continuous improvement in environmental performance on digital platform 'Resustain'
- Promote 'green procurement' to influence strategic suppliers sustainable sourcing of product and services
- Integrate energy and environmental considerations in the design of new infrastructural facilities

Your Bank has undertaken environmental mitigation initiatives by aggressive awareness creation around electricity, paper, water and diesel conservation in day-to-day activities through Bank-wide circulation of resource conservation mailers, signage and posters. Periodical trainings on Environmental Management System through comprehensive e-learning module, workshops, and involvement of employees in idea generation and implementation is ensured.

I. THE STEPS TAKEN OR IMPACT ON CONSERVATION OF ENERGY

- The Bank has been migrating to LED lighting in phases. As on March 31, 2018, 4,403 LED lights have been installed at 66 new branch locations and 2 corporate locations with an investment of ₹51.22 lakh, with a potential saving of 3,19,217.5 kwh of energy consumption and ₹31.8 lakh in monetary savings annually
- Similarly power factors at branches are being monitored above 0.9 with the help of capacitor bank and monitoring panels are installed and reduce risk of penalty levied by DISCOMs
- The Bank is in the process of phasing out air-conditioning systems that use ozone depleting coolants, and in the current reporting cycle, the Bank initiated replacement of all air conditioners that are more than 10 years old, with systems that use eco-friendly coolants
- The air conditioning replacement model has been developed with a criteria for replacing old models with an energy consumption of 1.6 – 1.8 times of peak load and temperature control with dedicated AHU units for centralized AC systems
- Retrofit solutions for HVAC systems which have a potential saving of 10% to 15% would be incorporating in a phased manner over a 2

year period. Maintaining AC temperature above 25° Celsius at all times has helped the Bank to achieve 3% saving of hourly kwh consumptions

- 100% of YES BANK branches are issued Petro cards for procurement of diesel, which has resulted into enhanced transparency, reduced wastages and cost saving of 2% over last financial year
- YES BANK's energy management initiatives aim at reducing 15-20% energy consumption by 2020 from sustainable facility management

II. THE STEPS TAKEN BY THE BANK FOR UTILIZING ALTERNATE SOURCES OF ENERGY

Your Bank has explored the potential of using alternate sources of energy through open access and your Bank would continue to explore alternative sources of energy in future.

REASONS FOR NOT SPENDING PRESCRIBED CSR EXPENDITURE:

Your Bank with its deep focus on positively impacting society and environment, continued to scale up its footprint on socio-environmental issues of national importance like water security, education, livelihood enhancement, financial literacy and environmental sustainability.

Under its flagship Corporate Social Responsibility ('CSR') program on 'Access to safe and clean drinking water', it touched more than 1 lakh lives per day, across 405 railway stations and community centres, creating a multiplier positive impact on health, education and livelihoods. Since the start of this project in Financial Year 2015-16, in partnership with Indian Railways and local NGOs, the Bank has touched nearly 8 crore lives. The MSME sector which is a critical contributor to the Indian economy, was supported by your Bank, by engaging with 18,544 MSMEs on energy efficiency, financial literacy, & occupational health and safety, thereby feeding into India's larger sustainable development goals and transiting towards a low carbon economy. Under YES Community, the Bank delivered on exponential impact by educating 32 lakh participants on financial literacy, Swachh Bharat, road safety, energy conservation and creation of a carbon sink through tree plantation.

In Financial Year 2017-18, the Bank had budgeted to spend ₹77.22 crore (2% of the average net profits made during the 3 preceding financial years, i.e. 2014-15, 2015-16 and 2016-17) on livelihood and water security, environmental sustainability and, arts and

culture, under its CSR activities. Its actual spend was ₹45.21 crore (1.17%); an increase of 8.5% over last year's spend of ₹41.66 crore in Financial Year 2016-17. The lower spend *vis-à-vis* the budget was mainly on the account of natural calamities like cyclone Ockhi in project areas, lack of ability of implementation partners to get timely approvals for infrastructure setup and multi-year nature of certain projects. Investment of significant time and resources to consolidate its projects under reliable implementation partners, has also resulted in prudent fund allocation through the year. This has ensured maximum impact, transparency and good governance.

As a public trust institution, your Bank exercises discretion in undertaking and investing in projects that are unique, scalable and sustainable, with a large focus on on-ground impact. Your Bank has been mindfully focusing on climate action through lending, investing and raising capital towards mitigation, adaptation and resilience, through innovative mechanisms thus meeting its larger objective of social & environmental impact. It continued to serve the broader community through livelihood enhancement programs, financial inclusion with migrants and investing in large scale projects on sustainable energy, which are beyond the ambit of the definition of CSR under the Companies Act, 2013.

The CSR Committee confirms that the implementation and monitoring of CSR Policy, is in compliance with CSR objectives and Policy of the Bank.

REPORT ON CORPORATE GOVERNANCE

(The Report on Corporate Governance forms part of the Directors' Report for the year ended March 31, 2018)

I BANK'S PHILOSOPHY ON CODE OF GOVERNANCE

YES BANK is committed to set the highest standards of Corporate Governance right from its inception benchmarked with the best in class practices across the globe. Effective Corporate Governance is the manifestation of professional beliefs and values, which configures the organizational values, credo and actions of its employees. Transparency and accountability are the fundamental principles to sound Corporate Governance, which ensures that the organization is managed and monitored in a responsible manner for 'creating and sharing value'. It is a key element to carry on business operations based on the underlying principles of integrity, ethics, transparency and accountability. Over the last few decades, corporate governance is getting ever increasing importance across the globe. Systems and policies are required to be upgraded regularly, to meet the challenges of rapid growth in a dynamic business environment.

YES BANK believes that there is a need to view Corporate Governance as more than just regulatory requirements as there exists a fundamental link with the organization of business, corporate responsibility and shareholder's wealth maximization. Therefore, your Bank is articulating a multi-stakeholder model (including shareholder value) of accountability that will manage the symbolic relationship between the various stakeholders. This approach will be central to the day-to-day functioning of your Bank and in implementation of its business strategy.

As part of the Bank's objective and commitment to implement best practices in Corporate Governance, it is felt necessary to codify these Governance Practices of the Bank by framing the 'Code for Corporate Governance' as another milestone towards its endeavor for achieving higher governance standards. Accordingly, the Board has adopted the 'Code for Corporate Governance'.

We believe that an active, well-informed and independent Board is necessary to ensure the highest standards of Corporate Governance. It is well-recognized that an effective Board is a pre-requisite for a strong and effective Corporate Governance.

At YES BANK, the Board of Directors (the 'Board') is at the core of our Corporate Governance practices and oversees how the Management serves and protects the long-term interests of our stakeholders.

Our Corporate Governance framework ensures that we make timely disclosures and share accurate information regarding our financials and performance, as well as the leadership and governance of the Bank.

ENVIRONMENTAL, SOCIAL & GOVERNANCE RATING

Corporate Governance is emerged as an essential tool in the organizational management globally. Strong corporate governance practices have become crucial in achieving competitive advantage and positively impacting profitability. YES BANK endeavors to benchmark itself with the best of companies in India and globally, to maintain the highest ratings for its Environmental, Social and Governance (ESG) practices. We are pleased to advise you that in FY 2017-18, your Bank has become the first Indian bank to be included in the three most prestigious global sustainability indices – Dow Jones Sustainability Indices – Emerging Markets Index, MSCI All Country World Index (ACWI) ESG Leaders & SRI Indexes and FTSE4Good Emerging Index.

YES BANK continued to be the only Indian Bank included as an index component in Dow Jones Sustainability Indices ('DJSI') Emerging Markets for the third consecutive year, along with 49 global banks. The selection process included the world's largest 3,400 companies, which underwent a rigorous assessment on 600 data points across Economic, Social & Environmental parameters, including Corporate Governance, Risk Management, Climate Strategy, Environmental Policy & Management Systems and Community Impact.

The Bank also made it to the MSCI All Country World Index (ACWI) – ESG Leaders and MSCI ACWI Socially Responsible Investment Indices. The ACWI index consists of companies from 23 developed markets and 24 emerging markets. YES BANK's ESG performance is amongst the top 12% of the global financial industry and highest compared to the

top-10 largest banks globally. It highlights the Bank's key strengths in corporate governance and access to finance, demonstrating a strong ability to capitalize on access to finance theme, through product and distribution channels, innovation targeting SMEs and rural areas, with the opportunity to expand its services to under-banked population.

Additionally, your Bank was also selected as an index constituent of the FTSE4Good Emerging Index. YES BANK was rated above the threshold for companies in Emerging markets as well as that of Developed markets, by FTSE Russell.

Your Bank has closely aligned its corporate governance practices with shareholders' interests, undertaking in-depth reporting and disclosures on all key aspects of the business. Your Bank is a benchmark institution for Triple Bottom Line accounting and reporting in India and in FY 2017-18, became the first Indian bank to release a Sustainability report based on GRI Standards, while continuing to adhere to Integrated Reporting guidelines of the International Integrated Reporting Council. Your Bank has also received ISO 27001 certification for its information security management system and data privacy policies.

C) REMUNERATION POLICY

The Bank has formulated and adopted a Remuneration Policy for its Directors, Key Managerial Personnel and employees of the Bank, in terms of Section 178 of the Companies Act, 2013, the relevant Rules made thereunder, Regulation 19 of the Listing Regulations and Guidelines issued by RBI, in this regard, from time to time.

Remuneration Policy for employees of the Bank

The objective of the Compensation and Benefits Policy of the Bank is to provide a fair and transparent structure that helps in retaining and acquiring the talent pool critical to build competitive advantage and an Employer brand under adequate supervision and control. The Policy of the Bank is aligned to the organizational values aimed at encouraging Professional Entrepreneurship and reinforcing a strong culture promoting meritocracy, performance, potential and prudent risk taking. The Bank's compensation framework is aligned with the performance management system and differentiates pay appropriately amongst its executives based on degree of contribution, skill and availability of talent owing to competitive market forces by taking into account factors such as role, skills, competencies, experience and grade/seniority. Your Bank would also strive to achieve the long-term association with its employees by providing long-term wealth creation opportunities through stock option schemes.

Remuneration Policy for Directors

The Bank has a Board approved Remuneration Policy for Directors including Chairman and is being reviewed on an annual basis. The details of the said policy are as follows:

Remuneration of Executive Directors

The Bank has a Board approved 'Compensation & Benefits Policy' ('C&B Policy') which deals with the Compensation & Benefits of the Managing Director & CEO and the Whole-time Directors. The remuneration of all the Executive Directors shall be governed by the C&B Policy.

The remuneration of the Executive Directors is recommended by the N&RC to the Board for approval after considering the factors prescribed under the C&B Policy. The Board considers the recommendations of N&RC and approves the remuneration, with or without modifications, subject to shareholders' and regulatory approvals.

The remuneration payable to Executive Directors is subject to prior approval of the RBI. Therefore, the remuneration or any revision in remuneration to Executive Directors is payable only after receipt of the approval from RBI.

Remuneration of Chairman

The N&RC recommends the remuneration of the Non-Executive Chairman to the Board which is considered and approved by the Board subject

to Shareholders' and regulatory approvals. The N&RC, while recommending the remuneration of the Non-Executive, Part-time Chairman considers the following factors:

- (a) Function, Role and Responsibilities of the Chairman,
- (b) Comparison with the peer banks,
- (c) Industry benchmarking,
- (d) Regulatory guidelines as applicable, etc.

The remuneration payable to the Chairman is subject to prior approval of the RBI. Therefore, the remuneration or any revision in remuneration of the Chairman is payable only after receipt of the approval from RBI.

Remuneration of Non-Executive Directors (NEDs)

Sitting Fees & Reimbursement of expenses

The NEDs are paid sitting fees for attending each meeting of the Board of Directors or any committee thereof as approved by the Board, within the permissible limit prescribed under the Companies Act, 2013, Listing Regulations and other regulatory/statutory guidelines, as amended from time to time. Any change in sitting fees shall be recommended by the N&RC and approved by the Board of Directors of the Bank. The N&RC considers the following factors while recommending the change in the sitting fees to the Board:

- (a) Contribution expected from Directors considering size and complexity of organization,
- (b) Comparison with the peer Banks / Industry benchmarking,
- (c) Regulatory guidelines as applicable, etc.

The NEDs are entitled to reimbursement of expenses for participation in the meeting of the Board and Committees thereof.

The Board while approving the revision in the sitting fees payable to Directors for attending the meeting of the Board and Committees thereof, considers the recommendation of the N&RC.

Payment of Profit-based Commission to NEDs

RBI vide Circular No. DBR. No.BC.97/29.67.001/2014-15 dated June 01, 2015 issued Guidelines on Compensation of Non-Executive Directors of Private Sector Banks. In terms of these guidelines, the Non- Executive Directors of the Bank other than Part-time Chairman may be paid compensation in the form of profit related Commission in addition to the sitting fees.

The N&RC shall recommend the compensation in form of profit-based commission for each of the Non-Executive Director other than Non-Executive Part-time Chairman to the Board, basis the Limits as per regulatory requirements and criteria for payment of profit-based Commission as under:

- Outcome of the annual performance evaluation;
- attendance and participation of such Non-Executive Director at the Board / Board Committee Meetings;
- Comparison with the peer banks;
- Industry benchmarking;
- Regulatory guidelines as applicable, etc.

The Board, thereafter considering the recommendations of N&RC, may approve the same subject to Shareholders' approval.

The payment of profit-based commission to Non-Executive Directors excluding Part-time Chairman has also been approved by the Shareholders of the Bank at 12th AGM held on June 07, 2016 for each year commencing from April 01, 2015 upto a maximum of Rupees Ten Lakh per NED which is the maximum amount permitted by the RBI and within the overall cap of one per cent (1%) of the net profits of the Bank, as computed in the manner laid down in Section 198 of the Companies Act, 2013.

The Bank does not grant any Stock Options to any Directors of the Bank.

V DISCLOSURES

A) SUBSIDIARY COMPANIES

The Bank did not have any material subsidiary having investment of the Bank during the financial year 2017-18. The Bank has formulated a policy for determining 'material' subsidiaries pursuant to the provisions of the Listing Regulations and the same is displayed on the website of the Bank <https://www.yesbank.in/about-us/corporate-governance>.

The Bank has three subsidiaries as of March 31, 2018 viz., YES Securities (India) Limited ('YSIL'), YES Asset Management (India) Limited ('YAMIL') and YES Trustee Limited ('YTL') and the Audited Annual Financial Statements of all the subsidiaries have been provided to the Audit Committee of the Board of the Bank. Further, the minutes of the meetings of the Board of subsidiary companies of the Bank are placed in the meetings of the Board of Directors of the Bank for review. Statement of significant transactions/arrangements entered into by the unlisted subsidiary companies of the Bank are also tabled at the meetings of the Board of Directors of the Bank, for its review.

B) RELATED PARTY TRANSACTIONS

There were no materially significant transactions with related parties including promoters, directors, key managerial personnel, subsidiaries or relatives of the Directors during the financial year which could lead to a potential conflict with the interest between the Bank and these parties. The details of the transactions with related parties, if any, were placed before the Audit Committee from time to time. There were no material individual transactions with

related parties, which were not in the ordinary course of business of the Bank, nor were there any transactions with related parties, which were not on arm's length basis. Suitable disclosure as required by the Accounting Standards (AS18) has been made in the notes to the Financial Statements.

The Board of Directors has formulated a policy on materiality of Related Party Transactions and also on dealing with Related Party Transactions pursuant to the provisions of the Companies Act, 2013 and Listing Regulations. The same is displayed on the website of the Bank at <https://www.yesbank.in/about-us/corporate-governance>.

C) MD & CEO / CFO CERTIFICATION

The MD & CEO and the Chief Financial Officer ('CFO') have issued certificate pursuant to the provisions of Regulation 17 of the Listing Regulations certifying that the financial statements do not contain any materially untrue statement and these statements represent a true and fair view of the Company's affairs. They also certify that, to the best of their knowledge and belief, no transactions entered into during the year were fraudulent, illegal or violative of the code of conduct of the Bank, they are responsible for establishment and maintenance of the Internal Financial Controls for financial reporting and they have indicated to the auditors and the Audit Committee about any significant changes in internal control over financial reporting, significant changes in the accounting policies and instances of significant frauds, if any, which they were aware. The said certificate is annexed and forms part of this Annual Report.

D) CODE OF CONDUCT AND ETHICS

The Board has formulated and adopted Code of Conduct and Ethics for the Board of Directors and Senior Management. The said code has been reviewed and approved by the Board at its meeting held on April 26, 2018 and has been hosted on the website of the Bank at <https://www.yesbank.in/about-us/corporate-governance>.

The confirmation from the Managing Director & CEO of the Bank regarding compliance with the Code of Conduct and Ethics by all the Directors and Senior Management is annexed and forms part of this Report.

E) CODE OF CONDUCT FOR PREVENTION OF INSIDER TRADING

The Bank has formulated 'Code of Conduct for Prevention of Insider Trading' (the 'Code') and 'Code of Internal Procedures and Conduct for Prevention of Insider Trading in Securities of the Bank' in accordance with the requirements of the SEBI (Prohibition of Insider Trading) Regulations, 2015 and Companies Act, 2013 applicable to all Promoters, Directors, KMPs, and Employees of the Bank and its Subsidiaries and their Immediate Relatives, and 'Connected Persons' with a view to regulate trading in securities of the Bank.

The Code requires Designated Employees to obtain pre-clearance for trading in the Bank's securities beyond threshold limits during the calendar quarter and also prohibits them from entering into any Contra Trade transactions. Further, it prohibits trading in Banks securities viz., Buy, Sale or Pledge of Securities, etc. by the Directors, KMPs, Connected Persons and the Designated Employees of the Bank and its subsidiaries while in possession of or having access to the Unpublished Price Sensitive Information (UPS) and also during the Trading Window closure period.

The Company Secretary of the Bank acts as 'Compliance Officer' in terms of the said Code and is responsible for implementation and overseeing compliance with the Code of Conduct across the Bank.

The Bank has procured a software viz., YES Vigilante which facilitates employees in reporting of transactions in securities of the Bank from time to time, and also the Compliance Officer in periodically monitoring

of transactions done by Insiders and to ensure compliance with the SEBI (Prohibition of Insider Trading) Regulations, 2015. YES Vigilante allows employees to submit online disclosures pertaining to transactions in the securities of the Bank i.e. submission of initial and continual disclosures and obtaining of pre-clearances by the Designated Employees.

The Bank has also put in place a code of conduct for employees of the certain departments for trading in securities of other listed entities or to be listed entities ('Grey List Entities') as the respective departments may have unpublished price sensitive information of Grey List entities due to Business Relationship, Exposures, etc.

F) WHISTLE BLOWER POLICY

In compliance with the provisions of Listing Regulations, the Companies Act, 2013 and other applicable laws and in accordance with principles of good corporate governance, the Bank has devised and implemented a vigil mechanism, in the form of 'Whistle Blower Policy'. The policy devised is also aligned to the recommendations of Protected Disclosure Scheme for Private Sector Banks and Foreign Banks, instituted by RBI.

This policy enables a Whistle Blower to raise concerns relating to reportable matters (as elucidated in the said policy) such as breach of Bank's Code of Conduct, fraud, bribery, corruption, employee misconduct, illegality, health & safety, environmental issues and wastage/misappropriation of bank funds/assets, etc., without fear of reprisals and to provide for independent investigation. The framework of the policy endeavors to simplify and smoothen the process for Whistle Blower and foster responsible reporting, a Whistle Blower cannot resort to the Whistle Blower Policy to report his/her personal grievances.

The policy has been implemented through a web-based 'Corporate Whistle Blower Initiative' (CWI) portal, which is an independent online reporting service aimed at facilitating secure and anonymous communication between the Bank and Whistle Blower.

The policy has provisions to safeguard Whistle Blower against victimization. As a responsible and vigilant organization, the Bank encourages

responsible and fearless reporting of genuine concerns or grievances and also provides for direct access to the Chairman of the Audit Committee of the Board, in exceptional cases.

The functioning of the Vigil Mechanism is reviewed by the Audit Committee of the Board regularly. None of the Whistle Blowers have been denied access to the Audit Committee of the Board. The details of the Whistle Blower Policy are available on the website of the Bank <https://www.yesbank.in/about-us/corporate-governance>.

G) DIVIDEND DISTRIBUTION POLICY

In terms of the provisions of Regulation 43A of the Listing Regulations, the Board of Directors of the Bank had approved the Dividend Distribution Policy in line with the parameters prescribed thereunder for payment / distribution of dividend to the shareholders. The said Policy has been hosted on the Bank's website under Corporate Governance Section and can be accessed at the link <https://www.yesbank.in/about-us/corporate-governance>.

It may be noted that the said policy was uploaded on the website of the Bank in the FY 2016-17, however, inadvertently, the link for the same was not given in the Annual Report of the Bank for FY 2016-17. Hence, the above link may be considered as 'Addendum' to the Annual Report of the Bank for FY 2016-17.

H) INTEGRATED REPORTING

SEBI issued a circular dated February 6, 2017 on 'Integrated Reporting by Listed Entities' advising top-500 listed entities, which are required to prepare Business Responsibility Report, to adopt Integrated Reporting ('IR') on a voluntary basis from the FY 2017-18 onwards. As a frontrunner in mainstreaming triple bottom line reporting, your Bank was India's 1st Bank to release its annual report in line with International Integrated Reporting Council's Integrated Reporting (IR) guidelines with Annual Report FY 2015-16. Your Bank continues to publish its annual report in line with IR guidelines for FY 2017-18. Additionally, the Bank's Sustainability Report since FY 2015-16 is in alignment with IR guidelines, while adhering to globally accepted sustainability reporting guidelines by Global Reporting Initiative ('GRI'). The Bank's Sustainability Report is hosted on the Bank's website at <https://www.yesbank.in/about-us/investor-relations/yes-bank-sustainability-report>.

I) STRICTURES AND PENALTIES

[#] Pursuant to the approval granted by the Board of Directors of the Bank on July 26, 2017 and the Shareholders of the Bank through Postal Ballot on September 8, 2017, each Equity Share of the Bank having face value of ₹10 (Rupees Ten only) each has been sub-divided into 5 (Five) Equity Shares having face value of ₹2 (Rupees Two only) each fully paid-up w.e.f. September 22, 2017 being the Record Date.

B) DIVIDEND

The Board of Directors of the Bank at its meeting held on April 26, 2018 has recommended payment of dividend of ₹2.70 per equity share (135%) of face value of ₹2 each fully paid-up for the financial year ended March 31, 2018, for the approval of the Members at the 14th Annual General Meeting of the Bank (Previous Year ₹12 per equity share (120%) of face value ₹10 each fully paid-up). If approved, the dividend shall be paid on or after June 13, 2018.

Modes of making payment of Dividend through electronic mode:

As mandated in Listing Regulations, listed companies shall require to make all payments to investors including dividend to the shareholders,

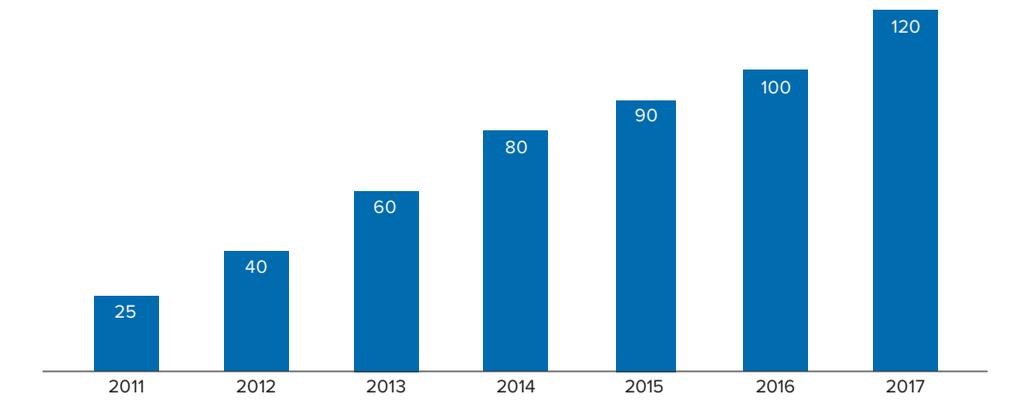

by using any of the electronic mode of payment facility approved by the Reserve Bank of India viz., NACH / Direct Credit / RTGS / NEFT, etc.

In order to receive the dividend on time, all the eligible shareholders holding shares in demat mode are requested to update with their respective Depository Participants, before May 31, 2018, their correct Bank Account Number, including 9 Digit MICR Code and 11 Digit IFSC Code, e-mail ID and Mobile numbers. This will facilitate the remittance of the dividend amount directly in the bank account of the shareholder electronically.

In case dividend payment by electronic mode is not executed for any reason, the Bank shall issue a Demand Draft.

The Dividend History of the Bank for past seven years is given below:

FY 2011-2017 (%)

Unclaimed Dividend

In terms of the provisions of Section 124(5) of the Companies Act, 2013 read with the Investor Education and Protection Fund Authority (Accounting, Audit, Transfer and Refund) Rules, 2016, as amended from time to time, the Bank is statutorily required to transfer to the Investor Education & Protection Fund ('IEPF'), established by the Central Government, all dividends remaining unpaid / unclaimed for a period of 7 (Seven) years, thereon,

from the date of transfer of such Dividend to the Unpaid Dividend Account. Once such amounts are transferred to IEPF, no claim of the shareholder shall lie against the Bank. However, shareholders may claim their unclaimed amount as per the procedures / guidelines issued by the Ministry of Corporate Affairs (MCA). Dividends for and upto the financial year ended March 31, 2010 have already been transferred to the IEPF and dividend for the financial year ended March 31, 2011 shall be transferred to IEPF after the due date i.e. July 27, 2018.

The details of unclaimed dividends for the financial year 2010-11 onwards and the last date for claiming such dividends are given below:

Dividend for the year ended	Date of Declaration of Dividend	Last date of claiming Dividend
March 31, 2011	June 28, 2011	July 27, 2018
March 31, 2012	July 14, 2012	August 12, 2019
March 31, 2013	June 8, 2013	July 09, 2020
March 31, 2014	June 14, 2014	July 17, 2021
March 31, 2015	June 06, 2015	July 05, 2022
March 31, 2016	June 07, 2016	July 06, 2023
March 31, 2017	June 06, 2017	July 05, 2024

Shareholders who have not encashed their dividend warrants relating to the dividends as specified above are advised to send their request letter for issue of demand drafts to Karvy Computershare Private Limited or Nodal

officer of the Bank Mr. Shivanand Shettigar. The details of unpaid/unclaimed dividends are available on the website of the Bank <https://www.yesbank.in/about-us/investors-relation/shareholder-information/ir-regulations>

Transfer of 'Underlying Shares' in respect of which dividend has not been claimed for seven consecutive years or more, to the IEPF

In terms of Section 124 (6) of the Companies Act, 2013 read with Investor Education and Protection Fund Authority (Accounting, Audit, Transfer and Refund) Rules, 2016, as amended from time to time, members are requested to note that the shares in respect of which dividends have been unpaid or unclaimed for seven consecutive years or more shall be credited to the IEPF Demat Account maintained with depositories. Upon transfer of such shares, all benefits (eg. bonus, spilt etc.), if any, accruing on such shares shall also be credited to the IEPF Demat Account and the voting rights on such shares shall remain frozen till the rightful owner claims the shares.

In this connection, the Bank had sent intimation letters to members in respect of the shares on which dividend had remained unpaid or unclaimed for seven consecutive years or more, requesting them to claim such dividend so as to avoid the corresponding shares being transferred to the IEPF authority. Simultaneously, an advertisement to this effect was published in leading English and vernacular newspapers.

The aforesaid Rules also prescribe the procedure to be followed by an investor to claim the Shares / Dividend amount transferred to IEPF. Shares which are transferred to the IEPF Demat Account can be claimed back by the shareholder from IEPF Authority by following the procedure prescribed under the aforesaid rules.

The information pertaining to unpaid / unclaimed dividends for last seven years and the details of such members whose unclaimed dividend / shares have been transferred to IEPF Authority is also available on the Bank's website <https://www.yesbank.in/about-us/investors-relation/shareholder-information/ir-regulations>.

Intimation to the Investors for claiming of Dividends / Equity Shares

Intimation has been sent to the relevant shareholders at regular intervals for encashing of unclaimed dividend on equity shares declared by the Bank from time to time and corresponding equity shares.

C) SHARES LYING IN THE UNCLAIMED SUSPENSE ACCOUNT

5,400 Equity shares of the Bank were lying in the 'YES BANK Limited Unclaimed Suspense Account' in the name of 36 shareholders at the beginning of the FY 2017-18.

During the year, the Bank has not received any request for claiming these shares and in terms of Section 124 (6) of the Companies Act, 2013 read with Investor Education and Protection Fund Authority (Accounting, Audit, Transfer and Refund) Rules, 2016, the shares lying in the Unclaimed Suspense Account have been transferred to IEPF Demat Account.

In view of the above, as on March 31, 2018, there were no shares lying in the Unclaimed Suspense Account.

INDEPENDENT AUDITOR'S REPORT

To,
The Members of YES BANK Limited

REPORT ON THE AUDIT OF STANDALONE FINANCIAL STATEMENTS

We have audited the accompanying standalone financial statements of YES BANK LIMITED (the 'Bank'), which comprise the Balance Sheet as at 31 March 2018, the Profit and Loss Account, the Cash Flow Statement for the year then ended, and notes to the standalone financial statements, including a summary of the significant accounting policies and other explanatory information.

MANAGEMENT'S RESPONSIBILITY FOR THE STANDALONE FINANCIAL STATEMENTS

The Bank's Board of Directors is responsible for the matters stated in Section 134(5) of the Companies Act, 2013 (the 'Act') with respect to the preparation of these standalone financial statements that give a true and fair view of the state of affairs, profit and cash flows of the Bank in accordance with the accounting principles generally accepted in India, including the Accounting Standards prescribed under Section 133 of the Act, provisions of Section 29 of the Banking Regulation Act, 1949 and the circulars, guidelines and directions issued by the Reserve Bank of India ('RBI') from time to time.

This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the Bank and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and the design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the standalone financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the standalone financial statements, management is responsible for assessing the Bank's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and

using the going concern basis of accounting unless management either intends to liquidate the Bank or to cease operations, or has no realistic alternative but to do so.

AUDITOR'S RESPONSIBILITY

Our responsibility is to express an opinion on these standalone financial statements based on our audit.

We have taken into account the provisions of the Act, the accounting and auditing standards and matters which are required to be included in the audit report under the provisions of the Act and the Rules made thereunder.

We conducted our audit of standalone financial statements of the Bank in accordance with the Standards on Auditing (the 'Standards') specified under Section 143(10) of the Act. Those Standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the standalone financial statements are free from material misstatements.

An audit involves performing procedures to obtain audit evidence about the amounts and the disclosures in the standalone financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the standalone financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the Bank's preparation of the standalone financial statements that give a true and fair view in order to design audit procedures that are appropriate in the circumstances. An audit also includes evaluating the appropriateness of the accounting policies used and the reasonableness of the accounting estimates made by the Bank's Directors, as well as evaluating the overall presentation of the standalone financial statements.

We are also responsible to conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Bank's ability to continue as a going concern. If we conclude that a material uncertainty exists,

INDEPENDENT AUDITOR'S REPORT

we are required to draw attention in the auditor's report to the related disclosures in the standalone financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of the auditor's report. However, future events or conditions may cause an entity to cease to continue as a going concern.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the standalone financial statements.

OPINION

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid standalone financial statements give the information required by the Banking Regulation Act, 1949 as well as the Act in the manner so required for banking companies and give a true and fair view in conformity with the accounting principles generally accepted in India, of the state of affairs of the Bank as at 31 March 2018, and its profit and its cash flows for the year ended on that date.

REPORT ON OTHER LEGAL AND REGULATORY REQUIREMENTS

The Balance Sheet and the Profit and Loss Account have been drawn up in accordance with the provisions of Section 29 of the Banking Regulation Act, 1949 read with Section 133 of the Act.

As required by sub-section (3) of Section 30 of the Banking Regulation Act, 1949, we report that:

- (a) We have obtained all the information and explanations which, to the best of our knowledge and belief, were necessary for the purpose of our audit and have found them to be satisfactory;
- (b) The transactions of the Bank, which have come to our notice, have been within the powers of the Bank; and
- (c) Since the key operations of the Bank are automated with the key applications integrated to the core banking systems, the audit is carried out centrally as all the necessary records and data required for

the purposes of our audit are available therein. However, during the course of our audit we have visited 28 branches.

REPORT ON OTHER LEGAL AND REGULATORY REQUIREMENTS

Further, as required by Section 143 (3) of the Act, we report that:

- (a) We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purpose of our audit;
- (b) In our opinion, proper books of account as required by law have been kept by the Bank so far as it appears from our examination of those books;
- (c) The Balance Sheet, the Profit and Loss Account and the Cash Flow Statement dealt with by this report are in agreement with the books of account;
- (d) In our opinion, the aforesaid standalone financial statements comply with the Accounting Standards specified under Section 133 of the Act, to the extent they are not inconsistent with the accounting policies prescribed by RBI;
- (e) On the basis of the written representations received from the directors as on 31 March 2018 taken on record by the Board of Directors, none of the directors is disqualified as on 31 March 2018 from being appointed as a director in terms of Section 164 (2) of the Act.
- (f) With respect to the adequacy of the internal financial controls with reference to the standalone financial statements of the Bank and the operating effectiveness of such controls, refer to our separate Report in 'Annexure A' and;
- (g) With respect to the other matters to be included in the Auditor's Report in accordance with Rule 11 of the Companies (Audit and Auditors) Rules, 2014, in our opinion and to the best of our information and according to the explanations given to us:

- (i) The Bank has disclosed the impact of pending litigations on its financial position in its standalone financial statements - Refer Note 18.7.17 to the standalone financial statements;
- (ii) The Bank has made provision, as required under the applicable law or accounting standards, for material foreseeable losses, if any, on long-term contracts including derivative contracts - Refer Note 18.7.15 to the standalone financial statements;
- (iii) There has been no delay in transferring amounts, required to be transferred, to the Investor Education and Protection Fund by the Bank.
- (iv) The disclosures required on holdings as well as dealing in Specified bank notes during the period from 8 November 2016 to 30 December 2016 as envisaged in notification G.S.R. 308(E) dated 30 March 2017 issued by the Ministry of Corporate Affairs is not applicable to the Bank.

ANNEXURE A

TO THE INDEPENDENT AUDITOR'S REPORT OF EVEN DATE ON THE STANDALONE FINANCIAL STATEMENTS OF YES BANK LIMITED

YES BANK Limited

Report on the Internal Financial Controls under clause (i) of sub-section 3 of Section 143 of the Companies Act, 2013

We have audited the internal financial controls over financial reporting of YES BANK Limited (the 'Bank') as at 31 March 2018 in conjunction with our audit of the standalone financial statements of the Bank for the year ended on that date.

MANAGEMENT'S RESPONSIBILITY FOR INTERNAL FINANCIAL CONTROLS

The Bank's Board of Directors is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Bank considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the 'Guidance Note') issued by the Institute of Chartered Accountants of India (the 'ICAI'). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to Bank's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013 (the 'Act').

AUDITOR'S RESPONSIBILITY

Our responsibility is to express an opinion on the Bank's internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note and the Standards on Auditing (the 'Standards'), issued by the ICAI and deemed to be prescribed under section 143(10) of the Act, to the extent applicable to an audit of internal financial controls. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate

internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Bank's internal financial controls system over financial reporting.

MEANING OF INTERNAL FINANCIAL CONTROLS OVER FINANCIAL REPORTING

A bank's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A bank's internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the bank; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the bank are being made only in accordance with authorizations of management and directors of the bank; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the bank's assets that could have a material effect on the financial statements.

INHERENT LIMITATIONS OF INTERNAL FINANCIAL CONTROLS OVER FINANCIAL REPORTING

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

OPINION

In our opinion, the Bank has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at 31 March 2018, based on the internal control over financial reporting criteria established by the Bank considering the essential components of internal control stated in the Guidance Note issued by the ICAI.

18. SIGNIFICANT ACCOUNTING POLICIES AND NOTES FORMING PART OF THE ACCOUNTS FOR THE YEAR ENDED MARCH 31, 2018

18.1 BACKGROUND

YES BANK Limited (the 'Bank' or 'YES BANK') is a private sector bank promoted by the late Mr. Ashok Kapur and Mr. Rana Kapoor. YES BANK is a publicly held bank engaged in providing a wide range of banking and financial services. YES BANK is a banking company governed by the Banking Regulation Act, 1949. The Bank was incorporated as a limited company under the Companies Act, 1956 on November 21, 2003. The Bank received the licence to commence banking operations from the Reserve Bank of India ('RBI') on May 24, 2004. Further, YES BANK was included to the Second Schedule of the Reserve Bank of India Act, 1934 with effect from August 21, 2004. Also the Bank has a branch at International Financial Services Centre ('IFSC') at GIFT City, Gujarat ('IBU'). The Bank classifies transactions undertaken by IBU as overseas operation.

18.2 BASIS OF PREPARATION

The financial statements have been prepared in accordance with requirements prescribed under the Third Schedule (Form A and Form B) of the Banking Regulation Act, 1949. The accounting and reporting policies of the Bank used in the preparation of these financial statements conform to Generally Accepted Accounting Principles in India (Indian GAAP), the guidelines issued by the Reserve Bank of India (RBI) from time to time, the accounting standards notified under section 133 of the Companies Act 2013, read together with paragraph 7 of the Companies (Accounts) Rules 2014 and Companies (Accounting Standards) Amendment Rules, 2016 to the extent applicable and practices generally prevalent in the banking industry in India. The Bank follows the accrual method of accounting and the historical cost convention, unless otherwise stated by RBI guidelines.

SCHEDULES

forming Part of Financial Statements

18.3 USE OF ESTIMATES

The preparation of financial statements requires the management to make estimates and assumptions that are considered while reporting amounts of assets and liabilities (including contingent liabilities) as of the date of the financial statements and income and expenses during the reporting period. Management believes that the estimates used in the preparation of the financial statements are prudent and reasonable. Future results could differ from these estimates. Any revision to accounting estimates is recognized prospectively in current and future periods.

18.4 SIGNIFICANT ACCOUNTING POLICIES

18.4.1 Revenue recognition

Revenue is recognized to the extent it is probable that the economic benefits will flow to the Bank and the revenue can be reliably measured.

- Interest income is recognized in the profit and loss account on accrual basis, except in the case of non-performing assets and accounts under SDR/S4A. Interest on non-performing assets and accounts under SDR/S4A is recognized as per the prudential norms of the RBI. Penal Interest is recognized upon certainty of its realization. RBI has withdrawn the SDR and S4A schemes with effect from February 12, 2018. Accordingly, for cases where the SDR, change in management outside SDR or S4A schemes were not implemented at that date, asset classification and income recognition are done as per the extant RBI norms.
- Dividend income is recognized when the right to receive payment is established.
- Commission on guarantees issued by the Bank is recognized as income over the period of the guarantee.
- Commission on Letters of Credit ('LC') issued by the Bank is recognized as income at the time of issue of the LC.
- Income on non-coupon bearing discounted instruments is recognized over the tenure of the instrument on a straight line basis. In case of coupon bearing discounted instruments, discount income is recognized over the tenor of the instrument on yield basis.
- In case of Bonds and Pass Through Certificates (PTC), premium on redemption, if any, is amortised over the tenure of the instrument on a yield basis.

- Revenue from financial advisory services is recognized in line with milestones achieved as per terms of agreement with clients which is reflective of services rendered.
- Facility fees and loan processing fees are recognised when due and realizable.
- Other fees and commission are accounted for as and when they became due.

18.4.2 Investments

Classification and valuation of the Bank's investments are carried out in accordance with RBI Circular DBR.No.BP. BC.6/21.04.141/2015-16 dated 1 July 2015.

Accounting and Classification

The Bank follows settlement date accounting for investments. In compliance with RBI guidelines, all investments, are categorized as "Held for trading" ('HFT'), "Available for sale" ('AFS') or "Held to maturity" ('HTM') at the time of its purchase. For the purpose of disclosure in the balance sheet, investments are classified as disclosed in Schedule 8 ('Investments') under six groups (a) government securities (b) other approved securities (c) shares (d) bonds and debentures (e) subsidiaries and joint ventures and (f) others.

a) Cost of acquisition

Costs such as brokerage pertaining to investments, paid at the time of acquisition and broken period interest are charged to the profit and loss account as per the RBI guidelines.

b) Basis of classification

Securities that are held principally for resale within 90 days from the date of purchase are classified under the HFT category. Investments that the Bank intends to hold till maturity are classified under the HTM category, or as per RBI guidelines. Securities which are not classified in the above categories are classified under the AFS category.

c) Transfer between categories

Reclassification of investments from one category to the other, if done, is in accordance with RBI guidelines. Transfer of scrips from AFS/HFT category to HTM category is made at the lower of book value or market value. In the case of transfer of securities from HTM to AFS/HFT category, the investments held under HTM

SCHEDULES

forming Part of Financial Statements

at a discount are transferred to AFS/HFT category at the acquisition price and investments placed in the HTM category at a premium are transferred to AFS/HFT at the amortized cost.

Transfer of investments from AFS to HFT or vice-versa is done at the book value. Depreciation carried, if any, on such investments is also transferred from one category to another.

d) Valuation

Investments categorized under AFS and HFT categories are marked to market (MTM) on a periodical basis as per relevant RBI guidelines. Net depreciation, if any, in the category under the classification mentioned in Schedule 8 ('Investments') is recognized in the profit and loss account. The net appreciation, if any, in the category under each classification is ignored, except to the extent of depreciation previously provided. The book value of individual securities is not changed consequent to periodic valuation of investments.

Investments received in lieu of restructured advances scheme are valued in accordance with RBI guidelines. Any diminution in value on these investments is provided for and is not used to set off against appreciation in respect of other performing securities in that category. Depreciation on equity shares acquired and held by the Bank under restructuring scheme is provided as per RBI guidelines.

Investments classified under the HTM category are carried at their acquisition cost and any premium over the face value, paid on acquisition, is amortised on a straight line basis over the remaining period to maturity. Amortization expense of premia on investments in the HTM category is deducted from interest income in accordance with RBI Circular DBR.No.BP.BC.6/21.04.141/2015-16 dated 1 July 2015. Where in the opinion of management, a diminution, other than temporary in the value of investments classified under HTM has taken place, suitable provisions are made.

Treasury Bills, Commercial Paper and Certificates of deposit being discounted instruments, are valued at carrying cost.

Pass Through Certificates purchased for priority sector lending requirements are valued at Book Value in accordance with RBI guidelines.

The market/ fair value applied for the purpose of periodical valuation of quoted investments included in the AFS and HFT categories is the market price of the scrip as available from the trades/ quotes on the stock exchanges and for Subsidiary General Ledger ('SGL') account transactions, the prices as periodically declared by Financial Benchmarks India Pvt. Ltd. (FBIL).

The market/ fair value of unquoted government securities included in the AFS and HFT category is determined as per the prices published by FBIL. Further, in the case of unquoted bonds, debentures, pass through certificates (other than priority sector) and preference shares, valuation is carried out by applying an appropriate mark-up (reflecting associated credit risk) over the Yield to Maturity ('YTM') rates of government securities. Such mark up and YTM rates applied are as per the relevant rates published by FIMMDA/FBIL.

The Bank undertakes short sale transactions in Central Government dated securities in accordance with RBI guidelines. The short position is reflected as the amount received on sale and is netted in the Investment schedule. The short position is marked to market and loss, if any, is charged to the Profit and Loss account while gain, if any, is ignored. Profit/Loss on settlement of the short position is recognised in the Profit and Loss account.

Units of Venture Capital Funds (VCF) held under AFS category are valued using the Net Asset Value (NAV) shown by VCF as per the financial statement. The VCFs are valued based on the audited results once in a year. In case the audited financials are not available for a period beyond 18 months, the investments are valued at ₹1 per VCF.

Quoted equity shares are valued at their closing price on a recognized stock exchange. Unquoted equity shares are valued at the break-up value if the latest balance sheet is available, else, at ₹1 per company, as per relevant RBI guidelines.

SCHEDULES

forming Part of Financial Statements

At the end of each reporting period, security receipts issued by the asset reconstruction company are valued in accordance with the guidelines applicable to such instruments, prescribed by RBI from time to time. Accordingly, in cases where the cash flows from security receipts issued by the asset reconstruction company are limited to the actual realization of the financial assets assigned to the instruments in the concerned scheme, the Bank reckons the net asset value obtained from the asset reconstruction company from time to time, for valuation of such investments at each reporting date.

Investments in quoted Mutual Fund (MF) Units are valued at the latest repurchase price/net asset value declared by the mutual fund. Investments in un-quoted MF Units are valued on the basis of the latest re-purchase price declared by the MF in respect of each particular Scheme.

Sovereign foreign currency bonds are valued using either Composite Bloomberg Bond Trader (CBBT) price or Bloomberg Valuation Service (BVAL) price or on Treasury curve in the chronological order based on availability.

Non- Sovereign foreign currency Bonds are valued using either Composite Bloomberg Bond Trader (CBBT) price or Bloomberg Valuation Service (BVAL) price, Bloomberg Generic price (BGN), last available CBBT pricing for the instrument or Proxy Bond Pricing from Bloomberg in the chronological order based on availability.

Masala bonds are valued using either Composite Bloomberg Bond Trader (CBBT) price or Bloomberg Valuation Service (BVAL) price or as per FIMMDA guided valuation methodology for unquoted bonds in the chronological order based on availability.

Special bonds such as oil bonds, fertilizer bonds, UDAY bonds etc. which are directly issued by Government of India ('GOI') is valued based on FBIL valuation.

Non-performing investments are identified and depreciation/provision are made thereon based on the RBI guidelines. Based on management assessment of impairment, the Bank additionally creates provision over and above the RBI guidelines. The depreciation/provision on such non-performing

investments are not set off against the appreciation in respect of other performing securities. Interest on non-performing investments is not recognised in the Profit and Loss account until received.

e) *Profit/Loss on sale of Investments*

Profit/Loss on sale of Investments in the HTM category is recognized in the profit and loss account and profit thereafter is appropriated (net of applicable taxes and statutory reserve requirements) to Capital Reserve. Profit/Loss on sale of investments in HFT and AFS categories is recognized in the Profit and Loss account.

f) *Accounting for repos/reverse repos*

Securities sold under agreements to repurchase (Repos) and securities purchased under agreements to resell (Reverse Repos) including liquidity adjustment facility (LAF) with RBI are treated as collateralized borrowing and lending transactions respectively in accordance with RBI master circular No. DBR.No.BP.BC.6/21.04.141/2015-16 dated 1 July 2015. The first leg of the repo transaction is contracted at the prevailing market rates. The difference between consideration amounts of first and second (reversal of first) leg reflects interest and is recognized as interest income/expense over the period of transaction.

Bank also undertakes Repo and Reverse repo transactions from IFSC Banking Unit in GIFT City in Foreign currency Sovereign Securities and accounting is similar to the domestic repo transactions.

18.4.3 Advances

Accounting and classification

Advances are classified as performing and non-performing based on the relevant RBI guidelines. Advances are stated net of specific provisions, interest in suspense, inter-bank participation certificates issued and bills rediscounted.

Provisioning

Provisions in respect of non-performing advances are made based on management's assessment of the degree of impairment of the advances, subject to the minimum provisioning level prescribed in relevant RBI guidelines.

SCHEDULES

forming Part of Financial Statements

The specific provision levels for retail non-performing assets are also based on the nature of product and delinquency levels. Specific provisions in respect of non-performing advances are charged to the Profit and Loss account and included under Provisions and Contingencies.

As per the RBI guidelines a general provision is made on all standard advances, including provision for borrowers having unhedged foreign currency exposure and for credit exposures computed as per the current marked to market values of interest rate and foreign exchange derivative contracts. These also includes provision for stressed sector exposures. Such provisions are included in Schedule 5 - 'Other liabilities & provisions - Others'.

In respect of restructured standard and non performing advances, provision is made for the present value of principal and interest component sacrificed at the time of restructuring the assets, based on the RBI guidelines.

Accounts are written-off in accordance with the Bank's policies. Recoveries from bad debts written-off are recognised in the Profit and Loss account and included under other income.

In case of loans sold to asset reconstruction company and consideration is more than net book value, the Bank records the security receipts at Net Book Value as per RBI guidelines.

The Bank has in place a Country Risk management policy as part of its Board approved Credit policy, which is based on extant regulatory guidelines and addresses the identification, measurement, monitoring and reporting of country risk. Countries are categorized into seven risk categories, viz. Insignificant, Low Risk, Moderately Low Risk, Moderate Risk, Moderately Risk, High Risk and Very High Risk. The Bank calculates direct and indirect country risk in line with the policy requirements. Indirect exposure is reckoned at 50% of the exposure in case of countries where the net funded exposure exceeds 1% of the Bank's total assets. Further, if the net funded exposure of the Bank in respect of each country exceeds 1% of the Bank's total assets, provisioning is required to be made on exposure to such countries. Depending on the risk category of the country, provisioning is done on a graded scale ranging from 0.25% to 100% for exposures with contractual maturity greater than or equal to 180 days. In respect of short-term exposures with contractual

maturity less than 180 days, 25% of the normal provision requirement is held.

18.4.4 Transactions involving foreign exchange

Foreign currency income and expenditure items of domestic operations are translated at the exchange rates prevailing on the date of the transaction. Income and expenditure items of integral foreign operations (representative office) are translated at the daily average closing rates and of non-integral foreign operations (foreign branches) at the monthly average closing rates.

Premia/discounts on foreign exchange swaps, that are used to hedge risks arising from foreign currency assets and liabilities, are amortized over the life of the swap.

Monetary foreign currency assets and liabilities are translated at the balance sheet date at rates notified by the Foreign Exchange Dealers' Association of India ('FEDAI'). Foreign exchange contracts are stated at net present value using LIBOR/SWAP curves of the respective currencies. The resulting profits or losses are recognized in the profit and loss account.

In accordance with AS 11 'The Effects of changes in Foreign Exchange Rates', contingent liabilities in respect of outstanding foreign exchange forward contracts, derivatives, guarantees, endorsements and other obligations are stated at the exchange rates notified by FEDAI corresponding to the balance sheet date.

Both monetary and non-monetary foreign currency assets and liabilities of non-integral foreign operations are translated at closing exchange rates notified by FEDAI at the Balance Sheet date and the resulting profit/loss arising from exchange differences are accumulated in the Foreign Currency Translation Account until remittance or the disposal of the net investment in the non-integral foreign operations in accordance with AS - 11.

18.4.5 Earnings per share

The Bank reports basic and diluted earnings per equity share in accordance with Accounting Standard (AS) 20, "Earnings per Share" notified under section 133 of the Companies Act 2013. Basic earnings per equity share have been computed by dividing net profit after tax for the year by the weighted average number of equity shares outstanding for the period.

SCHEDULES

forming Part of Financial Statements

Diluted earnings per equity share have been computed using the weighted average number of equity shares and dilutive potential equity share options outstanding during the period except where the results are anti dilutive. The shareholders of the Bank had approved the sub-division of each equity share having a face value of ₹ 10 into five equity shares having a face value of ₹ 2 each through postal ballot on September 8, 2017. The record date for the sub-division was September 22, 2017. All shares and per share information in the financial results are restated to reflect the effect of sub-division for the year ended March 31, 2017.

18.4.6. Accounting for derivative transactions

Derivative transactions comprises forward rate agreements, swaps and option contracts. The Bank undertakes derivative transactions for market making/trading and hedging on-balance sheet assets and liabilities. All market making/trading transactions are marked to market on a monthly basis and the resultant unrealized gains/losses are recognized in the profit and loss account.

Derivative transactions that are undertaken for hedging are accounted for on accrual basis except for the transaction designated with an asset or liability that is carried at market value or lower of cost or market value in the financial statements, which are accounted similar to the underlying asset or liability.

The Bank follows the option premium accounting framework prescribed by FEDAI SPL- circular dated Dec 14, 2007. Premium on option transaction is recognized as income/expense on expiry or early termination of the transaction. Mark to market (MTM) gain/loss (adjusted for premium received/paid on option contracts) is recorded under 'Other Income'.

The amounts received/paid on cancellation of option contracts are recognized as realized gains/losses on options. Charges receivable/payable on cancellation/

termination of foreign exchange forward contracts and swaps are recognized as income/ expense on the date of cancellation/ termination under 'Other Income'.

The requirement for collateral and credit risk mitigation on derivative contracts is assessed based on internal credit policy. Overdues if any, on account of derivative transactions are accounted in accordance with extant RBI guidelines.

As per the RBI guidelines on 'Prudential Norms for Off-balance Sheet Exposures of Banks' a general provision is made on the current gross MTM gain of the contract for all outstanding interest rate and foreign exchange derivative transactions.

Cross currency interest rate swaps which are used by the Bank to hedge its foreign currency borrowings have been designated as cash flow hedges and are measured at fair value. The corresponding gain or loss is recognised as cash flow hedge reserve. Further to match profit/ loss on account of revaluation of foreign currency borrowing, the corresponding amount is recycled from cash flow hedge reserve to Profit and Loss account.

18.4.7 Fixed assets

Fixed assets are stated at cost less accumulated depreciation, amortization and accumulated impairment losses. Cost comprises the purchase price and any cost attributable for bringing the asset to its working condition for its intended use. Subsequent expenditure incurred on assets put to use is capitalised only when it increases the future benefit/functioning capability from/of such assets.

18.4.8 Depreciation

Depreciation on fixed assets is provided on straight-line method, over estimated useful lives, as determined by the management, at the rates mentioned below-

SCHEDULES

forming Part of Financial Statements

Class of asset	Useful life of Assets as per Companies Act, 2013	Useful life of Assets as per Bank's Accounting Policy
Owned Premises	60 years	60 years
Office equipment	5 years	5 years
Computer hardware ¹	6 years	3 years
Computer software*	6 years	4 years
Vehicles ¹	8 years	5 years
Furniture and Fixtures	10 years	10 years
Automated Teller Machines ('ATMs') ¹	15 years	10 years
Leasehold improvements to premises	-	Over the lease period or 9 years whichever is less.

* As per RBI Guidelines.

¹ Based on technical evaluation, the management believes that the useful lives as given above best represent the period over which management expects to use these assets. Hence, the useful lives for these assets is different from the useful lives as prescribed under Part C of Schedule II of the Companies Act 2013.

- Assets costing up to ₹5,000 are fully depreciated in the year of purchase.
- For assets purchased/ sold during the year, depreciation is being provided on pro rata basis by the Bank.
- Improvements to leasehold assets are depreciated over the remaining period of lease.
- Reimbursement, if any, is recognised on receipt and is adjusted to the book value of asset and depreciated over the balance life of the asset.
- Whenever there is a revision in the estimated useful life of the asset, the unamortised depreciable amount is charged over the revised remaining useful life of the said asset.
- The useful life of assets is based on historical experience of the Bank, which is different from the useful life as prescribed in Schedule II to the Companies Act, 2013.

18.4.9 Impairment of assets

Assets are reviewed for impairment whenever events or changes in circumstances indicate that the carrying amount of an asset may not be recoverable. An asset's recoverable amount is the higher of an asset's net selling price and its value in use. If such assets are considered to be impaired, the impairment is recognised by debiting the profit and loss account and is measured as the amount by which the carrying amount of the assets exceeds the recoverable amount of the assets.

18.4.10 Employee benefits

Employee Stock Option Scheme ('ESOS')

The Employee Stock Option Scheme ('the Scheme') provides for the grant of options to acquire equity shares of the Bank to its employees. The options granted to employees vest in a graded manner and these may be exercised by the employees within a specified period.

Measurement of the employee share-based payment plans is done in accordance with the Guidance Note on Accounting for Employee Share-based Payments issued by Institute of Chartered Accountants of India (ICAI) and SEBI (Share Based Employee Benefits) Regulations, 2014. The Bank measures compensation cost relating to employee stock options using the intrinsic value method. Compensation cost is measured by the excess, if any, of the fair market price of the underlying stock (i.e. the last closing price on the stock exchange on the day preceding the date of grant of stock options) over the exercise price. The exercise price of the Bank's stock option is the last closing price on the stock exchange on the day preceding the date of grant of stock options and accordingly there is no compensation cost under the intrinsic value method.

Leave salary

The employees of the Bank are entitled to carry forward a part of their unavailed/unutilized leave subject to a maximum limit. The employees cannot encash unavailed/unutilized leave. The Bank provides for leave encashment/compensated absences based on an independent actuarial valuation at the Balance Sheet

SCHEDULES

forming Part of Financial Statements

date, which includes assumptions about demographics, early retirement, salary increases, interest rates and leave utilisation.

Gratuity

The Bank provides for gratuity, a defined benefit retirement plan, covering eligible employees. The plan provides for lump sum payments to vested employees at retirement or upon death while in employment or on termination of employment for an amount equivalent to 15 days' eligible salary payable for each completed year of service if the service is more than 5 years. The Bank accounts for the liability for future gratuity benefits using the projected unit cost method based on annual actuarial valuation.

The defined gratuity benefit plans are valued by an independent actuary as at the Balance Sheet date using the projected unit credit method as per the requirement of AS-15, Employee Benefits, to determine the present value of the defined benefit obligation and the related service costs. Under this method, the determination is based on actuarial calculations, which include assumptions about demographics, early retirement, salary increases and interest rates. Actuarial gain or loss is recognised in the Profit and Loss account.

Provident fund

In accordance with law, all employees of the Bank are entitled to receive benefits under the provident fund, a defined contribution plan in which both the employee and the Bank contribute monthly at a pre determined rate. Contribution to provident fund are recognized as expense as and when the services are rendered. The Bank has no liability for future provident fund benefits other than its annual contribution.

National Pension System (NPS)

The NPS is a defined contribution retirement plan. The primary objective is enabling systematic savings and to provide retirees with an option to achieve financial stability. Pension contributions are invested in the pension fund schemes. The Bank has no liability for future fund benefits other than the voluntary contribution made by employees who agree to contribute to the scheme.

18.4.11 Leases

Leases where the lessor effectively retains substantially all risks and benefits of ownership are classified as

operating leases. Operating lease payments are recognized as an expense in the profit and loss account on a straight line basis over the lease term in accordance with Accounting Standard -19, Leases.

18.4.12 Income taxes

Tax expense comprises current and deferred tax. Current tax comprises of the amount of tax for the period determined in accordance with the Income Tax Act, 1961 and the rules framed there under. Deferred income taxes reflects the impact of current year timing differences between taxable income and accounting income for the year and reversal of timing differences of earlier years. Deferred tax assets and liabilities are recognised for the future tax consequences of timing differences between the carrying values of assets and liabilities and their respective tax bases, and operating loss carry forwards. Deferred tax assets and liabilities are measured using the enacted or substantively enacted tax rates at the balance sheet date.

Deferred tax assets are recognized only to the extent there is reasonable certainty that the assets can be realized in future. In case of unabsorbed depreciation or carried forward loss under taxation laws, all deferred tax assets are recognized only if there is virtual certainty of realization of such assets supported by convincing evidence. Deferred tax assets are reviewed at each balance sheet date and appropriately adjusted to reflect the amount that is reasonably/virtually certain to be realized.

18.4.13 Provisions and contingent assets/liabilities

A contingent liability is a possible obligation that arises from past events whose existence will be confirmed by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the Bank or a present obligation that arises from past events that is not recognized because it is not probable that an outflow of resources will be required to settle the obligation or a reliable estimate of the amount of the obligation cannot be made. The Bank does not recognize a contingent liability but discloses its existence in the financial statements.

In accordance with AS 29, Provisions, Contingent Liabilities and Contingent Assets, the Bank creates a provision when there is a present obligation as a result of a past event that probably requires an outflow of

SCHEDULES

forming Part of Financial Statements

resources and a reliable estimate can be made of the amount of the obligation.

Provisions are reviewed at each balance sheet date and adjusted to reflect the current best estimate. If it is no longer probable that an outflow of resources would be required to settle the obligation, the provision is reversed.

Contingent assets are not recognized in the financial statements. However, contingent assets are assessed continually and if it is virtually certain that an inflow of economic benefits will arise, the asset and related income are recognized in the period in which the change occurs.

18.4.14 Cash and Cash equivalent

Cash and cash equivalents include cash in hand, balances with RBI, balances with other banks and money at call and short notice.

18.4.15 Corporate social responsibility

Expenditure towards corporate social responsibility, in accordance with Companies Act, 2013, are recognised in the Profit and Loss account.

18.4.16 Debit and credit cards reward points

The Bank estimates the probable redemption of debit and credit card reward points and cost per point using actuarial valuation method by employing an independent actuary, which includes assumptions such as mortality, redemption and spends.

Provisions for liabilities on said reward points are made based on the actuarial valuation report as furnished by the said independent actuary and included in other liabilities.

18.4.17 Bullion

The Bank imports bullion including precious metal bars on a consignment basis for selling to its customers. The imports are typically on a back-to-back basis and are priced to the customer based on a price quoted by the supplier. The Bank earns a fee on such bullion transactions. The fee is classified in other income. The Bank also deals in bullion on a borrowing and lending basis and the interest paid/received thereon is classified as interest expense/income respectively.

18.4.18 Share issue expenses

Share issue expenses are adjusted from Share Premium Account in terms of Section 52 of the Companies Act, 2013.

18.4.19 Segment information

The disclosure relating to segment information is in accordance with AS-17, Segment Reporting and as per guidelines issued by RBI.

18.4.20 Priority Sector Lending Certificates (PSLC)

The Bank in accordance with RBI circular FIDD.CO.Plan. BC.23/ 04.09.01/2015-16 dated April 7, 2016, trades in priority sector portfolio by selling or buying PSLC. There is no transfer of risks or loan assets in these transactions. The fee paid for purchase of the PSLC is treated as an 'Expense' and the fee received from the sale of PSLCs is treated as 'Other Income'.

18.5.5.5 Disclosures on risk exposure in derivatives

As per RBI Master circular DBR.BP.BC.No.23/21.04.018/2015-16 dated July 1, 2015, the following disclosures are being made with respect to risk exposure in derivatives of the Bank:

- a) Purpose: The Bank uses Derivatives including Forwards & swaps for various purposes including hedging its currency and interest rate risk in its balance sheet, customer offerings and proprietary trading. The management of these products and businesses is governed by Market Risk Policy, Investment Policy, Derivatives Policy, Derivatives Appropriateness Policy, Hedging Policy and ALM policy.
- b) Structure: The Board of Directors of the Bank have constituted a Board level sub-committee, the Risk Monitoring Committee ('RMC') and delegated to it all functions and responsibilities relating to the risk management policy of the Bank and its supervision thereof.
- c) As part of prudent business and risk management practice, the Bank has also instituted a comprehensive limit and control structure encompassing Value-at-Risk (VAR), Sensitivity, Greeks, Stop loss & credit limits for derivative transactions including suitability and appropriateness framework. The Bank has an internal reporting mechanism providing regular reports to the RMC as well as management of the Bank. Such a structure helps the Bank to monitor and mitigate market risk across FX and interest rates.
- d) The Bank has an independent Middle Office and Market Risk functions, which are responsible for monitoring, measurement, and analysis of derivative related risks, among others. The Bank has a Credit Risk Management unit which is responsible for setting up counterparty limits and also a treasury operation unit which is responsible for managing operational aspects of derivatives control function and settlement of transactions. The Bank is subject to a concurrent audit for all treasury transactions, including derivatives transactions, a monthly report of which is periodically submitted to the Audit & Compliance Committee of the Bank.
- e) In addition to the above, the Bank independently evaluates the potential credit exposure on account of all derivative transactions, wherein risk limits are specified separately for each product, in terms of both credit exposure and tenor. As mandated by the Credit Policy of the Bank, the Bank has instituted an approval structure for all treasury/derivative related credit exposures. Wherever necessary, appropriate credit covenants are stipulated as trigger events to call for collaterals or terminate a transaction and contain the risk.
- f) The Bank reports all trading positions to the management on a daily basis. The Bank revalues its trading position on a daily basis for Management and Information System ('MIS') and control purposes and records the same in the books of accounts on a monthly basis.
- g) For derivative contracts in the banking book designated as hedge, the Bank documents at the inception of the relationship between the hedging instrument and the underlying exposure, the risk management objective for undertaking the hedge and the ALCO monitors all outstanding hedges on a periodical basis. Further the Bank's 'Hedging Policy' has stipulated conditions to ensure that the Hedges entered into are effective.

Weighted average no. of equity shares outstanding	2,339,752,831	2,168,766,030
Net profit/(loss)	42,245.64	33,300.96
Diluted earnings per share (₹)	18.06	15.35
Nominal value per share (₹)	2	2

The difference between weighted average number of equity shares outstanding between basic and diluted in the above mentioned disclosure is on account of outstanding ESOPs.

Basic earnings per equity share has been computed by dividing net profit for the year attributable to the equity shareholders by the weighted average number of equity shares outstanding for the year. Diluted earnings per equity share has been computed by dividing the net profit for the year attributable to the equity shareholders by the weighted average number of equity shares and dilutive potential equity shares outstanding during the year, except where the results are anti-dilutive. The dilutive impact is on account of stock options granted to employees by the Bank. There is no impact of dilution on the profits in the current year and previous year.

All shares and per share information in the above table are restated at ₹2 per equity shares to reflect the effect of sub-division for the periods presented.

b. Information relating to the design and structure of remuneration processes and the key features and objectives of remuneration policy-

The Bank has framed Compensation and benefit policy based on the guidelines contained in the RBI circular DBOD No. BC.72/29.67.001/2011-12 dated January 13, 2012 which is approved by the Nomination and Remuneration Committee on January 7, 2013. The remuneration of MD&CEO/Wholetime Directors will be in accordance with the above mentioned circular and shall be reviewed basis RBI guidelines issued from time to time and approved by N&RC before obtaining Regulatory approvals.

The compensation philosophy of the Bank is aligned to the organizational values aimed at encouraging Professional Entrepreneurship and reinforcing a strong culture promoting meritocracy, performance, potential and prudent risk taking.

The Bank's Remuneration policy is to position its pay structure competitively in relation to the market to be able to attract and retain critical talent. The compensation strategy clearly endeavors to differentiate performance significantly and link the same with quality and quantum of rewards. The Bank also strives to create long term wealth creation opportunities through stock option schemes.

Human Capital Management shall review the policy annually or as required, based on changes in statutory, regulatory requirements

and industry practices pertaining to Compensation and Benefits.

c. Description of the ways in which current and future risks are taken into account in the remuneration processes. It should include the nature and type of the key measures used to take account of these risks

The broad factors taken into account for the Annual Review /revision of Fixed Compensation (TCC) & Performance Bonus are:

1. Individual performance based on the Annual Performance Review (APR) process of the Bank.
2. Business Unit performance in terms of financial outcomes, productivity, etc.
3. Consideration of all types of risk factors and shall be symmetrical with risk outcomes as well as sensitive to the time horizon of risk.
4. Profitability of the Bank.
5. Industry Benchmarking and consideration towards cost of living adjustment/ inflation

The Bank subscribes to a 'Sum-of-Parts' compensation methodology, which is reflective of the Bank's commitment and philosophy of creating and sharing value with its employee partners.

The sum-of-parts compensation comprises:

Fixed Compensation
Variable Compensation in the form of Performance Bonus

Employee Stock Option Plans (ESOP)

The Board of Directors of the Bank through its Nomination and Remuneration Committee (N&RC) shall exercise oversight & effective governance over the framing and implementing of the Compensation policy. Human Capital Management under the guidance of MD & CEO shall administer the Compensation and

SCHEDULES

Benefits structure in line with Industry practices and statutory requirements as applicable from time to time.

- d. *Description of the ways in which the Bank seeks to link performance during a performance measurement period with levels of remuneration and a discussion of the bank's policy and criteria for adjusting deferred remuneration before vesting and after vesting.*

The Bank ensures that the compensation remains adjusted for all types of risk, symmetrical with risk outcomes as well as sensitive to the time horizon of risk. Further, the compensation in all forms will be consistent with the risk alignment.

One of the key factors to be considered for the Annual Review /revision of Fixed Compensation (TCC) & Performance Bonus includes individual performance based on the Annual Performance Review (APR) process of the Bank. The evaluation on risk management parameters is an integral part of the Annual Performance Review process, forming part of Key Result Areas of the executives with suitable weightage. The inputs for assessment on these parameters will be independently provided by the Risk Management function of the Bank.

For the services pertaining to financial year 2016-17 where variable pay is 50% or more, 40-60% shall be deferred over minimum period of 3 years. In the event of a negative contribution, deferred compensation shall be subject to appropriate malus/claw back arrangements as decided by the Board Remuneration Committee. Guaranteed bonus shall not be a part of the compensation plan.

The compensation for executives in Risk Control and Compliance functions shall be independent of the business areas they oversee.

The Bank shall not provide any facility or funds or permit employees to insure or hedge

their compensation structure to offset the risk alignment effects embedded in their compensation arrangement.

- e. *Description of the different forms of variable remuneration (i.e. cash, shares, ESOPs and other forms) that the Bank utilizes and the rationale for using these different forms.*

The Bank subscribes to a 'Sum-of-Parts' compensation methodology, which is reflective of the commitment and philosophy of creating and sharing value with the employee partners. The sum-of-parts compensation for executives comprises:

Fixed Compensation (Total Cost to Company-TCC) - Includes value of perquisites.

Variable compensation in the form of Performance /Deferred Bonus – Variable pay shall be in the form of Performance Bonus which will be calculated as a percentage of Fixed Pay. The evaluation on risk management parameters is an integral part of the Annual Performance Review process, forming part of Key Result Areas of the executives with suitable weightage. The inputs for assessment on these parameters will be independently provided by the Risk Management function of the Bank.

Employee Stock Options Plans – These are formulated on a mid to long term basis by the Bank in accordance with SEBI and other Regulatory guidelines. The grant of ESOP shall be under approval from MD & CEO, which shall be subsequently ratified by the Board Remuneration Committee.

- f. *Quantitative Disclosures on Remuneration for MD & CEO and other risk takers*

There were 4 meetings of the N&RC held during the year ended March 31, 2018. The Bank had paid a remuneration of ₹0.60 millions to the members of the N&RC for attending the meetings of the N&RC.

Liquidity Coverage Ratio (LCR):

As per the RBI guidelines, the minimum LCR required to be maintained by banks shall be implemented in a phased manner from January 1, 2015 as given below.

Starting from January 1	2015	2016	2017	2018	2019
Minimum LCR	60.0%	70.0%	80.0%	90.0%	100.0%

The Bank measures and monitors the LCR in line with the Reserve Bank of India's circular dated June 09, 2014 and November 28, 2014 on "Basel III Framework on Liquidity Standards - Liquidity Coverage Ratio (LCR), Liquidity Risk Monitoring Tools and LCR Disclosure Standards" as amended for "Prudential Guidelines on Capital Adequacy and Liquidity Standards" dated March 31, 2015. The LCR guidelines aims to ensure that a bank maintains an adequate level of unencumbered High Quality Liquid Assets (HQLAs) that can be converted into cash to meet its liquidity needs for a 30 calendar day time horizon under a significantly severe liquidity stress scenario. At a minimum, the stock of liquid assets should enable the bank to survive until day 30 of the stress scenario, by which time it is assumed that appropriate corrective actions can be taken. Banks are required to maintain High Quality Liquid Assets of a minimum of 100% of its Net Cash Outflows by January 01, 2019. However, with a view to provide transition time, the guidelines mandate a minimum requirement of 60% w.e.f. January 01, 2015 and a step up of 10% every year to reach the minimum requirement of 100% by January 01, 2019. The LCR applicable from January 01, 2018 onwards is 90%.

- The adequacy in the LCR maintenance is an outcome of a conscious strategy of the Bank towards complying with LCR mandate ahead of the stipulated timelines. The maintenance of LCR, both on end of period and on a average basis, has been on account of multiple factors viz. increase in excess SLR, existing eligibility in Corporate Bond Investments, increase in Retail deposits and increase in non callable deposits.
- The Board of Directors of the Bank has empowered ALCO (Top Management Executive Committee) to monitor and strategize the Balance Sheet profile of the Bank. In line with the business strategy,

ALCO forms an Interest Rate/Liquidity view for the bank with the help of the economic analysis provided by the in-house economic research team of the bank. ALCO of the Bank channelizes various business segments of the Bank to target good quality asset and liability profile to meet the Bank's profitability as well as Liquidity requirements with the help of robust MIS and Risk Limit architecture of the Bank.

- Funding strategies are formulated by the ALCO of the Bank. The objective of the funding strategy is to achieve an optimal funding mix which is consistent with prudent liquidity, diversity of sources and servicing costs. Accordingly, BSMG (Balance Sheet Management Group) of the Bank estimates daily liquidity requirement of the various business segments and manages the same on consolidated basis under ALCO guidance. With the help of Structural and Liquidity Statement prepared by the Bank, BSMG evaluates liquidity requirement and takes necessary action. Periodical reports are also placed before the ALCO for perusal and review.
- The Bank's HQLA comprises of Excess CRR, Excess SLR, eligible foreign sovereign investments, Marginal Standing Facility (MSF) and Facility to Avail Liquidity for Liquidity Coverage Ratio (FALLCR) as permitted under prudential guidance and eligible Level 2 investments. The Bank has a very limited exposure to liquidity risk on account of its Derivatives portfolio. Further, the Bank believes that all inflows and outflows which might have a material impact under the liquidity stress scenario have been considered for the purpose of LCR. Further, SLR investments as well as Corporate Bond portfolio of the Bank considered for HQLA are well diversified across various instruments and Liquid Asset Type are likely to provide the Bank with adequate and timely liquidity.
- The daily average LCR for quarter ending March 31, 2018 is 102.1% which is above RBI prescribed minimum requirement of 90%.
- The Bank has started classifying deposit as operational deposit based on the ALCO approved methodology w.e.f. from January 01, 2018 for the purpose of LCR computation.

18.7.8 Unhedged Foreign Currency Exposure of Bank's Customer

The Bank has in place a policy on managing credit risk arising out of unhedged foreign currency exposures of its borrowers. The objective of this policy is to maximize the hedging on foreign currency exposures of borrowers by reviewing their foreign currency product portfolio and encouraging them to hedge the unhedged portion. In line with the policy, assessment of unhedged foreign currency exposure is a part of assessment of borrowers and is undertaken while proposing limits or at the review stage. Additionally, at the time of sanctioning limits for all clients, the Bank stipulates a limit on the unhedged foreign currency exposure of the client (as a % of total foreign currency exposure sanctioned by the Bank) after considering factors such as internal rating of the borrower, size, possibility of natural hedging, sophistication of borrower and maturity of borrower's financial systems, relative size of unhedged foreign currency exposure with respect to total borrowings of the client, etc. Further, the Bank reviews the unhedged foreign currency exposure across its portfolio on a periodic basis. The Bank also maintains incremental provision and capital towards the unhedged foreign currency exposures of its borrowers in line with the extant RBI guidelines.

The Bank has maintained provision of ₹560.49 millions (previous year: ₹558.08 millions) and additional capital of ₹1,710.94 millions (previous year: ₹2,413.54 millions) on account of Unhedged Foreign Currency Exposure of its borrowers as at March 31, 2018.

18.7.17 Description of contingent liabilities

Sr. No.	Contingent Liabilities	Brief
1.	Claims against the Bank not acknowledged as debts	The Bank is a party to various legal and tax proceedings in the normal course of business. The Bank does not expect the outcome of these proceedings to have a material adverse effect on the Bank's financial conditions, results of operations or cash flows.
2.	Liability on account of forward exchange and derivative contracts.	The Bank enters into foreign exchange contracts, currency options, forward rate agreements, currency swaps and interest rate swaps with interbank participants and customers. Forward exchange contracts are commitments to buy or sell foreign currency at a future date at the contracted rate. Currency swaps are commitments to exchange cash flows by way of interest/principal in one currency against another, based on predetermined rates. Interest rate swaps are commitments to exchange fixed and floating interest rate cash flows. The notional amounts of financial instruments of such foreign exchange contracts and derivatives provide a basis for comparison with instruments recognized on the balance sheet but do not necessarily indicate the amounts of future cash flows involved or the current fair value of the instruments and, therefore, do not indicate the Bank's exposure to credit or price risks. The derivative instruments become favorable (assets) or unfavorable (liabilities) as a result of fluctuations in market rates or prices relative to their terms. The aggregate contractual or notional amount of derivative financial instruments on hand, the extent to which instruments are favorable or unfavorable and, thus the aggregate fair values of derivative financial assets and liabilities can fluctuate significantly.
3.	Guarantees given on behalf of constituents, acceptances, endorsements and other obligations	As a part of its commercial banking activities the Bank issues documentary credit and guarantees on behalf of its customers. Documentary credits such as letters of credit enhance the credit standing of the customers of the Bank. Guarantees generally represent irrevocable assurances that the Bank will make payments in the event of the customer failing to fulfill its financial or performance obligations.
4.	Other items for which the Bank is contingently liable	- Purchase of securities pending settlement - Capital commitments - Amount deposited with RBI under Depositor Education Awareness Fund - Foreign Exchange Contracts (Tom & Spot)
Refer Schedule 12 for amounts relating to contingent liability

INDEPENDENT AUDITOR'S REPORT

To,
The Members of YES Bank BANK Limited

REPORT ON THE AUDIT OF CONSOLIDATED FINANCIAL STATEMENTS

We have audited the accompanying consolidated financial statements of YES Bank Limited (hereinafter referred to as the 'Holding Company') and its subsidiaries (the Holding Company and its subsidiaries together referred to as the 'Group'), which comprise the Consolidated Balance Sheet as at 31 March 2018, the Consolidated Profit and Loss Account and the Consolidated Cash Flow Statement for the year then ended and notes to the consolidated financial statements, including a summary of significant accounting policies and other explanatory information (hereinafter referred to as the 'consolidated financial statements').

MANAGEMENT'S RESPONSIBILITY FOR THE CONSOLIDATED FINANCIAL STATEMENTS

The Holding Company's Board of Directors is responsible for the preparation of these consolidated financial statements in terms of the requirements of the Companies Act, 2013 (hereinafter referred to as the 'Act') that give a true and fair view of the consolidated state of affairs, consolidated profit and consolidated cash flows of the Group in accordance with the accounting principles generally accepted in India, including the Accounting Standards prescribed under Section 133 of the Act, provisions of Section 29 of the Banking Regulation Act, 1949 and the circulars, guidelines and directions issued by the Reserve Bank of India ('RBI') from time to time.

The respective Board of Directors of the companies included in the Group are responsible for maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding the assets of the Group and for preventing and detecting frauds and other irregularities; the selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and the design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the consolidated financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error, which

have been used for the purpose of preparation of the consolidated financial statements by the Directors of the Holding Company, as aforesaid.

In preparing the consolidated financial statements, the respective Board of Directors of the companies included in the Group are responsible for assessing the ability of the Group to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Group or to cease operations, or has no realistic alternative but to do so.

AUDITOR'S RESPONSIBILITY

Our responsibility is to express an opinion on these consolidated financial statements based on our audit. While conducting the audit, we have taken into account the provisions of the Act, the accounting and auditing standards and matters which are required to be included in the audit report under the provisions of the Act and the Rules made thereunder.

We conducted our audit in accordance with the Standards on Auditing specified under Section 143(10) of the Act. Those Standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the consolidated financial statements are free from material misstatements.

An audit involves performing procedures to obtain audit evidence about the amounts and the disclosures in the consolidated financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the consolidated financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal financial control relevant to the Holding Company's preparation of the consolidated financial statements that give a true and fair view in order to design audit procedures that are appropriate in the circumstances. An audit also includes evaluating the appropriateness of the accounting policies used and the reasonableness of the accounting estimates made, as well as evaluating the overall presentation of the consolidated financial statements.

We are also responsible to conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit

evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the ability of Group to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in the auditor's report to the related disclosures in the consolidated financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause Group to cease to continue as a going concern.

We believe that the audit evidence obtained by us and the audit evidence obtained by the other auditor in terms of their report referred to in the 'Other Matter' paragraph below, is sufficient and appropriate to provide a basis for our audit opinion on the consolidated financial statements.

OPINION

In our opinion and to the best of our information and according to the explanations given to us, and based on the consideration of report of the other auditor on separate financial statements and on the other financial information of the subsidiary, the aforesaid consolidated financial statements give the information required by the Act in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India, of the consolidated state of affairs of the Group as at 31 March 2018, their consolidated profit and consolidated cash flows for the year ended on that date.

OTHER MATTER

We did not audit the financial statements of one subsidiary, whose financial statements reflect total assets of ₹508 millions as at 31 March 2018, total revenues of ₹8 millions and net cash inflows amounting to ₹477 millions for the year ended on that date, as considered in the consolidated financial statements. These financial statements have been audited by another auditor whose report has been furnished to us by the Management and our opinion on the consolidated financial statements, insofar as it relates to the amounts and disclosures included in respect of this subsidiary and our report in terms of sub-section (3) of Section 143 of the Act, insofar as it relates to the aforesaid subsidiary is based solely on the report of the other auditor.

Our opinion above on the consolidated financial statements, and our report on Other Legal and Regulatory

Requirements below, is not modified in respect of the above matter with respect to our reliance on the work done and the report of the other auditor.

REPORT ON OTHER LEGAL AND REGULATORY REQUIREMENTS

As required by Section 143(3) of the Act, based on our audit and on the consideration of report of the other auditor on separate financial statements and the other financial information of the subsidiary as noted in the 'Other Matter' paragraph, we report, to the extent applicable, that:

- (a) We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit of the aforesaid consolidated financial statements.
- (b) In our opinion, proper books of account as required by law relating to preparation of the aforesaid consolidated financial statements have been kept so far as it appears from our examination of those books and the report of the other auditor.
- (c) The Consolidated Balance Sheet, the Consolidated Profit and Loss Account and the Consolidated Cash Flow Statement dealt with by this Report are in agreement with the relevant books of account maintained for the purpose of preparation of the consolidated financial statements.
- (d) In our opinion, the aforesaid consolidated financial statements comply with the Accounting Standards specified under section 133 of the Act, to the extent they are not inconsistent with the accounting policies prescribed by RBI.
- (e) On the basis of the written representations received from the directors of the Holding Company and those subsidiary companies audited by us as on 31 March 2018 taken on record by the Board of Directors of the respective companies and the report of the statutory auditors of the other subsidiary company, none of the directors of the Group companies is disqualified as on 31 March 2018 from being appointed as a director in terms of Section 164(2) of the Act
- (f) With respect to the adequacy of the internal financial controls over financial reporting of the Holding Company and its subsidiary companies and the operating effectiveness of such controls, refer to our separate Report in "Annexure A"; and

INDEPENDENT AUDITOR'S REPORT

(g) with respect to the other matters to be included in the Auditor's Report in accordance with Rule 11 of the Companies (Audit and Auditors) Rules, 2014, in our opinion and to the best of our information and according to the explanations given to us:

- (i) The consolidated financial statements disclose the impact of pending litigations on the consolidated financial position of the Group. Refer note 18.19 to the consolidated financial statements.
- (ii) Provision has been made in the consolidated financial statements, as required under the applicable law or accounting standards, for material foreseeable losses, if any, on long-term contracts including derivative contracts. Refer Note 18.21 to the consolidated financial statements.
- (iii) There has been no delay in transferring amounts, required to be transferred, to the

Investor Education and Protection Fund by the Holding Company and its subsidiaries during the year ended 31 March 2018.

- (iv) The disclosures in the consolidated financial statements regarding holdings as well as dealings in specified bank notes during the period from 8 November 2016 to 30 December 2016 have not been made since they do not pertain to the financial year ended 31 March 2018. However, amounts as appearing in the audited consolidated financial statements for the period ended 31 March 2017 have been disclosed.

ANNEXURE A

TO THE INDEPENDENT AUDITOR'S REPORT OF EVEN DATE ON THE CONSOLIDATED FINANCIAL STATEMENTS OF YES BANK LIMITED

Report on the Internal Financial Controls under clause (i) of sub-section 3 of Section 143 of the Companies Act, 2013

In conjunction with our report of the consolidated financial statements of YES Bank Limited and its subsidiaries (collectively referred to as the 'Group') as of and for the year ended 31 March 2018, we have audited the internal financial controls over financial reporting of YES Bank Limited (hereinafter referred to as the 'Holding Company') and its subsidiaries, as of that date.

MANAGEMENT'S RESPONSIBILITY FOR INTERNAL FINANCIAL CONTROLS

The respective Board of Directors of the Holding Company and its subsidiaries are responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Group considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the

'Guidance Note') issued by the Institute of Chartered Accountants of India (the 'ICAI'). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to the respective policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013 (the 'Act').

AUDITOR'S RESPONSIBILITY

Our responsibility is to express an opinion on the Group's internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note and the Standards on Auditing (the 'Standards'), issued by the ICAI and deemed to be prescribed under section 143(10) of the Act, to the extent applicable to an audit of internal financial controls. Those Standards and the Guidance Note require that we comply

ANNEXURE A

with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained and the audit evidence obtained by the other auditor in terms of their report referred to in the 'Other Matter' paragraph below, is sufficient and appropriate to provide a basis for our audit opinion on the Group's internal financial controls system over financial reporting.

MEANING OF INTERNAL FINANCIAL CONTROLS OVER FINANCIAL REPORTING

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition,

use, or disposition of the company's assets that could have a material effect on the financial statements.

INHERENT LIMITATIONS OF INTERNAL FINANCIAL CONTROLS OVER FINANCIAL REPORTING

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

OPINION

In our opinion, the Holding Company and its subsidiaries have, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at 31 March 2018, based on the internal control over financial reporting criteria established by the Holding Company considering the essential components of internal control stated in the Guidance Note issued by the ICAI.

OTHER MATTER

Our aforesaid report under Section 143 (3) (i) of the Act on the adequacy and operating effectiveness of the internal financial controls over financial reporting insofar as it relates to one subsidiary company is based on the corresponding report of the auditors of this company.

Our opinion on the Internal Financial Controls under Clause (i) of sub-section 3 of Section 143 of the Act is not modified in respect of the above matter with respect to our reliance on the work done and the report of other auditor.

The accounting and reporting policies of the Group used in the preparation of these financial statements conform to Generally Accepted Accounting Principles in India (Indian GAAP), the guidelines issued by the Reserve Bank of India (RBI) from time to time, the accounting standards notified under section 133 of the Companies Act 2013, read together with paragraph 7 of the Companies (Accounts) Rules 2014 and Companies (Accounting Standards) Amendment Rules, 2016 to the extent applicable and practices generally prevalent in the banking industry in India. The Group follows the accrual method of accounting and the historical cost convention, unless otherwise stated by RBI guidelines.

18.4 USE OF ESTIMATES

The preparation of financial statements requires the management to make estimates and assumptions that are considered while reporting amounts of assets and liabilities (including contingent liabilities) as of the date of the financial statements and income and expenses during the reporting period. Management believes that the estimates used in the preparation of the financial statements are prudent and reasonable. Future results could differ from these estimates. Any revision to accounting estimates is recognized prospectively in current and future periods.

18.5 SIGNIFICANT ACCOUNTING POLICIES

18.5.1 Revenue recognition

Revenue is recognized to the extent it is probable that the economic benefits will flow to the Group and the revenue can be reliably measured.

- Interest income is recognized in the profit and loss account on accrual basis, except in the case of non-performing assets and accounts under SDR/S4A. Interest on non-performing assets and accounts under SDR/S4A is recognized as per the prudential norms of the RBI. Penal Interest is recognized upon certainty of its realization. RBI has withdrawn the SDR and S4A schemes with effect from February 12, 2018. Accordingly, for cases where the SDR, change in management outside SDR or S4A schemes were not implemented at that date, asset classification and income recognition are done as per the extant RBI norms.
- Dividend income is recognized when the right to receive payment is established.
- Commission on guarantees issued by the Group is recognized as income over the period of the guarantee.
- Commission on Letters of Credit ('LC') issued by the Group is recognized as income at the time of issue of the LC.

18.5.2 Investments

Classification and valuation of the Group's investments are carried out in accordance with RBI Circular DBR. No.BP.BC.6/21.04.141/2015-16 dated 1 July 2015.

Accounting and Classification

The Group follows settlement date accounting for Investments. Investments are recognized using the settlement date basis of accounting. In compliance with RBI guidelines, all investments, are categorized as "Held for trading" ('HFT'), "Available for sale" ('AFS') or "Held

to maturity" ('HTM') at the time of its purchase. For the purpose of disclosure in the balance sheet, investments are classified as disclosed in Schedule 8 ('Investments') under six groups (a) government securities (b) other approved securities (c) shares (d) bonds and debentures (e) subsidiaries and joint ventures and (f) others.

a) Cost of acquisition

Costs such as brokerage pertaining to investments, paid at the time of acquisition and broken period interest are charged to the profit and loss account as per the RBI guidelines.

b) Basis of classification

Securities that are held principally for resale within 90 days from the date of purchase are classified under the HFT category. Investments that the Group intends to hold till maturity are classified under the HTM category, or as per RBI guidelines. Securities which are not classified in the above categories are classified under the AFS category.

c) Transfer between categories

Reclassification of investments from one category to the other, if done, is in accordance with RBI guidelines. Transfer of scripts from AFS/HFT category to HTM category is made at the lower of book value or market value. In the case of transfer of securities from HTM to AFS/HFT category, the investments held under HTM at a discount are transferred to AFS/HFT category at the acquisition price and investments placed in the HTM category at a premium are transferred to AFS/ HFT at the amortized cost.

Transfer of investments from AFS to HFT or vice-versa is done at the book value. Depreciation carried, if any, on such investments is also transferred from one category to another.

d) Valuation

Investments categorized under AFS and HFT categories are marked to market (MTM) on a periodical basis as per relevant RBI guidelines. Net depreciation, if any, in the category under the classification mentioned in Schedule 8 ('Investments') is recognized in the profit and loss account. The net appreciation, if any, in the category under each classification is ignored, except to the

SCHEDULES

forming a Part of Consolidated Financial Statements

extent of depreciation previously provided. The book value of individual securities is not changed consequent to periodic valuation of investments.

Investments received in lieu of restructured advances are valued in accordance with RBI guidelines. Any diminution in value on these investments is provided for and is not used to set off against appreciation in respect of other performing securities in that category. Depreciation on equity shares acquired and held by the Group under restructuring scheme is provided as per RBI guidelines.

Investments classified under the HTM category are carried at their acquisition cost and any premium over the face value, paid on acquisition, is amortised on a straight line basis over the remaining period to maturity. Amortization expense of premia on investments in the HTM category is deducted from interest income in accordance with RBI Circular DBR.No.BP.BC.6/21.04.141/2015-16 dated 1 July 2015. Where in the opinion of management, a diminution, other than temporary in the value of investments classified under HTM has taken place, suitable provisions are made.

Treasury Bills, Commercial Paper and Certificates of deposit being discounted instruments, are valued at carrying cost.

Pass Through Certificates purchased for priority sector lending requirements are valued at Book Value in accordance with RBI guidelines.

The market/ fair value applied for the purpose of periodical valuation of quoted investments included in the AFS and HFT categories is the market price of the scrip as available from the trades/ quotes on the stock exchanges and for Subsidiary General Ledger ('SGL') account transactions, the prices as periodically declared by Financial Benchmarks India Pvt. Ltd.(FBIL).

The market/ fair value of unquoted government securities included in the AFS and HFT category is determined as per the prices published by FBIL. Further, in the case of unquoted bonds, debentures, pass through certificates (other than priority sector) and preference shares, valuation is carried out

by applying an appropriate mark-up (reflecting associated credit risk) over the Yield to Maturity ('YTM') rates of government securities. Such mark up and YTM rates applied are as per the relevant rates published by FIMMDA/FBIL.

The Group undertakes short sale transactions in Central Government dated securities in accordance with RBI guidelines. The short position is reflected as the amount received on sale and is netted in the Investment schedule. The short position is marked to market and loss, if any, is charged to the Profit and Loss account while gain, if any, is ignored. Profit/Loss on settlement of the short position is recognised in the Profit and Loss account.

Units of Venture Capital Funds (VCF) held under AFS category are valued using the Net Asset Value (NAV) shown by VCF as per the financial statement. The VCFs are valued based on the audited results once in a year. In case the audited financials are not available for a period beyond 18 months, the investments are valued at ₹1 per VCF.

Quoted equity shares are valued at their closing price on a recognized stock exchange. Unquoted equity shares are valued at the break-up value if the latest balance sheet is available, else, at ₹1 per company, as per relevant RBI guidelines.

At the end of each reporting period, security receipts issued by the asset reconstruction company are valued in accordance with the guidelines applicable to such instruments, prescribed by RBI from time to time. Accordingly, in cases where the cash flows from security receipts issued by the asset reconstruction company are limited to the actual realization of the financial assets assigned to the instruments in the concerned scheme, the Group reckons the net asset value obtained from the asset reconstruction company from time to time, for valuation of such investments at each reporting date.

Investments in quoted Mutual Fund (MF) Units are valued at the latest repurchase price/net asset value declared by the mutual fund. Investments in un-quoted MF Units are valued on the basis of the latest re-purchase price declared by the MF in respect of each particular Scheme.

SCHEDULES

forming a Part of Consolidated Financial Statements

Sovereign foreign currency Bonds are valued using Composite Bloomberg Bond Trader (CBBT) price or Bloomberg Valuation Service (BVAL) price or on Treasury curve in the chronological order based on availability.

Non-performing investments are identified and depreciation/provision are made thereon based on the RBI guidelines. Based on management assessment of impairment, the Group additionally create provision over and above the RBI guidelines. The depreciation/provision on such non-performing investments are not set off against the appreciation in respect of other performing securities. Interest on non-performing investments is not recognised in the Profit and Loss account until received.

e) Profit/Loss on sale of Investments

Profit/Loss on sale of Investments in the HTM category is recognized in the profit and loss account and profit thereafter is appropriated (net of applicable taxes and statutory reserve requirements) to Capital Reserve. Profit/Loss on sale of investments in HFT and AFS categories is recognized in the Profit and Loss account.

f) Accounting for repos/reverse repos

Securities sold under agreements to repurchase (Repos) and securities purchased under agreements to resell (Reverse Repos) including liquidity adjustment facility (LAF) with RBI are treated as

collateralized borrowing and lending transactions respectively in accordance with RBI master circular No. DBR.No.BP.BC.6/21.04.141/2015-16 dated 1 July 2015. The first leg of the repo transaction is contracted at the prevailing market rates. The difference between consideration amounts of first and second (reversal of first) leg reflects interest and is recognized as interest income/expense over the period of transaction.

Group also undertakes Repo and Reverse repo transactions from IFSC Banking Unit in GIFT City in Foreign currency Sovereign Securities and accounting is similar to the domestic repo transactions.

18.5.3 Advances

Accounting and classification

Advances are classified as performing and non-performing based on the relevant RBI guidelines. Advances are stated net of specific provisions, interest in suspense, inter-bank participation certificates issued and bills rediscounted.

Provisioning

Provisions in respect of non-performing advances are made based on management's assessment of the degree of impairment of the advances, subject to the minimum provisioning level prescribed in relevant RBI guidelines. The specific provision levels for retail non-performing assets are also based on the nature of product and delinquency levels. Specific provisions in respect of non-performing advances are charged to the Profit and Loss account and included under Provisions and Contingencies.

As per the RBI guidelines a general provision is made on all standard advances, including provision for borrowers having unhedged foreign currency exposure and for credit exposures computed as per the current marked to market values of interest rate and foreign exchange derivative contracts. These also includes provision for stressed sector exposures. Such provisions are included in Schedule 5 - 'Other liabilities & provisions - Others'.

In respect of restructured standard and non performing advances, provision is made for the present value of principal and interest component sacrificed at the time of restructuring the assets, based on the RBI guidelines.

SCHEDULES

forming a Part of Consolidated Financial Statements

Accounts are written-off in accordance with the Group's policies. Recoveries from bad debts written-off are recognised in the Profit and Loss account and included under other income.

In case of loans sold to asset reconstruction company and consideration is more than net book value, the Group records the security receipts at Net Book Value as per RBI guidelines.

The Group has in place a Country Risk management policy as part of its Board approved Credit policy, which is based on extant regulatory guidelines and addresses the identification, measurement, monitoring and reporting of country risk. Countries are categorized into seven risk categories, viz. Insignificant, Low Risk, Moderately Low Risk, Moderate Risk, Moderately Risk, High Risk and Very High Risk. The Group calculates direct and indirect country risk in line with the policy requirements. Indirect exposure is reckoned at 50% of the exposure in case of countries where the net funded exposure exceeds 1% of the Group's total assets. Further, if the net funded exposure of the Group in respect of each country exceeds 1% of the Group's total assets, provisioning is required to be made on exposure to such countries. Depending on the risk category of the country, provisioning is done on a graded scale ranging from 0.25% to 100% for exposures with contractual maturity greater than or equal to 180 days. In respect of short-term exposures with contractual maturity less than 180 days, 25% of the normal provision requirement is held.

18.5.4 Transactions involving foreign exchange

Foreign currency income and expenditure items of domestic operations are translated at the exchange rates prevailing on the date of the transaction. Income and expenditure items of integral foreign operations (representative offices) are translated at the daily average closing rates and of non-integral foreign operations (foreign branches) at the monthly average closing rates.

Premia/discounts on foreign exchange swaps, that are used to hedge risks arising from foreign currency assets and liabilities, are amortized over the life of the swap.

Monetary foreign currency assets and liabilities are translated at the balance sheet date at rates notified by the Foreign Exchange Dealers' Association of India ('FEDAI'). Foreign exchange contracts are stated at

net present value using LIBOR/SWAP curves of the respective currencies. The resulting profits or losses are recognized in the profit and loss account.

In accordance with AS 11 'The Effects of changes in Foreign Exchange Rates', contingent liabilities in respect of outstanding foreign exchange forward contracts, derivatives, guarantees, endorsements and other obligations are stated at the exchange rates notified by FEDAI corresponding to the balance sheet date.

Both monetary and non-monetary foreign currency assets and liabilities of non-integral foreign operations are translated at closing exchange rates notified by FEDAI at the Balance Sheet date and the resulting profit/loss arising from exchange differences are accumulated in the Foreign Currency Translation Account until remittance or the disposal of the net investment in the non-integral foreign operations in accordance with AS - 11.

18.5.5 Earnings per share

The Group reports basic and diluted earnings per equity share in accordance with Accounting Standard (AS) 20, "Earnings per Share" notified under section 133 of the Companies Act 2013. Basic earnings per equity share have been computed by dividing net profit after tax for the year by the weighted average number of equity shares outstanding for the period.

Diluted earnings per equity share have been computed using the weighted average number of equity shares and dilutive potential equity shares options outstanding during the period except where the results are anti dilutive. The shareholders of the Bank had approved the sub-division of each equity share having a face value of ₹ 10 into five equity shares having a face value of ₹ 2 each through postal ballot on September 8, 2017. The record date for the sub-division was September 22, 2017. All shares and per share information in the financial results are restated to reflect the effect of sub-division for the year ended March 31, 2017.

18.5.6. Accounting for derivative transactions

Derivative transactions comprises forward rate agreements, swaps and option contracts. The Group undertakes derivative transactions for market making/trading and hedging on-balance sheet assets and liabilities. All market making/trading transactions are marked to market on a monthly basis and the resultant

SCHEDULES

forming a Part of Consolidated Financial Statements

unrealized gains/losses are recognized in the profit and loss account.

Derivative transactions that are undertaken for hedging are accounted for on accrual basis except for the transaction designated with an asset or liability that is carried at market value or lower of cost or market value in the financial statements, which are accounted similar to the underlying asset or liability.

The Group follows the option premium accounting framework prescribed by FEDAI SPL- circular dated Dec 14, 2007. Premium on option transaction is recognized as income/expense on expiry or early termination of the transaction. Mark to market (MTM) gain/loss (adjusted for premium received/paid on option contracts) is recorded under 'Other Income'.

The amounts received/paid on cancellation of option contracts are recognized as realized gains/losses on options. Charges receivable/payable on cancellation/termination of foreign exchange forward contracts and swaps are recognized as income/ expense on the date of cancellation/ termination under 'Other Income'.

The requirement for collateral and credit risk mitigation on derivative contracts is assessed based on internal credit policy. Overdues if any, on account of derivative

transactions are accounted in accordance with extant RBI guidelines.

As per the RBI guidelines on 'Prudential Norms for Off-balance Sheet Exposures of Groups' a general provision is made on the current gross MTM gain of the contract for all outstanding interest rate and foreign exchange derivative transactions.

Cross currency interest rate swaps which are used by the Group to hedge its foreign currency borrowings have been designated as cash flow hedges and are measured at fair value. The corresponding gain or loss is recognised as cash flow hedge reserve. Further to match profit/ loss on account of revaluation of foreign currency borrowing, the corresponding amount is recycled from cash flow hedge reserve to Profit and Loss account.

18.5.7 Fixed assets

Fixed assets are stated at cost less accumulated depreciation, amortization and accumulated impairment losses. Cost comprises the purchase price and any cost attributable for bringing the asset to its working condition for its intended use. Subsequent expenditure incurred on assets put to use is capitalised only when it increases the future benefit /functioning capability from/of such assets.

SCHEDULES

forming a Part of Consolidated Financial Statements

18.5.8 Depreciation

Depreciation on fixed assets is provided on straight-line method, over estimated useful lives, as determined by the management, at the rates mentioned below-

Class of asset	Useful life of Assets as per Companies Act, 2013	Useful life of Assets as per Group's Accounting Policy
Owned Premises	60 years	60 years
Office equipment	5 years	5 years
Computer hardware ¹	6 years	3 years
Computer software *	6 years	4 years
Vehicles ¹	8 years	5 years
Furniture and Fixtures	10 years	10 years
Automated Teller Machines ('ATMs') ¹	15 years	10 years
Leasehold improvements to premises	-	Over the lease period or 9 years whichever is less.

* As per RBI Guidelines.

¹ Based on technical evaluation, the management believes that the useful lives as given above best represent the period over which management expects to use these assets. Hence, the useful lives for these assets is different from the useful lives as prescribed under Part C of Schedule II of the Companies Act 2013.

- Assets costing up to ₹5,000 are fully depreciated in the year of purchase.
- For assets purchased/ sold during the year, depreciation is being provided on pro rata basis by the Group.
- Improvements to leasehold assets are depreciated over the remaining period of lease
- Reimbursement, if any, is recognised on receipt and is adjusted to the book value of asset and depreciated over the balance life of the asset
- Whenever there is a revision in the estimated useful life of the asset, the unamortised depreciable amount is charged over the revised remaining useful life of the said asset
- The useful life of assets is based on historical experience of the Group, which is different from the useful life as prescribed in Schedule II to the Companies Act, 2013.

18.5.9 Impairment of assets

Assets are reviewed for impairment whenever events or changes in circumstances indicate that the carrying amount of an asset may not be recoverable. An asset's recoverable amount is the higher of an asset's net selling price and its value in use. If such assets are considered to be impaired, the impairment is recognised by debiting the profit and loss account and is measured as the amount by which the carrying amount of the assets exceeds the recoverable amount of the assets.

SCHEDULES

forming a Part of Consolidated Financial Statements

18.5.10 Employee benefits

Employee Stock Option Scheme ('ESOS')

The Employee Stock Option Scheme ('the Scheme') provides for the grant of options to acquire equity shares of the Bank to its employees. The options granted to employees vest in a graded manner and these may be exercised by the employees within specified periods.

Measurement of the employee share-based payment plans is done in accordance with the Guidance Note on Accounting for Employee Share-based Payments issued by Institute of Chartered Accountants of India (ICAI) and SEBI (Share Based Employee Benefits) Regulations, 2014. The Group measures compensation cost relating to employee stock options using the intrinsic value method. Compensation cost is measured by the excess, if any, of the fair market price of the underlying stock (i.e. the last closing price on the stock exchange on the day preceding the date of grant of stock options) over the exercise price. The exercise price of the Bank's stock option is the last closing price on the stock exchange on the day preceding the date of grant of stock options and accordingly there is no compensation cost under the intrinsic value method.

Leave salary

The employees of the Group are entitled to carry forward a part of their unavailed/unutilized leave subject to a maximum limit. The employees cannot encash unavailed/unutilized leave. The Group provides for leave encashment/compensated absences based on an independent actuarial valuation at the Balance Sheet date, which includes assumptions about demographics, early retirement, salary increases, interest rates and leave utilisation.

Gratuity

The Group provides for gratuity, a defined benefit retirement plan, covering eligible employees. The plan provides for lump sum payments to vested employees at retirement or upon death while in employment or on termination of employment for an amount equivalent to 15 days' eligible salary payable for each completed year of service if the service is more than 5 years. The Group accounts for the liability for future gratuity benefits using the projected unit cost method based on annual actuarial valuation.

The defined gratuity benefit plans are valued by an independent actuary as at the Balance Sheet date using

the projected unit credit method as per the requirement of AS-15, Employee Benefits, to determine the present value of the defined benefit obligation and the related service costs. Under this method, the determination is based on actuarial calculations, which include assumptions about demographics, early retirement, salary increases and interest rates. Actuarial gain or loss is recognised in the Profit and Loss account.

Provident fund

In accordance with law, all employees of the Group are entitled to receive benefits under the provident fund, a defined contribution plan in which both the employee and the Group contribute monthly at a pre determined rate. Contribution to provident fund are recognized as expense as and when the services are rendered. The Group has no liability for future provident fund benefits other than its annual contribution.

National Pension System (NPS)

The NPS is a defined contribution retirement plan. The primary objective is enabling systematic savings and to provide retirees with an option to achieve financial stability. Pension contributions are invested in the pension fund schemes. The Group has no liability for future fund benefits other than the voluntary contribution made by employees who agree to contribute to the scheme.

18.5.11 Leases

Leases where the lessor effectively retains substantially all risks and benefits of ownership are classified as operating leases. Operating lease payments are recognized as an expense in the profit and loss account on a straight line basis over the lease term in accordance with Accounting Standard-19, Leases.

18.5.12 Income taxes

Tax expense comprises current and deferred tax. Current tax comprises of the amount of tax for the period determined in accordance with the Income Tax Act, 1961 and the rules framed there under. Deferred income taxes reflects the impact of current year timing differences between taxable income and accounting income for the year and reversal of timing differences of earlier years. Deferred tax assets and liabilities are recognised for the future tax consequences of timing differences between the carrying values of assets and liabilities and their respective tax bases, and operating loss carry forwards.

SCHEDULES

forming a Part of Consolidated Financial Statements

Deferred tax assets and liabilities are measured using the enacted or substantively enacted tax rates at the balance sheet date.

Deferred tax assets are recognized only to the extent there is reasonable certainty that the assets can be realized in future. In case of unabsorbed depreciation or carried forward loss under taxation laws, all deferred tax assets are recognized only if there is virtual certainty of realization of such assets supported by convincing evidence. Deferred tax assets are reviewed at each balance sheet date and appropriately adjusted to reflect the amount that is reasonably/virtually certain to be realized.

The Group recognises MAT credit available as an asset only to the extent that the entities of the Group, based on reasonable evidence, will be able to recoup/set off MAT credit against income tax liability during the specified period i.e. the period for which MAT credit set off is allowed.

The Group reviews the "MAT credit entitlement" asset at each reporting date and writes down the asset to the extent the entities of the Group does not have reasonable evidence that it will be able to recoup set off of MAT credit against the income tax liability during the specified period.

18.5.13 Provisions and contingent assets/liabilities

A contingent liability is a possible obligation that arises from past events whose existence will be confirmed by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the Group or a present obligation that arises from past events that is not recognized because it is not probable that an outflow of resources will be required to settle the obligation or a reliable estimate of the amount of the obligation cannot be made. The Group does not recognize a contingent liability but discloses its existence in the financial statements.

In accordance with AS 29, Provisions, Contingent Liabilities and Contingent Assets, the Group creates a provision when there is a present obligation as a result of a past event that probably requires an outflow of resources and a reliable estimate can be made of the amount of the obligation.

Provisions are reviewed at each balance sheet date and adjusted to reflect the current best estimate. If it is no

longer probable that an outflow of resources would be required to settle the obligation, the provision is reversed.

Contingent assets are not recognized in the financial statements. However, contingent assets are assessed continually and if it is virtually certain that an inflow of economic benefits will arise, the asset and related income are recognized in the period in which the change occurs.

18.5.14 Cash and Cash equivalent

Cash and cash equivalents include cash in hand, balances with RBI, balances with other banks and money at call and short notice.

18.5.15 Corporate social responsibility

Expenditure towards corporate social responsibility, in accordance with Companies Act, 2013, are recognised in the Profit and Loss account.

18.5.16 Debit and credit cards reward points

The Group estimates the probable redemption of debit and credit card reward points and cost per point using actuarial valuation method by employing an independent actuary, which includes assumptions such as mortality, redemption and spends.

Provisions for liabilities on said reward points are made based on the actuarial valuation report as furnished by the said independent actuary and included in other liabilities.

18.5.17 Bullion

The Group imports bullion including precious metal bars on a consignment basis for selling to its customers. The imports are typically on a back-to-back basis and are priced to the customer based on a price quoted by the supplier. The Group earns a fee on such bullion transactions. The fee is classified in other income. The Group also deals in bullion on a borrowing and lending basis and the interest paid/received thereon is classified as interest expense/income respectively.

18.5.18 Share issue expenses

Share issue expenses are adjusted from Share Premium Account in terms of Section 52 of the Companies Act, 2013.

SCHEDULES

Later than five years	16,627.33	11,345.53
TOTAL	35,030.10	23,031.82

The Group does not have any provisions relating to contingent rent.

The terms of renewal/purchase options and escalation clauses are those normally prevalent in similar agreements. There are no undue restrictions or onerous clauses in the agreements.

18.13 EARNINGS PER SHARE ('EPS')

The Group reports basic and diluted earnings per equity share in accordance with AS-20, "Earnings Per Share". The dilutive impact is mainly due to stock options granted to employees by the Group.

The computation of earnings per share is given below:

	(₹ in millions)	
	Year ended March 31, 2018	Year ended March 31, 2017
Basic (annualised)		
Weighted average no. of equity shares outstanding	2,292,768,279	2,110,704,005
Net profit/(loss) (₹ in millions)	42,332.20	33,398.86
Basic earnings per share (₹)	18.46	15.82
Diluted (annualised)		
Weighted average no. of equity shares outstanding	2,339,752,831	2,168,766,030
Net profit/(loss) (₹ in millions)	42,332.20	33,398.86
Diluted earnings per share (₹)	18.09	15.40
Nominal value per share (₹)	2	2

The difference between weighted average number of equity shares outstanding between basic and diluted in the above mentioned disclosure is on account of outstanding ESOPs.

Basic earnings per equity share has been computed by dividing net profit for the year attributable to the equity shareholders by the weighted average number of equity shares outstanding for the year. Diluted earnings per equity share has been computed by dividing the net profit for the year attributable to the equity shareholders by the weighted average number of equity shares and dilutive potential equity shares options outstanding during the year, except where the results are anti-dilutive. The dilutive impact is on account of stock options granted to employees by the Bank. There is no impact of dilution on the profits in the current year and previous year.

18.14 ESOP DISCLOSURES

Statutory Disclosures Regarding Joining Stock Option Scheme:

The Group has Five Employee Stock Option Schemes viz.

- Joining Employee Stock Option Plan II (JESOP II),
- Joining Employee Stock Option Plan III (JESOP III),
- YBL ESOP (consisting of two sub schemes JESOP IV/PESOP I)
- YBL JESOP V/PESOP II (Consisting of three sub schemes JESOP V/ PESOP II/PESOP II -2010).

The schemes include provisions for grant of options to eligible employees of the Group. All the aforesaid schemes have been approved by the Board Remuneration Committee and the Board of Directors and were also approved by the members of the Bank. All these schemes are administered by the Board Remuneration Committee.

JESOP II and JESOP III were in force for employees joining the Group up to March 31, 2006 and March 31, 2007 respectively.

YBL JESOP V is in force for employees joining the Group from time to time. Under JESOP V, 50% options vest takes place at the end of three years and remaining 50% at the end of five years from the date of Grant.

PESOP I, PESOP II and PESOP II - 2010 are Performance Stock Option Plans. Under PESOP I, 25% of the options granted would vest at the end of each year from the date of grant. Under PESOP II, 30% of the granted options vest at the end of first year, 30% vest at the end of second year and balance 40% vest at the end of third year. Under YBL PESOP II – 2010, 30% of the granted options vest at the end of the third year, 30% vest at the end of the fourth year and balance 40% vest at the end of the fifth year.

Further, grants under PESOP II had been discontinued with effect from January 20, 2010.

Options under all the aforesaid plans are granted for a term of 10 years (inclusive of the vesting period) and are settled with equity shares being allotted to the beneficiary upon exercise.

18.17 DUES TO MICRO AND SMALL ENTERPRISES

Under the Micro, Small and Medium Enterprises Development Act, 2006 which came into force from October 2, 2006, certain disclosures are required to be made relating to Micro, Small and Medium enterprises. There have been no reported cases of interest payments due to delays in such payments to Micro, Small and Medium enterprises.

Auditors have relied upon the above management assertion.

18.18 ADDITIONAL DISCLOSURE

Additional statutory information disclosed in the separate financial statements of the Bank and subsidiaries having no material bearing on the true and fair view of the consolidated financial statements and the information pertaining to the items which are not material have not been disclosed in the consolidated financial statement.

18.19 DESCRIPTION OF CONTINGENT LIABILITIES

Sr. No.	Contingent Liabilities	Brief
1.	Claims against the Group not acknowledged as debts	The Group is a party to various legal and tax proceedings in the normal course of business. The Group does not expect the outcome of these proceedings to have a material adverse effect on the Group's financial conditions, results of operations or cash flows.
2.	Liability on account of forward exchange and derivative contracts.	The Group enters into foreign exchange contracts, currency options, forward rate agreements, currency swaps and interest rate swaps with interbank participants and customers. Forward exchange contracts are commitments to buy or sell foreign currency at a future date at the contracted rate. Currency swaps are commitments to exchange cash flows by way of interest/principal in one currency against another, based on predetermined rates. Interest rate swaps are commitments to exchange fixed and floating interest rate cash flows. The notional amounts of financial instruments of such foreign exchange contracts and derivatives provide a basis for comparison with instruments recognized on the balance sheet but do not necessarily indicate the amounts of future cash flows involved or the current fair value of the instruments and, therefore, do not indicate the Group's exposure to credit or price risks. The derivative instruments become favorable (assets) or unfavorable (liabilities) as a result of fluctuations in market rates or prices relative to their terms. The aggregate contractual or notional amount of derivative financial instruments on hand, the extent to which instruments are favorable or unfavorable and, thus the aggregate fair values of derivative financial assets and liabilities can fluctuate significantly.
3.	Guarantees given on behalf of constituents, acceptances, endorsements and other obligations	As a part of its commercial banking activities the Group issues documentary credit and guarantees on behalf of its customers. Documentary credits such as letters of credit enhance the credit standing of the customers of the Group. Guarantees generally represent irrevocable assurances that the Group will make payments in the event of the customer failing to fulfill its financial or performance obligations.
4.	Other items for which the Group is contingently liable	<ul style="list-style-type: none"> - Purchase of securities pending settlement - Capital commitments - Amount deposited with RBI under Depositor Education Awareness Fund - Foreign Exchange Contracts (Tom & Spot)
